Addendum XI-A-1

MEETING DATE: December 2, 2022

SUBJECT: Award of Regent Emeritus

RECOMMENDED ACTION: Approve the award of the title “Regent Emeritus” to Bob Phares

PREVIOUS ACTION: None

EXPLANATION: In accordance with Regents’ Policy 1.2.6, President Carter and the Executive Committee of the Board have nominated Regent Bob Phares for the title of Regent Emeritus.

Regent Phares has announced that he will not seek another term on the Board of Regents, and therefore, will retire from the Board following the December 2022 meeting. Regent Phares has represented District Seven as a distinguished member of the Board since 2006 and served three terms as chair. His experience in the fields of finance and business operations have been especially valuable to his service on the Board and the University.

In Regent Phares’ service, he has demonstrated: consistent pursuit of excellence, positive support of the University, a deep and genuine commitment to the University of Nebraska and the State of Nebraska, and selfless service.

It is an honor to recommend our colleague Bob Phares to receive the honorary title “Regent Emeritus.”

SUBJECT: Transition the Bachelor of Science (BS) in Public Administration within the Department of Political Science into the Existing Bachelor of Arts (BA) and Bachelor of Science (BS) in Political Science at UNK

RECOMMENDED ACTION: Approve transition the Bachelor of Science (BS) in Public Administration within the Department of Political Science into the Existing Bachelor of Arts (BA) and Bachelor of Science (BS) in Political Science at UNK

EXPLANATION: The UNK BS in Public Administration degree does not have enough majors to be sustained as a stand-alone degree. The existing BA and BS degrees in political science require a minor; the department will continue to offer a Public Administration minor. Any remaining students may continue to complete their degree or transition to a Political Science degree with the option to minor in Public Administration. The transition also will allow the faculty to better serve their students enrolled in the existing BS/BA degrees in political science. This action will result in the elimination of stand-alone degree in Public Administration.

This proposal has been reviewed by the Council of Academic Officers; it also has been reviewed by the Academic Affairs Committee.

Dr. Jeffrey P. Gold
Executive Vice President and Provost
University of Nebraska

Dr. Gold:

Senior Vice Chancellor Charles Bicak has requested approval to eliminate the Public Administration degree currently offered by the Political Science Department at the University of Nebraska at Kearney. Dr. Bicak’s request follows: (1) notification by Vice Provost David Jackson that the degree is not meeting minimum performance standards as established by the Nebraska Coordinating Commission for Postsecondary Education; (2) departmental review of enrollment and degree data and, based on those factors, the department’s recommendation to discontinue the degree program; and (3) support from the Dean of the College of Arts and Sciences to end the degree program.

I concur with these recommendations that UNK’s Public Administration degree be eliminated and, accordingly, I seek your approval.

Dr. Bicak also notes departmental plans to address current and future student interest in Public Administration by modification of the existent minor and creation of a sub-field within traditional Political Science BA/BS degrees. I support this as well.

Sincerely,

Douglas A. Kristensen, J.D.

RE: Request to eliminate the Bachelor of Science in Public Administration degree

I seek approval of the recommendation to eliminate the degree in Public Administration in the Department of Political Science in the University of Nebraska at Kearney effective in the 2022-2023 academic year. The most recent version of the UNK Strategic Plan (2021) states: Responsible Stewardship Matters: UNK is committed to efficient and effective administration of resources – human, financial, and physical/infrastructure – to ensure long-term institutional fiscal stability and environmental sustainability.

The persistent low enrollment and few majors have characterized the degree program in Public Administration for several years. This is documented in the letters from Dr. William Aviles, Chair of the Department of Political Science and Dr. Ryan Teten, Dean of the College of Arts & Sciences. Responsible stewardship underscores the importance of the recommendation to eliminate the degree program in Public Administration. Our commitment to current students will remain as course work will be offered.

The faculty in the Department plan to modify the existent minor in Public Administration so as to make it attractive to UNK students. They also plan to create a special sub-field within the traditional Political Science BA/BS degrees to ensure that existing interest in an education focused on public administration is met. No new resources are required to accomplish this.

Thank you for your attention to this important matter.

Dr. Charles Bicak,
Senior Vice Chancellor for Academic Affairs
The University of Nebraska at Kearney

Dear Dr. Bicak,

In 2016, the UNK Department of Political Science began the Public Administration degree. Approval was granted in 2015. Since that time, the BS in Public Administration has struggled to produce the enrollment and graduation rates that are expected. According to the data provided by Dr. Will Aviles, the chair of the department, the BS in PA has awarded only four degrees since 2016. Additionally, the majors seeking a PA degree has varied between one and six, but has never reached the general standards for enrollment and graduation expected by the University of Nebraska System, the Board of Regents, and the Coordinating Commission for Postsecondary Education. The department of political science cites significant challenges, including deficient student demand and a lack of faculty to engage this track, as contributing to this end.

As a result of the low numbers above, we were notified in October by Dr. David Jackson, System Vice Provost, that the PA degree was not meeting “minimum performance standards” and necessitated a re-evaluation by both the department and the college to determine the steps and “actionable plans” that could assist in reinforcing the existing program strengths and examining how to move forward successfully.

After close perusal of the PA degree, the department of political science determined that it lacked both the students and faculty, at this time, to successfully support a BS in Public Administration. As such, Dr. Will Aviles, chair of the department, has requested to “discontinue offering this degree until such time that our department sees evidence that enough students demand exists to re-introduce this degree.” In the stead of a BS in PA, students interested in Public Administration will be able to select PA as a minor and subfield. The department will also examine whether or not demand may exist for the creation of a certificate in Public Administration.

After review of the historiography of the major in Public Administration, I support the proposal to end the BS in PA for the indefinite future. We will seek new ways to provide this curricula and to rebuild the major. However, at this time, I believe the creation of the minor and the examination of a certificate will appropriately serve the student demand while analyzing the overall future need. Thank you and please let me know if more information might be required.

SUBJECT: UNK BS IN PUBLIC ADMINISTRATION

Dear Dr. Jackson,

February 28, 2022

The following represents the response of UNK’s Department of Political Science to the recent declaration from the Nebraska Coordinating Commission for Postsecondary Education (CCPE) that our BS in Public Administration is not meeting their “Minimum Performance Standard.” It is the decision of our department to discontinue offering this degree until such time that our department sees evidence that enough student demand exists to re-introduce this degree to UNK.

For the immediate future our department will modify our existing Public Administration (PA) minor as well as create a special sub-field within our traditional BA/BS Political Science degrees that is focused on public administration. Contingent on the growth of students minoring in Public Administration and/or concentrating in our sub-field of public administration our department will revisit the possibility of bringing back the BS degree in Public Administration. This decision is based on the following factors which make clear that the continuation of the BS degree in Public Administration is untenable at this time:

- First, the enrollment and degree data has been insufficient over the last 6 years:

Given the relatively low number of majors and graduates over a significant period, we see little evidence of the necessary demand to continue offering a BS in Public Administration.

