

Formulary Drug Removals

Below is a list of medicines by drug class that have been removed from your plan's formulary. This list is effective January 1, 2015. If you continue using one of the drugs listed below and identified as a Formulary Drug Removal after this date, you may be required to pay the full cost.

If you are currently using one of the formulary drug removals, ask your doctor to choose one of the generic or brand formulary consideration options listed below.

Bolded products represent formulary drug removals that are new for the 2015 plan year.

Category * Drug Class	Formulary Drug Removals	Formulary Options

There may be additional plan restrictions. Please consult your plan for further information.
Subject to applicable laws and regulations.

* This list indicates the common uses for which the drug is prescribed. Some drugs are prescribed for more than one condition.

¹ A OneTouch blood glucose meter will be provided at no charge by the manufacturer to those individuals currently using a meter other than OneTouch. For more information on how to obtain a blood glucose meter, call toll-free: 1-800-588-4456. Members must have CVS Caremark Mail Service Pharmacy benefits to qualify.

² An exception process is in place for specific clinical circumstances that may require continued coverage for Freestyle diabetic test strips. If your doctor believes you have a specific clinical need for this product, he or she should fax an exception request toll-free to: 1-888-487-9257. Your plan may choose to provide an exception process for additional medications on this list and new to market agents.
