Health Risk Assessment
The health risk assessment (HRA) should be completed each year to receive the enhanced wellness and preventative services benefit for you and your covered dependents who are enrolled in the University’s medical and prescription drug plans. The HRA takes approximately 15 to 20 minutes. After completing all sections and clicking on submit, you will be able to print/save a PDF of your personal health profile. You will also receive a confirmation email to retain for your records. During the enrollment period, you can return to the HRA to view your profile or engage in the What-If Analysis*.

The HRA allows you to save in progress and return later to complete the process.

The HRA application will time out if left inactive for more than 30 minutes.

*Application allows you to alter your answers to see how it may change your health profile; however, this does not change your final/submitted report.