Second, we currently lack sufficient faculty to concentrate on rebuilding and strengthening the program. Our current faculty are needed to serve our PSCI BS/BA students, online general studies students, Teacher Education students requiring specialized introductory PSCI classes, and students requiring one of our introductory classes to meet their general studies requirements. Until we can fill our currently frozen faculty line, we will be unable to dedicate our limited faculty resources to rebuilding this program in the short or intermediate term.

Third, as noted above, we believe the best course of action at this time is to modify our PA minor to make it more attractive to UNK students as well as create a special sub-field within our traditional PSCI BA/BS degrees to ensure that we meet the existing interest in an education focused on public administration. Our modified minor in Public Administration is below. The modifications we will be submitting to our Education Policy committee this semester will focus on classes offered solely by our department, making it easier for students to navigate. Finally, there will no new resources associated with the minor.

It is our plan to annually report to the Board of Regents the number of minors as well as the number of students enrolled in classes typically associated with public administration in our program. This annual reporting will provide us a guide in determining whether a demand is emerging for a BS degree in Public Administration in the future.

We recognize the drastic nature of our decision, but the historical data as well as current limitations on the time available to our existing faculty make clear that this is the correct decision at this time.

Thank you and please do not hesitate to contact me if you require additional information or any questions.

SUBJECT: Creation of a Master of Arts (MA) in Public History within the Department of History in the College of Arts and Sciences at UNK

RECOMMENDED ACTION: Approve creation of a Master of Arts (MA) in Public History within the Department of History in the College of Arts and Sciences at UNK

PREVIOUS ACTIONS: August 11, 2017 - Expedited approval of the Public History graduate certificate in the Department of History in the College of Natural and Social Sciences at the University of Nebraska at Kearney was reported to the Board.

EXPLANATION: The UNK College of Arts and Sciences proposes to establish an online 36-credit hour MA in Public History that can be completed in two years. The program will serve students preparing for careers in public history, a subfield of historical study and practice defined by its emphasis on doing history in and with public audiences. This includes careers in museums, historic preservation, digital history, oral history, cultural resource management, heritage tourism, and archives. The new degree is designed for both recent graduates from undergraduate History programs and related disciplines, as well as those currently employed in public history positions who are looking to expand their expertise. The curriculum is designed for employment outside of academia. No new coursework will need to be developed, and while the entire curriculum is available through UNK, students can broaden their expertise by taking approved graduate history coursework at any of the NU campuses.

This proposal has been reviewed by the Council of Academic Officers; it also has been reviewed by the Academic Affairs Committee.

President Carter:

The University of Nebraska at Kearney Department of History has submitted a proposal to offer a Master of Arts Degree in Public History. Dr. Will Stoutamire, UNK Assistant Professor of History and nationally recognized public historian, will lead this program with broad professional support from Department of History graduate status faculty, all of whom are experienced online teachers.

The proposal calls for a 36-credit-hour program intended as a graduate-level option for baccalaureate graduates and for historians working in the public sector (in venues such as museums, archives, state and national parks, and government agencies, for example) who seek expertise and/or career advancement opportunities. No additional courses or resources will be needed, and the program will be offered fully online or with an in-person option. In her letter of support, Senior Vice Chancellor Kristen Majocha states that, if approved, this will be the only fully online public history MA program in Nebraska and in the nation. A notable point.

I agree with the recommendation of Dr. Majocha that positive consideration be given to UNK’s Master of Arts Degree in Public History proposal. Thank you for your attention and assistance.

SUBJECT: Proposed University of Nebraska at Kearney Master of Arts in Public History

I am writing regarding a proposal for a Master of Arts degree in Public History in the Department of History, in the College of Arts and Sciences. I concur with the recommendations from the respective Deans and Chair in requesting that positive consideration be given to this proposal.

This program is designed to provide students with a theoretical grounding in the principles of public history, practical training in public history methods, and substantial experiential learning opportunities designed to prepare students for the competitive job market. No additional courses are needed as UNK already offers the curriculum through a primarily online format.

The proposed MA in Public History is significant as it is completely online with a regional and national scope. If approved, it will be the only fully online public history MA program in Nebraska as well as the nation.

With your approval, we will submit this proposal to the University of Nebraska Council of Academic Officers.

If you should need additional information, please let me know. Thank you.

Dr. Kristen Majocha  
Senior Vice Chancellor for Academic Affairs  
University of Nebraska at Kearney  

Dear Dr. Majocha  

I am writing in support of the UNK History Department’s proposal to offer a Masters of Arts degree in Public History. Public History is the applied field of history where historians work with public audiences in public venues such as museums, archives, state and national parks, and government agencies. Those working in public history need applied and experiential types of training that is not typically offered in traditional academic MA programs. This program will provide graduate-level training for freshly minted undergraduate students and those already working in the field who are seeking career advancement opportunities. The proposed Public History program will be offered entirely online but students will have the option of taking courses on campus where they can gain experiential training, working on public history projects with faculty at local historical venues on campus and in the community.  

The Department of History is well prepared to offer this program. The department is a leader in online graduate education and has offered an online MA in History for 15 years. The department has fourteen faculty members with graduate faculty status and all are trained and experienced online teachers. Four faculty members have training or experience in public history and the program will be led by Dr. Will Stoutamire, a nationally recognized public historian. All of the proposed courses in the program have been developed and are currently being taught on a regular basis. No new resources are needed to offer this program but the Graduate Office will allocate one of its existing graduate assistant lines to the department.  

I enthusiastically support this proposal and look forward to working the Department of History to launch this program. There are no public history programs in Nebraska and this will be the first fully online graduate program in the nation. It will not only be attractive to Nebraskans but those working in public history venues across the nation will find this online degree beneficial to professional development and career advancement. As outlined in the letters of support from prospective students and employers, there is high demand for such a program in Nebraska.  

As a history faculty member for 19 years and department chair for 6 years, I can attest that public history is a growing field with high student demand. I am excited about UNK offering such a program that will help enhance the training of current and future public historians in Nebraska and beyond. Please do not hesitate to contact me for further commentary on this program.

Dear Dean Ellis,

As the Interim Dean of the College of Arts & Sciences at the University of Nebraska at Kearney, I am writing in support of the Masters of Arts Degree in Public History currently being proposed by Department of History. I believe the proposed degree program meets an increasing need across the state for an affordable, accessible, and timely graduate degree option for students interested in public history and many other professions. This program will be the first of its kind in our state and will fulfill a significant need for history students and to preserve Nebraska artifacts and stories.

