

# You can get there

from here,

here,

here,

and here.

Teaching? Communications? Medicine? Information Technology? No Clue? As if choosing a major weren't difficult enough, there's still the small matter of selecting a school. Fortunately, the University of Nebraska can simplify the process with a broad choice of majors at four different campuses. So the question becomes, "Which campus best suits your lifestyle?" **The University of Nebraska at Kearney** is an undergraduate, residential campus in the heart of the state that offers students plenty of individualized attention. Our largest campus, the **University of Nebraska – Lincoln**, is a major research university that has been nationally

recognized for innovative undergraduate programs. The **University of Nebraska Medical Center** in Omaha also provides a research-rich learning environment for future doctors, nurses, dentists, pharmacists, and allied health professionals. And the **University of Nebraska at Omaha** is a metropolitan university offering students ample internships and an active, urban campus setting. Next steps? Talk to your counselor and visit [www.nebraska.edu](http://www.nebraska.edu). Then, no matter where you want to go, or even if you're not sure, you'll know where to start.
