

NUFlex Benefits Adding Dependent

Reviewed: September 26, 2023

To be covered for health insurance, dependents must have a check mark in the 'selected' box to the left of their name and be a verified dependent. To verify existing unverified dependents, please contact your campus benefits office. Refer to [NUFlex Benefits Enrollment](#) for additional information.

REQUIRED FORM

All dependent information must be received in your Campus Benefits Office by 5:00pm on the last date of the enrollment period. You can submit this form via paper or attach a file within the dependents section of any health plan (medical, dental, or vision).

The dependent information request form can be found [here](#).

ADD DEPENDENT

From within NUFlex Benefits Enrollment, dependents can be added from any health insurance plan: medical, dental, or vision care. Once a dependent has been added, they will be available to select within each plan.

To add a dependent, scroll to the bottom of a health plan page. Click on 

Dependents

To be covered for this insurance, dependents must have a check mark in the 'Selected' box to the left of their name and be a verified dependent. To verify existing unverified dependents, please contact your campus benefits office. New dependents can be added by clicking the blue, '+ Add Dependent' button.

NUFlex Benefits Adding Dependent

Reviewed: September 26, 2023

To add a dependent to your health insurance coverage, you must submit verification documents. If proper documentation is not received, dependent benefits will not be provided.

Select an option on how you will provide the verification documents.

Dependent Verification

To add a dependent to your health insurance coverage, you must submit [verification documents](#). If proper documentation is not received, dependent benefits will not be provided.

How will you provide verification documents?:

☒ I will deliver paper copies to my campus benefits office.

☐ I will attach image or PDF copies now.

Save