The University of Nebraska at Kearney provides excellent preparation in history professions for students at the undergraduate level. There are however many students at our institution, and across the state and region, who choose to pursue graduate-level work in this field. These students need a graduate program that provides additional preparation in public history and especially digital history, historic preservation and curation and archival work. The proposed Masters in Public History would offer these students an opportunity to boost their academic credentials in a timely program that is both affordable and accessible. To ensure the success of the program, the History Department will convert an existing open faculty line into a Public History position.

The curriculum proposed by History Department has been designed to provide students with a solid foundation in history, while also allowing them the flexibility to engage in electives that will enhance their application to professional school and their professional development as historians, State and National Park workers, museum employees, and archivists. The program has four goals: to communicate specialized historical knowledge to the public, to enable the analysis of public history texts, to enable the demonstration of specialized knowledge of the theories and principals of public history, and to enable students to critically examine public history and make changes that improve public history practice. I believe that these values and objectives are in line with the NU system, but also with the strategic plans laid out by President Carter and UNK.

The College of Arts & Sciences is looking forward to the development of the Master’s Degree in Public History and excited about the possibilities it offers our students.

Sincerely,

Paul Twigg, PhD
Interim Dean, College of Arts and Sciences
The University of Nebraska at Kearney
To Whom It May Concern,

We whole heartedly support this new MA degree in Public History at UNK. It is a 36-credit hour program that is fully online and therefore will serve students and practicing professionals across the country. Students will learn about the theories and practices of public history through a curriculum that provides them with training and knowledge to become practitioners in museums, historic preservation, state parks and related fields.

This program is significant because it is fully online with a regional and national scope. If approved, it will be the only fully online public history MA program in the country. As compared to the History Department’s existing concentration in public history for graduate students, this new degree program provides enhanced, hands-on training in the principles of public history to pursue public history careers. Nebraska has a need for trained professionals with a degree like this to work in state and local archives, museums, and parks. This degree will also provide UNK with the opportunity to develop enhanced partnerships with organizations in need of this expertise, both in Nebraska and wherever our online students are located.

UNK’s History Department faculty is well prepared to lead this program because of a broad training and expertise as well as experience in online education. We have a public historian on our faculty who will lead the program, and others on the faculty who have the knowledge and training to complement the core curriculum of the new degree.

We appreciate your consideration in approving this program. Please let us know if you have any questions or concerns.

Sincerely,

To Whom It May Concern,

The History Department whole heartedly supports the creation of a new MA degree in Public History at UNK. It is a 36-credit hour program that is fully online and will serve students and practicing professionals both in Nebraska and across the country. Students will learn about the theories and practices of public history through a curriculum that provides them training and knowledge to become practitioners in museums, historical societies, state parks and related areas.

This program is significant because it is fully online with a regional and national scope. If approved, it will be the only fully online public history MA program in the country. Compared to the History Department’s existing concentration in public history for graduate students, this new degree program will provide enhanced, hands-on training in the principles of public history to pursue public history careers. Nebraska has a need for trained professionals with a degree like this to work in the preservation of archives in all their variety and to create public history exhibits that are both digital and actual. This degree also will provide UNK with the opportunity to develop enhanced partnerships with organizations in need of this expertise in Nebraska and wherever our online students are located nationally and even internationally.

UNK’s History Department faculty is well prepared to lead this program because of our broad training and expertise as well as over ten years of experience in online education. We have a public historian on our faculty who will lead the program as well as a newly opened faculty line that enables the hiring of a second public historian using existing resources. Others on our faculty have the knowledge and training to complement the core curriculum of this new degree.

We appreciate your consideration of this MA Public History proposal. Please let us know if you have any questions or concerns.

Sincerely,

Linda Van Ingen, Ph.D.

Description and Purpose of Proposed Program:

The Department of History is proposing a new Master of Arts in Public History at the University of Nebraska at Kearney. The MA in Public History will serve students preparing for careers in public history, a subfield of historical study and practice defined by its emphasis on doing history in and with public audiences. The program is designed to provide students with a grounding in the principles of public history, practical training in public history methods, and substantial experiential learning opportunities designed to prepare students for the competitive job market. This includes careers in museums, historic preservation, digital history, oral history, cultural resource management, heritage tourism, and archives. This program is supported by History Nebraska, Humanities Nebraska, the Nebraska Game & Parks Commission, the Nebraska Museums Association, and our local museum partners, all of whom are potential employers for program graduates. Letters of support from these organizations, speaking to the need for more qualified public historians in Nebraska, have been included with this proposal. Employment opportunities for students in this program are further explored below.

The new degree is a 36-credit hour program that can be completed in two years, culminating in either a thesis or capstone project. No additional courses will need to be added as UNK already offers the curriculum through an online format. The program will accept up to 15 new students per year who will progress through the program design as described below. The curriculum will contain a heavy emphasis on public history courses, but students will also be required to develop a strong foundation in either US or non-US history through courses currently offered in our MA in History program. This reflects the department’s belief that public historians must be trained to
communicate history with the public, but equally well versed in traditional historiography and research methods.

The MA in Public History will be an excellent choice for recent graduates from undergraduate programs in History and related disciplines, as well as nontraditional students and those currently employed in public history positions who are looking to expand their training and credentials in order to position themselves for advancement in the field. The Department of History’s MA in History currently offers a public history concentration, which has attracted a growing number of public history professionals with employers ranging from small museums and historical societies to the National Park Service. Because of the nature of public history work, many of these professionals live in remote or isolated locations. There are currently no programs in Nebraska and few programs in the United States positioned to serve this community of students.

A standalone MA in Public History will better serve these prospective students than the existing concentration, as it offers a substantially different core curriculum focused on preparing students for employment outside of academia. Only one course in the existing MA in History (HIST 801 – America Interpreted) will remain a core course in the new curriculum. The core classes are essential for all trained public historians, focusing on public history theory and practice, historiography, digital history, and application of principles through a substantial internship experience. Students can also select electives that will enhance their training depending on the sub-fields of public history in which they are most interested, including related courses offered at other NU campuses. This combination of academic learning and practical, interdisciplinary training makes the MA in Public History markedly different than the traditional MA in History, a difference that is recognized by employers in public history.

The program is designed so that it can be completed entirely online, but students wanting a classroom experience may take some courses offered on campus, as well as work closely with faculty through a select number of graduate assistantship opportunities offered by the Department of History. While several MA in Public History programs exist throughout the United States and increasingly across the globe, this degree will be attractive for its affordability, accessibility, timeliness, and strong foundation in public history theory, methods, and practice. Similar programs are more expensive and require on-campus learning, which is not feasible for many students balancing a career and family with their desire for further training. These potential limitations make this program uniquely different from its competitors and an attractive option for Nebraska students, as well as students from across the United States. Lastly, the proposed program contributes to the University of Nebraska Five-Year Strategy by providing access to an affordable, online degree in public history and by being inclusive in intercampus and statewide collaborations.

