1. This Permit Application is for (check one box only): _____ New Site _____ New Tank(s) _____ Product Line Only
2. Is this a request for temporary usage (4 months maximum)? Yes No (Circle one)
3. Type of Facility and intended use of tank(s) (check all that apply):
   _____ Retail Marketing _____ Bulk _____ Government _____ Farm _____ Heating Oil _____ Commercial
   _____ Generator _____ Aircraft Refueling _____ Pump _____ Irrigation _____ Other
4. Mark each item that applies to the tank or tanks: _____ Listed or approved for Aboveground Use _____ Fire Rated
   _____ Fire Resistant _____ Field Constructed
5. Type of impoundment: _____Impoundment by Diking _____Containment Tank system (Double Wall) _____Remote Impoundment _____None (III B Liquids only)

6. Type of Overfill Control (if required):

7. Tank Type: _____Single-walled _____Double-walled

8. Piping Located: _____Aboveground _____Underground

9. Piping Type: _____Single-walled _____Double-walled

10. Material Used for Product Lines: _____FRP Flexible Plastic (specify brand) ________________________________

11. Will the tank be located inside a building? _____Yes _____No

12. Will dispenser utilize a card-trol or key-trol system? _____Yes _____No

13. Is facility unattended at any time (day or night)? _____Yes _____No

14. Will electrical work be performed as part of installation? _____Yes _____No

If yes, will electrical permit be obtained? _____Yes _____No

Electrical Contractor _______________________________________________

Other Comments regarding work to be performed:
________________________________________________________________________
________________________________________________________________________

General Site Plan

Minimum Requirements: Site Plan must show:

- Buildings on Property (be specific)
- Location of Dispensers
- Distances from Tanks to Property Lines/Buildings/Dispensers
- Approximate Location of Tanks and Piping
- Location of remote shut off
- Location of fire extinguisher
- (attach additional pages if necessary)

↑

North

Aboveground Storage Tank Facilities Must Comply with All State and Local Codes.
All installations shall be done in accordance with NFPA 30, NFPA 30A, and/or other applicable codes and amendments. Installation inspection requests shall be made at least 72 hours in advance of the desired installation date to facilitate the inspector’s availability. Inspections will be scheduled in the order that requests are received.
