

# NUFlex Benefits Health Savings Account

Reviewed: September 26, 2023

Enrollment in the University of Nebraska's qualified high deductible health plan (QHDHP) allows participation in a health savings account (HSA).

Note: the health savings account set-up will occur outside/after the annual NUFlex enrollment.

The screenshot displays the NUFlex enrollment interface. Under the 'Plan Details' section, there are four dropdown menus: 'Plan Option' (set to 'High Deductible'), 'Coverage Category' (set to 'No Coverage'), 'Employee Monthly Cost' (set to 'Low'), and 'Employer Credit' (set to 'High'). A red box highlights the 'High Deductible' option in the 'Plan Option' dropdown. Below this, the 'Dependents' section is visible, featuring a legend: a green checkmark for 'Verified', an orange checkmark for 'Verification Pending', and a red X for 'Not Verified'. A blue 'Add Dependent' button is located at the bottom right of the form.

When enrolling in the high deductible plan within NUFlex enrollment, a pop-up message will appear.

The screenshot shows a 'Success' pop-up message. The title is 'Success'. The main text reads: 'Enrollment in the University of Nebraska's qualified high deductible health plan (QHDHP) allows participation in a health savings account (HSA). The University offers a HSA through Fidelity Investments. Prior to the end of the year, Fidelity will communicate information regarding the opportunity to set-up and begin payroll-deductions to fund a Fidelity HSA account.' Below this, a note states: 'Note: THE HSA SET-UP WILL OCCUR OUTSIDE/AFTER THE ANNUAL NUFLEX ENROLLMENT.' A 'Close' button is located in the bottom right corner of the pop-up.