**Proposed Curriculum:**

Educational and career opportunities in public history are increasing nationwide. This new program is a 36-credit hour fully online curriculum, culminating in either a thesis or a public history project. The UNK Department of History currently has a History MA program that is thriving. This new MA in Public History will provide a unique dynamic for students and early professionals and will complement the existing History MA. The curriculum for this MA in
Public History was chosen to provide students with broad training in the theory and practice of the discipline of public history, as well as opportunities to gain more specific training and hands-on experiences in the sub-field(s) of public history (digital history, museums, historic preservation, archives, etc.) in which a student may be most interested. The core curriculum is comprised entirely of existing coursework at UNK.

The curriculum for the MA in Public History can be found below. Students will begin the program after having completed a BA degree in History, or a related discipline, with at least 18 credit hours in History, as well as the required prerequisite coursework. The program requirements are designed to ensure that students have the necessary academic background in content, theory, and methods to be successful in a 36-credit hour MA program. It is anticipated that some students will enter this program directly after completing their undergraduate degree, while others may be currently employed in public history or a related field and pursuing additional education to open opportunities for career advancement.

Students enrolled in this MA program will take a common core of coursework (15 credit hours) that provides them with a background in historiography, public history theory & practice, and digital history, as well as applied experience through a dedicated internship. Those students who are currently employed in a public history position will be able to substitute another course for the internship with Graduate Program Chair (GPC) approval. The remaining credit hours are electives in public history and either US or non-US History, which will be agreed upon in consultation with the student’s academic advisor. The number of elective credit hours will depend on if the student chooses the thesis or public history project option. If a student chooses to partake in the thesis option, they will be required to take 12 credit hours of electives and 9 credit hours of required thesis courses [Introduction to Thesis – 3 credits (HIST 894); Thesis – 6 credits (HIST 896)]. Those students choosing the public history project will take a total of 15 credits hours of electives and 6 credits focusing on a public history project (HIST 897). In order to promote cohesion between graduate cohorts and avoid bifurcation between the tracks in traditional history and public history, students in the existing MA in History will continue to be required to take at least one public history course during their time in the program.

As the MA in Public History develops, key programs at other NU system campuses will be contacted for their participation in the curriculum. Students will be allowed to take related courses from other NU campuses. These intercampus course offerings will supplement the courses offered by the UNK History Department, allowing students to customize their program of study for need and desired career path. This will also avoid unnecessary replication of existing courses offered by other programs and model the interdisciplinary nature of public history training. Intercampus transfers can include courses from UNO’s graduate program in Anthropology (such as ANTH 8216 Cultural Anthropology and ANTH 8226 North American Archeology). From UNL, they can include courses in Finance (such as FINA 871 Nonprofit Financial Management), courses from the UNL Anthropology program (such as ANTH 804 Curation of Archeological Collections), and courses from their Digital Humanities initiative (such as HIST 861 Geospatial Approaches in Digital Humanities and Social Sciences). From UNMC, these can include courses from the MA in Public Health (such as CPH 500 Foundations of Public Health). Within UNK, students will also have the option of taking courses from the existing Museum Emphasis within the MAE in Art Education (such as ART 844 History,
Theories, and Philosophies of Art Education) or courses in archives and data management offered by the University Archivist. Incorporating these opportunities for interdisciplinary learning will significantly expand career opportunities for students. An Advisory Board including representatives from across the NU system (see below) will provide the program with further input on potential intercampus collaborations.

The program is designed to be rigorous to demonstrate that the student will be successful in an intensive public history career. The program is designed to be completed in two years, although it is expected that students already employed in public history careers and seeking further education will take longer to complete the coursework if they enroll part-time while working. A suggested outline for completing the program in two years is below.

**Summary of Hours Required for MA in Public History Degree:**

**Degree Requirements:** 36 credit hours
Students will be required to take all of the core courses (15 credits), which include a core course in historiography (America Interpreted), a seminar on the theory and principles of public history, a project-based course in public history methodology, a digital history course, and an internship. Students already employed in a public history position or possessing substantial and substantive experience in public history work may substitute the internship for an additional elective in public history with the approval from the Graduate Program Chair (GPC). The Public History GPC will determine if a student’s outside experience is significant enough to merit this course substitution. Lastly, students will have the option of choosing the following track options: (a) thesis or (b) public history project.

This program is designed to be completed with two years of intensive coursework culminating in a thesis or public history project. Students will not be required to complete the program in two years and, additionally, students who are currently employed in public history work and are pursuing further training for career advancement will be encouraged to apply for this program. It is unlikely that these students will complete the program in two years.

Below is one suggested outline for how a student entering the program in the Fall could complete all the required coursework within two years. Students will be admitted on a rolling basis and HIST 875 (Core course – Internship) is offered every semester, so this outline should be read as a suggestion, not prescriptive.

| Fall, Year One (9 credits) | Spring, Year One (9 credits) | Summer, Year One (Internship -(3 credits)) |

will include (but are not limited to) National Parks, History and Memory, Heritage Tourism, Archives Administration, and Historic Site Interpretation. May be repeated with each new offering.

4 HIST 875 – Internship may be taken as an elective course for an additional six credits beyond the required minimum as part of this program. Approval for additional internship credits is at the discretion of the GPC.
Plan for Degree Completion:
All required core classes will be available online. Elective classes will be available online and/or on-campus. The entire degree can be completed online if the student chooses. Students will be able to complete the required classes in two years. Please see the template below for an example of how students may progress through this program.

Suggested Sequence of Key Courses:
The following is an example of suggested sequence of courses for the MA in Public History degree (public history project track option).

MA in Public History Admission Criteria:
Admission to the MA in Public History program is based upon the completed undergraduate degree and GPA, at least two letters of recommendation, a writing sample, and a letter of intent. Screening of applicants will include an assessment of the student’s career goals and their ability to be successful, given the rigorous nature of this program. Applications will be reviewed by a committee comprised of the GPC and a minimum of two faculty members from the Department of History. The admission process is similar to the existing UNK MA in History.
An applicant interested in pursuing an MA in Public History should meet the following criteria:
1. The requirements for admission set forth by the Office of Graduate Studies,
2. Have completed an undergraduate program containing at least 18 semester credit hours of history,
3. Have a 3.25 undergraduate GPA in their undergraduate history courses. In lieu of meeting the GPA requirements, GRE scores may be submitted for consideration by the admissions committee,
4. Submit to the GPC a letter of intent that describes the applicant’s interests, goals, and plan for obtaining an MA in Public History. The letter of intent should address any deficiencies that may hinder the student’s success in the program and explain how this is to be or has been rectified. The letter of intent will be evaluated to determine (a) if the candidate has realistic career goals for which the program will improve competitiveness and (b) high probability for the student’s potential success in this program.
5. Submit to the Graduate Program Director at least two letters of recommendation,
6. Submit to the Graduate Program Director evidence of the writing and analytical skills necessary for graduate level coursework. Evidence of past work on a project in the field of public history is preferred, but not required.

