Independent Auditor's Report

The Board of Regents
University of Nebraska
Lincoln, Nebraska

Report on the Schedule of Expenditures of Federal Awards

We have audited the accompanying schedule of expenditures of federal awards (the Schedule) of the University of Nebraska, a component unit of the State of Nebraska, for the year ended June 30, 2021, and the related notes to the Schedule.

Management's Responsibility

Management is responsible for the preparation and fair presentation of the Schedule in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the Schedule that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the Schedule based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether the Schedule is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Schedule. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Schedule, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the Schedule in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the Schedule.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the Schedule referred to above presents fairly, in all material respects, the expenditures of federal awards of the University of Nebraska for the year ended June 30, 2021, in accordance with accounting principles generally accepted in the United States of America.

Notes to Schedule of Expenditures of Federal Awards
Year Ended June 30, 2021

Note 1: Basis of Presentation and Summary of Significant Accounting Policies

Basis of Presentation

The purpose of the schedule of expenditures of federal awards (the Schedule) is to present a detail of all programs classified by federal grantor agency expended by the University of Nebraska (the University) for the year ended June 30, 2021. The accompanying notes are an integral part of the Schedule. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the University, it is not intended to and does not present the financial position, changes in financial position, or cash flows of the University. For the purpose of the Schedule, federal awards have been classified into two types:

- Direct federal awards consisting of federal awards and federal student financial aid
- Pass-through funds received from nonfederal organizations made under federally sponsored programs conducted by those organizations

Assistance Listing numbers are presented for those programs for which such numbers are available. Programs for which no assistance numbers are available have been presented under the applicable caption in the Schedule showing the grantor federal agency number and grant identification number. Those programs without assistance listing or grant numbers primarily represent pass-through funds for which such information was not available from the grantor.

The accounting principles followed by the University in each of these areas and used in preparing the accompanying Schedule are as follows:

Reporting Entity

The reporting entity for the Schedule includes the accounts for all of the campuses, departments and divisions of the University and its component units.

Total Federal Awards

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, the U.S. Office of Management and Budget (OMB) Circular A-21, *Cost Principles for Educational Institutions*, or other applicable regulatory guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

University of Nebraska
A Component Unit of the State of Nebraska
Notes to Schedule of Expenditures of Federal Awards - Continued
Year Ended June 30, 2021

Note 2: Student Financial Aid Loan Programs

The federal loan programs listed subsequently are administered directly by the University, and balances and transactions related to these programs are included in the University's basic financial statements, which are issued separately. Loans outstanding at the beginning of the year are included in the federal expenditures presented in the Schedule.

Assistance Listing Number	Program Name	Outstanding Balance at June 30, 2021
84.038	Federal Perkins Loan Program	\$ 15,032,077
93.264	Nurse Faculty Loan Program	275,494
93.342	Health Profession Student Loan Program	7,872,494
93.364	Nursing Student Loan Program	725,131

The four campuses of the University (University of Nebraska – Lincoln, University of Nebraska – Omaha, University of Nebraska – Kearney, and University of Nebraska Medical Center) participate in the Federal Direct Loan Program, Assistance Listing No. 84.268, (including Federal Stafford and PLUS loans). Since the University does not administer the program, the outstanding loan balances have not been included in the Schedule. New loans made during the year of \$216,084,670 are included in the Schedule.

Note 3: Indirect Cost Rates

Expenditures for federal programs are recognized using the cost accounting principles contained in the OMB Circular, Cost Principles for Educational Institutions and Uniform Guidance 2 CFR Part 200. Under those cost principles, certain types of expenditures are not allowable or are limited as to reimbursement. Expenditures include a portion of costs associated with general University activities (facilities and administrative costs or indirect costs), which are allocated to federal awards under negotiated formulas commonly referred to as facilities and administrative cost rates. Facilities and administrative costs allocated to such awards for the year ended June 30, 2021, were based on predetermined fixed rates up to 55.5% negotiated with the University's cognizant federal agency, the U.S. Department of Health and Human Services, and are included as a component of the expenditures in the Schedule.

Note 4: Donated Personal Protective Equipment (Unaudited)

The University received donated personal protective equipment from federal assistance in the amount of \$699,221 during the year ended June 30, 2021.

Report on Compliance for Each Major Federal Program and Report on Internal Control over Compliance

Independent Auditor's Report

The Board of Regents
University of Nebraska
Lincoln, Nebraska

Report on Compliance for Each Major Federal Program

We have audited the University of Nebraska's (the University), a component unit of the State of Nebraska, compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2021. The University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the University's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University's compliance.

Opinion on Each Major Federal Program

In our opinion, the University complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control over Compliance

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
