

To all of our University of Nebraska Travelers,

This is truly an unprecedented time for everyone, our first priority is and will always be the safety of employees and customers. To ensure their safety and wellbeing, we have made the decision across our global corporate owned operations that only essential offices or locations will remain open. This is to serve customers, like you, who rely on us to provide critical transportation options or that support emergency services, utilities, the military and local governments in their efforts. Our company is an essential services provider supporting relief agencies, as well as helping move people, services and goods during this global health crisis. We remain open and committed to continuing to help serve these critical transportation infrastructure needs.

As part of these temporary operational changes, we've modified our offerings to include curbside and/or delivery on all of our rental transactions at our Enterprise Rent-A-Car neighborhood locations that still remain open. This will help get customers on their way while minimizing foot traffic in our locations. In addition to our neighborhood locations, our airport car rental branches located in all major cities across the US are ready to continue to serve customers. Again, this is only temporary, as soon as business starts to go back to normal, we will reopen.

Vehicle and Location Cleaning

We've always taken seriously the cleanliness of our locations and vehicles, and we know this is more important now than ever. We've implemented additional measures to clean and disinfect our locations and vehicles, in alignment with guidance from health authorities. This includes routine cleaning with a recommended disinfectant of all frequently touched surfaces at our locations.

Thank you again for choosing Enterprise Holdings. Now more than ever, we are reminded of the importance of serving our customers. We look forward to continuing to meet your business needs.