Student Advising and Support:

Students accepted into the MA in Public History program will be assigned a History Advisor. The student will be strongly encouraged to meet with their advisor every term to discuss academic progress and issues relating to their program of study. Students will also work closely with the GPC on issues specifically relating to their focus in public history.

History Advisor – The History Advisor will guide the student through specific course choices in the US/Non-US History electives based on the student’s areas of interest, providing the student with a foundation in the content most closely associated with their current or desired areas of employment in public history.

Graduate Program Chair – The GPC will be able to discuss specific course choices in public history based on the student’s stated career goals, as well as recommend and facilitate internships, directed research/readings, and other volunteer opportunities. Advice and assistance with the application and interview process for careers in public history will also be provided by the GPC. Per department policy, the GPC will receive a course release or stipend.

In addition to the History Advisor and GPC, students will be encouraged to work directly with other History Department faculty to enhance their academic success within the program. Per university policy, faculty will receive a course release for every 36 credit hours of internships and directed research/readings courses they have supervised. Students will also have access to additional support through their individualized advising sessions, the Writing Center, Academic Success Coaching, and other student support services. The History Department has more than 15 years of extensive experience working with and mentoring online graduate students in the MA in History program. Additionally, the Department has been offering courses and internship opportunities in public history since 2013.
Assessment and Outcomes:

Assessment data will be gathered in HIST 896 and HIST 897. Both the thesis and public history project require a written paper. Thesis defenses and project presentations will be evaluated by faculty and used for assessment purposes. The assessment will be conducted by three of the department’s graduate faculty who are members of the department’s Public History and Community Engagement Committee. This assessment will be aligned with measuring whether the program is achieving the goals listed below in this section.

The course of study offered by the UNK History Department provides students with the theoretical knowledge, research skills, and practical applicability to advance in their career conscientiously and competently. The MA in Public History program will focus on helping students build skills within the public history field. The program will achieve this through ensuring that course content (and the structure of the curriculum in general) challenges students to excel in one or more of the goals below.

Goal #1: UNK Public History graduates are effective at communicating specialized historical knowledge to the public. Review Criteria (to be developed later in conjunction with UNK assessment)

Goal #2: UNK Public History graduates understand how to critically analyze public history texts and apply the theories and principles of public history to real-world practice in public history institutions. Review Criteria (to be developed later in conjunction with UNK assessment)

Goal #3: UNK Public History graduates can use and demonstrate specialized knowledge of the theories and principles of a subfield of public history. Review Criteria (to be developed later in conjunction with UNK assessment)

Goal #4: UNK Public History graduates understand how to apply theory to both critically examine public history and make changes that improve public history practice. Review Criteria (to be developed later in conjunction with UNK assessment)

Advisory Board:

An Advisory Board will be created to support this program and ensure that it remains in touch with both developments in the field of public history, as well as the needs and concerns of potential employers. This Advisory Board will consist of key individuals and institutions within and beyond Central Nebraska. This will include representatives from major state agencies, such as History Nebraska, Humanities Nebraska, and the Nebraska Game & Parks Commission. It will also include members from major regional institutions, such as the Stuhr Museum of Prairie Pioneer, the Durham Western Heritage Museum, the Strategic Air Command & Aerospace Museum, and the Great Plains Black History Museum, as well as local organizations, such as the Buffalo County Historical Society. From the NU system, Advisory Board members will include at least one representative from each campus, enhancing the possibility for intercampus and interdisciplinary collaborations for curriculum and training.
This Advisory Board will build on existing partnerships that the UNK History Department has developed over the years. The History Department has long-standing relationships with History Nebraska, Humanities Nebraska, and the Nebraska Game & Parks Commission, through faculty service, grants, student internships, and course projects. Several UNK History graduates are currently employed by these agencies. The Department also has existing collaborations with UMNC, through both course offerings and research, as well as UNL’s Landscape Architecture program, through work with the Nebraska Game & Parks Commission. The Advisory Board will ensure that such relationships with employers and other NU campuses continue to develop as the program grows. It will also help the MA in Public History develop stronger connections with people and institutions engaged in urban public history work, as well as create an internship and employment pipeline for both active students and program graduates.

**Review Criteria:**

**A. Centrality to Role and Mission of the Institution**

**UNK Mission:** The University of Nebraska at Kearney is a public, residential university committed to be one of the nation’s premier undergraduate institutions with excellent graduate education, scholarship, and public service.

**UNK Vision:** UNK will achieve national distinction for a high quality, multidimensional learning environment, engagement with community and public interests, and preparation of students to lead responsible and productive lives in an increasingly diverse, interconnected, interdependent, and technological society.

**Contribution to the University of Nebraska’s Five-Year Strategy:** The proposed graduate program contributes to the five-year strategy set forth by President Carter by providing potential students across Nebraska and the country access to an affordable online MA in Public History, one of few such programs globally. The program’s partnerships will additionally contribute to the five-year strategy by providing a variety of educational opportunities through the other NU campuses as well as in collaborations with local and statewide public history institutions and professionals, which will greatly contribute to the student experience and better prepare students for the workforce.

The program also closely aligns with UNK’s Strategic Vision for a "multidimensional learning environment" that engages students with the community and enables them to lead productive lives in an increasingly "diverse, interconnected, interdependent, and technological society." Specifically, this program supports all four values of UNK's strategic plan, creating a climate of intellectual exchange both within and outside the classroom ("Learning Matters"), extending access to the development of professional skills and knowledge that will benefit the Kearney community and beyond ("Learning Environment Matters"), supporting an inclusive environment that supports diversity and opportunity for individuals with respect to culture, thought, and expression ("People Matter"), and ensuring long-term sustainability by offering a unique program that efficiently and effectively leverages available university resources ("Responsible Stewardship").
Lastly, the program is a unique addition to the Department of History, which has a rich history of being a leader in online graduate education. The existing online MA in History has brought many students and new faculty to the department, providing an existing cohort and breadth of faculty mentorship for students pursuing an MA in Public History. Public history courses have proven to be especially popular within the existing MA, operating at or above capacity each semester with current faculty. As such, the MA in Public History is proactive and low risk, with a proven ability to attract students and expand upon existing community and NU system collaborations.

