Independent Auditors' Report on the Schedule of Expenditures of Federal Awards

The Board of Regents
University of Nebraska:

Report on Schedule of Expenditures of Federal Awards

We have audited the accompanying schedule of expenditures of federal awards (the Schedule) of the University of Nebraska (the University) for the year ended June 30, 2015 and the related notes to the Schedule.

Management's Responsibility for the Schedule of Expenditures of Federal Awards

Management is responsible for the preparation and fair presentation of the Schedule in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the Schedule that is free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the Schedule based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether the Schedule is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures of the Schedule. The procedures selected depend on the auditors' judgment including the assessment of the risks of material misstatement of the Schedule, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the Schedule in order to design audit procedures that are appropriate in the circumstance, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over financial reporting of the Schedule. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used, the reasonable of significant accounting estimates made by management, as well as the overall presentation of the Schedule.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the schedule of expenditures of federal awards referred to above presents fairly, in all material respects, the expenditures of federal awards of the University of Nebraska for the year ended June 30, 2015, in conformity with U.S. generally accepted accounting principles.

UNIVERSITY OF NEBRASKA

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2015

(1) Summary of Significant Accounting Policies

Basis of Presentation

The purpose of the accompanying supplemental schedule of expenditures of federal awards (the Schedule) is to present a detail of all programs classified by federal grantor agency expended by the University of Nebraska (the University) for the year ended June 30, 2015. Because the Schedule presents only a selected portion of the operations of the University, it is not intended to and does not present the financial position, changes in net position, or cash flows of the University. For the purpose of the Schedule, federal awards have been classified into two types:

- Direct federal awards consisting of federal awards and federal student financial aid
- Pass-through funds received from nonfederal organizations made under federally sponsored programs conducted by those organizations.

Catalog of Federal Domestic Assistance (CFDA) numbers are presented for those programs for which such numbers are available. Programs for which no CFDA numbers are available have been presented under the applicable caption in the Schedule showing the grantor federal agency number and grant identification number. Those programs without CFDA or grant numbers primarily represent pass-through funds for which such information was not available from the grantor.

The accounting principles followed by the University in each of these areas and used in preparing the accompanying Schedule are as follows:

Reporting Entity – The reporting entity for the Schedule includes the accounts for all of the divisions of the University.

Total Federal Awards – Expenditures for direct costs are recognized as incurred using the accrual method of accounting and the cost accounting principles contained in the U.S. Office of Management and Budget (OMB) Circular A-21, *Cost Principles for Educational Institutions and Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations*. Under those cost principles, certain types of expenditures are not allowable or are limited as to reimbursement. Moreover, expenditures include a portion of costs associated with general University activities, which are allocated to federal awards under negotiated formulas, referred to as “indirect costs.” Restricted grants and contracts and other agreements are recognized when funds are expended in accordance with grant provisions.

Expenditures are recognized on the accrual basis for awards made to students and allowable administrative expenses of conducting such programs. Grants with immaterial credit balances resulting from adjustments in the normal course of business to prior year expenditures have been eliminated.

UNIVERSITY OF NEBRASKA

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2015

(2) Student Financial Aid Loan Programs

The University administers the following federally funded student loan programs:

	<u>CFDA number</u>	<u>Outstanding balances at June 30, 2014</u>	<u>Outstanding balances at June 30, 2015</u>	<u>Disbursements for the year ended June 30, 2015</u>
Federal Perkins Loan Program	84.038	\$ 28,860,135	\$ 29,695,000	\$ 4,927,541
Nursing Student Loan Program	93.364	531,028	520,831	85,800
Health Profession Student Loan Programs	93.342	6,048,767	6,774,900	285,000

Balances and transactions relating to these programs are included in the University's basic financial statements. The four campuses of the University (UNL, UNMC, UNO, and UNK) participate in the Federal Direct Loan Program (including Federal Stafford and PLUS loans). As the University receives these funds directly, the amount \$(231,898,860) is included in the Schedule.

Independent Auditors' Report on Compliance for Each Major Federal Program and Report on Internal Control over Compliance

The Board of Regents
University of Nebraska:

Report on Compliance for Each Major Federal Program

We have audited University of Nebraska's (the University) compliance with the types of compliance requirements described in the OMB *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2015. The University's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the University's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on the University's compliance.

Opinion on Each Major Federal Program

In our opinion, the University of Nebraska complied, in all material respects, with the compliance requirements referred above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

Report on Internal Control over Compliance

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing

our audit of compliance, we considered the University's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
