Choosing the Right Medical Plan

You have three medical plan options through Blue Cross Blue Shield – low, basic and high. All options include prescription drug coverage through CVS Caremark. The plans differ in the premium, deductible, coinsurance and stop-loss amounts. Please see the enclosed document for COBRA medical insurance premiums for all options and coverage categories. Take time to compare the three options and find the right plan for you and your lifestyle.

	LOW	BASIC	HIGH
What do you prefer?	Low: You would rather pay less each month and pay more when you receive medical care. You don't expect to have many medical expenses, but you have enough money on hand to pay the full deductible if you do need care.	Basic: You prefer a balance between the amount you pay each month and the amount you pay out-of-pocket when you receive medical care. Many people find that the basic option is the best choice, from a purely economic perspective.	High: You prefer to pay more each month so you can pay less when you receive medical care. Please note that the premiums for the high option are significantly higher than the premiums for the low and basic options. If you are currently enrolled in the high option, you may want to consider changing to the low or basic option.
Annual Deductible (the amount you pay out-of-pocket for health care before the plan begins to pay. You are responsible for the deductible <i>when you receive care.</i>)			
-PPO -Non-PPO	\$1,550 single; \$3,100 family \$1,950 single; \$3,900 family	\$450 single; \$900 family \$650 single; \$1,300 family	\$300 single; \$600 family \$450 single; \$900 family
Coinsurance (the percentage of an insurance claim that you are responsible for paying)			
-PPO -Non-PPO	You pay 30% You pay 45%	You pay 30% You pay 45%	You pay 20% You pay 35%
Stop-loss (the maximum amount you will have to pay per year – not including your deductible)			
-PPO -Non-PPO	\$2,500 single; \$5,000 family \$2,900 single; \$5,800 family	\$1,600 single; \$3,200 family \$2,000 single; \$4,000 family	\$1,400 single; \$2,800 family \$1,700 single; \$3,400 family

We encourage you to discuss your unique needs, financial status and health coverage concerns with your Campus Benefits Office to make sure you find the right plan for you and your family. More information is also available at www.nebraska.edu/benefits.

Prescription Drug Coverage

Prescription Drug Coverage

Prescription drug coverage through CVS Caremark is included in your medical coverage – you do not have to pay an additional premium to participate. You can fill your prescriptions in person at a participating CVS Caremark retail network pharmacy or by mail order.

New: Prescription drug deductible and copay amounts will not increase in 2014.

DAY SUPPLY	UPTO 30
Generic	\$9 copay
Brand (on Formulary/Primary Drug List)	\$31 copay
Brand (not on Formulary/Primary Drug List)	\$52 copay

*An annual \$57 deductible is also required for brand-name drugs for each covered person. Once you meet the deductible, you will pay the applicable prescription drug copay listed above.

New: The three prescription drug programs listed below will be expanded in 2014. CVS Caremark will contact you if you are impacted by one of the programs. More information about these programs, including a list of the impacted drugs, is available at www.nebraska.edu/benefits.

Formulary Drug Exclusion Program

The CVS Caremark formulary drug exclusion program will be expanded in 2014. The program impacts non-formulary brand name drugs and products, and requires you to get documentation from your physician to demonstrate the medical necessity for you to receive the specific drug or product. If medical necessity is documented and approved, you will pay the brand non-formulary copay. If medical necessity is not demonstrated, the drug will not be covered by the prescription drug plan and you will be responsible for the full cost of the drug.

Generic Step Therapy Program

The generic step therapy program will also be expanded in 2014 to encourage members to use preferred drugs instead of non-preferred drugs. This program enhances the use of safe, equally effective, and less expensive drugs before "stepping up" to a more expensive alternative. Generally, members are required to try a generic or preferred brand drug before a non-preferred brand is dispensed.

Specialty Drug Step Therapy Program

The step therapy program for specialty drugs is similar to the generic step therapy program. It requires members to try a preferred brand drug before the non-preferred brand drug can be dispensed. This program impacts users of prescription drugs in the Auto-Immune and Multiple Sclerosis drug class.

New CVS Caremark Identification Card

The CVS Caremark group identification number has recently changed. The new ID card may be accessed at www.nebraska.edu/benefits (click on the "Benefit Forms" link).

Dental and Vision Coverage

Dental Coverage

Dental coverage is offered through Blue Cross Blue Shield. Coverage includes a Preferred Provider option, which lowers your out-of-pocket expenses. If you are currently enrolled for dental insurance, you may want to review your need for coverage by comparing your actual dental expenses versus the annual cost of premiums.

New for 2014: Some dental plan premiums will increase in 2014. Enclosed is a document showing COBRA dental premiums for all coverage categories.

You will receive a Schedule of Benefits confirming dental insurance coverage in January 2014. The 2014 Blue Cross Blue Shield of Nebraska Dental Certificate of Coverage (plan booklet) will be available on the university's benefits webpage at www.nebraska.edu/benefits in January 2014.

Vision Coverage

Vision coverage is offered through EyeMed Vision Care. Coverage includes eye exams, glasses or contact lenses, and other services at a reduced cost.

New: Vision care premiums will increase in 2014. Enclosed is a document showing COBRA vision premiums for all coverage categories.

The University of Nebraska believes its medical plan is a “grandfathered health plan” under the Patient Protection and Affordable Care Act (the Affordable Care Act). As permitted by the Affordable Care Act, a grandfathered health plan can preserve certain basic health coverage that was already in effect when that law was enacted. Being a grandfathered health plan means that your plan may not include certain consumer protections of the Affordable Care Act that apply to other plans (e.g. the requirement for the provision of preventive health services without any cost sharing). However, grandfathered health plans must comply with certain other consumer protections in the Affordable Care Act (e.g. the elimination of lifetime limits on benefits).

Questions regarding which protections apply and which protections do not apply to a grandfathered health plan and what might cause a plan to change from grandfathered health plan status can be directed to your Campus Benefits Office. You may also contact the Employee Benefits Security Administration, U.S. Department of Labor at 1-866-444-3272 or www.dol.gov/ebsa/healthreform. This website has a table summarizing which protections do and do not apply to grandfathered health plans.