B. Evidence of Need and Demand

The need for qualified public historians across the state of Nebraska and throughout the nation is significant and continues to rise. According to the U.S. Bureau of Labor Statistics, employment in museums, archives, and related public history careers is expected to grow by 19% from 2020 to 2030, much faster than the national average for all occupations (8%). In Nebraska, the Nebraska Department of Labor anticipates an 8% growth in the need for curators and museum technicians over the next decade (See attached Market Assessment). Employment in a public history career remains highly competitive and typically requires a master’s degree and substantial practical experience in the form of internships and other graduate-level work.

The need for a competent and passionate public history workforce is also vital to our communities. This program will help Nebraska achieve several of the goals outlined in the recently released Blueprint Nebraska report, as a vibrant public history workforce can help to rejuvenate communities, provide opportunities for economic development, promote diversity and inclusion, and connect people with their pasts. As noted in the report, many Nebraskans “believe that rural Nebraska, in particular, needs help reimagining and developing its communities,” particularly through the arts, entertainment, and recreation. Museums, heritage tourism, and other forms of public history are a vital part of this effort. As a member of the state’s premier rural-serving educational institution, UNK’s History Department is uniquely positioned to work with and serve rural communities in these efforts.

In both Nebraska and across the United States, museums, historical societies, historic preservation agencies, private consulting firms, and similar institutions can benefit from hiring professionally trained public historians who are knowledgeable in the latest methods in local and community history research, digital history, the preservation of historic materials (archives and material culture), and interpreting history for modern audiences. A standalone MA in Public History will better prepare students for these careers than the existing MA in History with a public history concentration, as the core curriculum of the new program focuses on developing the practical skills and principles necessary for employment outside of teaching and academia.

Given the unique nature and purpose of this program, it will be attractive to students from the existing public history minor at UNK, as well as graduates of other colleges and universities in our state and across the nation. Based on existing experience with the public history concentration in our History MA, we also anticipate the program being attractive to early career professionals in public history, who need to earn an MA degree in order to expand their career opportunities. The letters of support from existing students clearly demonstrate their interest in and desire for such a standalone program. The online accessibility of this program, coupled with its affordability, will make the MA in Public History especially attractive to students who are currently underserved by many in-person programs across the country. The flexibility of our program and the asynchronous nature of online courses enables early career professionals and others unable to relocate for an in-person education to complete a degree that would otherwise be unavailable to them, since there are currently few online public history opportunities.

Evidence of demand for a fully online MA in Public History can be found in the strong record of our existing public history concentration, which is offered through our History MA program. There are currently 21 students pursuing the public history concentration as part of their MA in History. Our public history concentration has had an additional 47 inquiries from prospective students in the past two academic years. These strong numbers have developed with minimal marketing initiative on the part of the History Department. With marketing and promotion, it is anticipated that the program will attract up to 15 new students each year.

This stands in contrast to the public history graduate certificate program at UNK, which has not admitted any students since its inception as both students and employers prefer the additional training and experience that comes with a standalone degree. Most of the students in our existing concentration, as well as prospective students inquiring about our programs, would prefer to earn a standalone MA in Public History, since their career aspirations lie outside of teaching and other, more traditional forms of employment for History MAs. This necessitates a substantially different curriculum and program structure, as the traditional History MA is primarily geared towards those students interested in academic and teaching careers.

C. Required Resources

1. Faculty and Staff Resources

This graduate program is comprised entirely of existing online coursework. UNK Online has online trainings and tutorials available for new online students seeking guidance for success in online education and help navigating all of the software used at UNK. UNK also provides 24-hour assistance with technical issues. The Calvin T. Ryan Library has training services for online students, a huge number of electronic resources, and dedicated library staff for digital databases which are utilized by both campus and online students. All of these resources have been created specifically to support online education at UNK.

This program will also work closely with the Director of the G.W. Frank Museum of History and Culture, an on-campus historic house museum, and the Special
Collections Archivist at the Calvin T. Ryan Library for internships and project opportunities for students.

The Office of Graduate Studies has committed to the use of existing resources to provide the program with a part-time program coordinator, who will assist with the management of program recruitment, retention, marketing, and alumni. The program coordinator will also aid in identifying and facilitating internships and, with the help of the GPC, provide advising for both career counseling and job placement. The College of Arts and Sciences, as well as the Graduate Dean, have additionally committed to use existing resources to hire a second tenure-track faculty member in public history. This second faculty member will be expected to contribute to teaching the core courses in the MA in Public History, as well as electives within their area of specialty. There was an unexpected departure from the History faculty in Summer 2022, which opens a line for this purpose. This commitment from the deans and the existing open line promise to turn the need for a second tenure-track public history faculty member into reality without requiring additional allocations to the university.

An ongoing cost-sharing initiative with the Nebraska Game & Parks Commission (NGPC) promises further support for the MA in Public History program. As part of the Rural Engagement Center launched by UNK, this cooperative venture will provide a repository for NGPC collections that will be professionally managed by MA in Public History graduate assistants and interns. The Graduate Dean has made a commitment for more graduate assistantships to help in this endeavor. Also, upon approval of an MOU, the NGPC will support the costs of a director for the site to oversee the day-to-day operations of the facility. This director will serve as additional public history faculty in the UNK History Department and will actively contribute to the program through oversight of graduate assistants, interns, and student/class projects.

2. **Physical Facilities**
   This program will be housed within existing facilities. All of the coursework will be offered online using existing online teaching resources or in existing classrooms. There is no need to add additional facilities to support this proposed program.

3. **Instructional Equipment and Informational Resources**
   No new instructional equipment or informational resources would be necessary for the implementation of this program. UNK Online provides instructional designers and training seminars, as well as recording equipment and video production for the development of online courses.

4. **Budget Projections**
   The MA in Public History is comprised of existing coursework. As public history is distinct from traditional academic history and demands expertise most historians do not possess, a separate Graduate Program Chair (GPC) will be
required. The Public History GPC would be expected to continue advising students, to arrange and supervise internships, and to promote the program during the summer.

The proposed budget accounts for a GPC stipend, one Graduate Assistantship (GA) position, and $2,500/year in marketing funds to be provided by UNK Online. The GA position would assist with community-based public history projects, as well as the teaching of undergraduate public history courses. The College of Arts and Sciences (CAS) has pledged an additional $5,000/year in operating costs, which will contribute to marketing the program and conference travel expenses. All other expenses, including commitments for additional staff and faculty, will be covered by existing resources.

D. Avoidance of Unnecessary Duplication and Impact on Other Programs

There are no other MA in Public History programs in Nebraska, whether on campus or online. While there are a growing number of Master’s Degree programs across the country that provide training in public history, most only offer public history as a concentration (as UNK does currently) or field of study. According to the National Council on Public History (NCPH), there are currently just 39 programs worldwide that provide a dedicated MA in Public History. The closest programs are at Fort Hays State University (Hays, KS), Southeast Missouri State University (Cape Girardeau, MO), Wayne State University (Detroit, MI), and the University of Minnesota (Minneapolis, MN). Fort Hays State University’s program is part of a smaller department with a single faculty member specializing in public history. By comparison, the UNK Department of History currently has at least four faculty capable of offering courses in this proposed program. The next closest program, at Southeast Missouri State University, focuses almost exclusively on historic preservation rather than public history as a broader discipline. The programs at the University of Minnesota and Wayne State University are both traditional MA programs, offering limited enrollment and not available online.

Even fewer programs identified currently offer an online MA in Public History. Fort Hays State University provides an online option, but their thesis students must complete at least nine hours of on-campus coursework before they can be approved to take courses online. While their non-thesis option can be pursued entirely online, it requires a more traditional written comprehensive exam rather than a project-based experience. The only other online MA in Public History in the United States is offered by Southern New Hampshire University. Additionally, the Universidad Nacional de Quilmes in Buenos Aires, Argentina, offers a new Postgraduate Diploma in Public History and Social Dissemination of History.

The recently submitted MA in History and Government proposed by UNO and existing History programs at UNL, UNO, and UNK will complement the proposed program by providing students with opportunities for collaborative learning and engagement with students and faculty across the NU system.

https://ncph.org/program-guide/?fwp_degrees_offered=m-a-in-public-history
In summary, this MA in Public History is unique and different in the following ways: 1) The curriculum for this program provides students with a broader public history foundation, as well as substantial opportunities for real-world application through internships and an optional practicum; 2) This program is available completely online and, therefore, accessible to all students, including students currently employed in public history and related fields; 3) Other such programs in the nation are, with few exceptions, exclusively on-campus programs, making this program more accessible to students with a variety of work-life complications and those looking for a more flexible degree program; 4) The UNK Department of History has several faculty with training and experience in public history, while many programs rely on a single faculty member to teach the majority of their public history courses; 5) Only one other comparable program is available in the Great Plains and few comparable programs exist in the broader Midwest region.

E. Consistency with the Comprehensive Statewide Plan for Postsecondary Education

The proposed program is consistent with the Statewide Plan for Postsecondary Education. The program is an attempt to properly leverage the potential of the Department of History at UNK in service to the State of Nebraska and its citizens. It has been designed to be efficient and effective. The program takes care to avoid unnecessary duplication of other programs. Additionally, as an online program it will allow students from across the state and beyond to benefit from its existence. Below are specific ways in which the proposed program is consistent with the statewide plan for postsecondary education.

Meet the Educational Needs of the Students: The UNK MA in Public History program clearly aligns with the needs of Nebraska students to enhance their knowledge and skills in public history. The online component meets the goal to ensure that access to higher education programs and services is not restricted by factors such as geographic location, economic status, age, culture, ethnicity, disability, national origin, or gender identity. The program is accessible, affordable, and does not require residency. It will provide skills that students need in order to advance in their careers and to have an impact in their communities, both rural and urban. Because of demand, people currently employed in these positions often come from other backgrounds and require Public History education to excel in their existing positions or advance in the field. The faculty teaching in the program are well established and have the necessary experience and education to deliver high quality instruction to students of the proposed program. Additionally, there are limited online providers nationwide who have successful completion rates. UNK, by contrast, typically sees high retention in online graduate-level courses, ensuring that the vast majority of students are able to successfully complete their program of study.

Meet the Needs of the State: Employment in public history is projected to grow in Nebraska up to 8.5% by 2028.\(^8\) Students could receive positions as curators, historic preservationists, cultural resource managers, museum technicians, registrars, archivists, local historians, and history teachers. Nebraska sees these needs in locations such as collections, archives, curation, libraries, exhibitions, and museum studies. Additionally, the program will meet the needs of the state by providing graduates with the skills and

knowledge needed to succeed as capable employees and responsible citizens. The skills taught in this program are the essential skills that employers need. The letters of support included in this proposal clearly show this. The focus on critical thinking and media literacy also empowers students to be responsible citizens. Additionally, the Public History graduate program clearly meets the goal that higher education in Nebraska be effective in meeting the needs of students and the state, while also being efficient in its expenditure of the state’s resources. The program requires no additional expenditure of resources since the department already offers many online courses. It will be a self-sufficient program.

Meeting Educational Needs through Partnerships and Collaborations: The program will require a high degree of collaboration given that this is a professional degree. The Department of History currently has good relationships with other departments at UNK as well as History Departments at other NU campuses, providing the option to diversify elective offerings. Additionally, the Department of History has strong connections with local and statewide organizations like History Nebraska, Humanities Nebraska, the Nebraska Museums Association, Nebraska Game & Parks Commission, the Museum of Nebraska Art, the Stuhr Museum, Hall County Historical Society, Buffalo County Historical Society/Trails and Rails Museum, and the G.W. Frank Museum of History and Culture. These strong partnerships provide numerous opportunities for collaborations that will benefit both MA in Public History students and the state of Nebraska.

Statewide Facilities Plan: The program is offered entirely online, so it will require no additional facilities. Additionally, the Department of History can support this program with current faculty.

Off-Campus and Graduate Program Plans: Finally, the Comprehensive Statewide Plan for Postsecondary Education states that “off-campus programming, in particular, provides an important educational service to place-bound students within its geographic service area” (7-29). Given that this degree will be offered online, it will fit well into the Nebraska statewide plan for UNK. The statewide plan also explains that new Master’s degrees are to be developed “when a definite need exists and UNK has demonstrated the capacity—including fiscal, human and physical resources—to meet that need” (7-29). This need clearly exists since there is no public history program in the NU system and limited programs worldwide that offer this degree in an online format.

To Whom It May Concern:

The UNK Department of History appreciates the thorough review of our proposal for an MA in Public History by the External Review team: Dr. Leisl Carr Childers (Colorado State University), Dr. Seth C. Bruggeman (Temple University), and Dr. Geoffrey C. Friesen (University of Nebraska-Lincoln). We have carefully considered their feedback and made substantive changes to the proposal document. Those changes are summarized below, organized around the primary and secondary concerns raised by the External Review team.

Primary Concerns:

1. **Greater clarification of the resource commitments associated with this proposal. This includes acknowledging and planning for placing a large, unsustainable (and largely invisible) workload on junior faculty members in the department.**

   The Office of Graduate Studies has committed to the use of existing resources to provide the program with a part-time program coordinator, who will assist with the management of program recruitment, retention, marketing, and alumni. The program coordinator will also aid in identifying and facilitating internships and, with the help of the GPC, provide advising for both career counseling and job placement. The College of Arts and Sciences, as well as the Graduate Dean, have additionally committed to use existing resources to hire a second tenure-track faculty member in public history. This second faculty member will be expected to contribute to teaching the core courses in the MA in Public History, as well as electives within their area of specialty. There was an unexpected departure from the History faculty in Summer 2022, which opens a line for this purpose. This commitment from the deans and the existing open line promise to turn the need for a second tenure-track public history faculty member into reality without requiring additional allocations to the university.

2. **More concrete plans to build out stakeholder relationships, including an advisory board that connects the program to individuals and institutions beyond Central Nebraska.**

   An Advisory Board will be created to support this program and ensure that it remains in touch with both developments in the field of public history, as well as the needs and concerns of potential employers. This Advisory Board will consist of key individuals and institutions within and beyond Central Nebraska. This will include representatives from major state agencies, such as History Nebraska, Humanities Nebraska, and the Nebraska Game & Parks Commission. It will also include members from major regional institutions, such as the Stuhr Museum of Prairie Pioneer, the Durham Western Heritage Museum, the Strategic Air Command & Aerospace Museum, and the Great Plains Black History Museum, as well as local organizations, such as the Buffalo County Historical Society. From the NU system, Advisory Board members will include at least one representative from each campus, enhancing the possibility for intercampus and interdisciplinary collaborations for curriculum and training.
This Advisory Board will build on existing partnerships that the UNK History Department has developed over the years. The History Department has long-standing relationships with History Nebraska, Humanities Nebraska, and the Nebraska Game & Parks Commission, through faculty service, grants, student internships, and course projects. Several UNK History graduates are currently employed by these agencies. The Department also has existing collaborations with UMNC, through both course offerings and research, as well as UNL’s Landscape Architecture program, through work with the Nebraska Game & Parks Commission. The Advisory Board will ensure that such relationships with employers and other NU campuses continue to develop as the program grows. It will also help the MA in Public History develop stronger connections with people and institutions engaged in urban public history work, as well as create an internship and employment pipeline for both active students and program graduates.

3. **Articulating a plan for greater integration with existing resources within the NU system, including faculty expertise and existing online courses at UNO, UNMC, and UNL.**

As the MA in Public History develops, key programs at other NU system campuses will be contacted for their participation in the curriculum. Students will be allowed to take up to 3 credit hours of courses from other NU campuses. These intercampus course offerings will supplement the courses offered by the UNK History Department, allowing students to customize their program of study for need and desired career path. This will also avoid unnecessary replication of existing courses offered by other programs and model the interdisciplinary nature of public history training. Intercampus transfers can include courses from UNO’s graduate program in Anthropology (such as ANTH 8216 Cultural Anthropology and ANTH 8226 North American Archaeology). From UNL, they can include courses in Finance (such as FINA 871 Nonprofit Financial Management), courses from the UNL Anthropology program (such as ANTH 804 Curation of Archaeological Collections), and courses from their Digital Humanities initiative (such as HIST 861 Geospatial Approaches in Digital Humanities and Social Sciences). From UNMC, these can include courses from the MA in Public Health (such as CPH 500 Foundations of Public Health). Within UNK, students will also have the option of taking 3 credit hours from the existing Museum Emphasis within the MAE in Art Education (such as ART 844 History, Theories, and Philosophies of Art Education) or courses in archives and data management offered by the University Archivist. Incorporating these opportunities for interdisciplinary learning will significantly expand career opportunities for students. An Advisory Board including representatives from across the NU system will provide the program with further input on potential intercampus collaborations.

4. **Providing clarity on future hiring plans to support a growing program.**

An ongoing cost-sharing initiative with the Nebraska Game & Parks Commission (NGPC) promises further support for the MA in Public History program. As part of the Rural Engagement Center launched by UNK, this cooperative venture will provide a repository for NGPC collections that will be professionally managed by MA in Public History graduate assistants and interns. The Graduate Dean has made a commitment for more graduate assistantships to help in this endeavor. Also, upon approval of an MOU, the NGPC will support the costs of a director for the site to oversee the day-to-day operations of the facility. This director will serve as additional public history faculty in the UNK History Department and will actively contribute to the program through oversight of graduate assistants, interns, and student/class projects.
Secondary Concerns:

1. **How will the History Department promote public history without bifurcating history training into two tracks – traditional and public history?**

   To promote cohesion between graduate cohorts and avoid bifurcation between the tracks in traditional history and public history, students in the existing MA in History will continue to be required to take at least one public history course during their time in the program. This reflects the department’s existing belief that traditional MA students can benefit from public history training as much as public history students can benefit from taking courses alongside those pursuing the more traditional degree track.

2. **How will elevating Public History in the curriculum reshape how we think about the discipline of History?**

   As noted by the External Review team, public history requires a fundamentally interdisciplinary approach that necessitates rethinking history education beyond the graduate seminar. In addition to a public history curriculum that emphasizes experiential learning, students in the MA in Public History will be able to take courses at other NU system campuses and from related departments at UNK, avoiding replication of coursework and exposing students to additional faculty and perspectives.

3. **Career and job placement relies on developing relationships with prospective employers. Developing an Advisory Board will help facilitate this need. Will there be additional career counseling and job placement resources?**

   In addition to the Advisory Board, both the Graduate Program Chair (GPC) and part-time program coordinator will provide career counseling and job placement resources. They will maintain alumni lists, inform students of job opportunities, and assist students with the application and interview process, as needed. These resources are already provided to students within the existing public history concentration and will be enhanced significantly through the additional support provided by a standalone program.

4. **Given the potential of this online program to reach beyond a regional student audience, is the faculty adequately diverse to serve a broad range of students?**

   Through partnerships with other NU campuses and across UNK, students will be exposed to a diverse range of faculty working in both rural and urban environments.

5. **Is UNK History willing to reach out to other NU departments to expand its resources and expertise? UNK is well-positioned to serve rural populations, but what about urban ones?**

   Through partnerships with UNO and UNL, as well as public history institutions in Omaha and Lincoln (such as the Durham Western Heritage Museum and History Nebraska), students in the UNK MA in Public History from urban areas will be well served by both course offerings, public history projects, and internship opportunities. The curriculum in the core public history courses also addresses issues of concern in both rural and urban public history work.
6. **Most public history experience in the department comes from junior faculty. How will this faculty be supported and retained?**

The External Review team noted that having the core courses of a public history program predicated on a single faculty member leaves the program vulnerable to continuity issues should that faculty member depart from the university. With support from the College of Arts and Sciences, the department will use existing resources to hire a second faculty member in public history who will be equipped to offer the core curriculum, as well as courses in their area(s) of specialty.

Junior faculty in the department are supported by tenure and promotion guidelines that recognize the labor and significance of public history work. These guidelines model a report co-authored by the National Council on Public History, the American Historical Association, and the Organization of American Historians, available here: [https://ncph.org/wp-content/uploads/Engaged-Historian.pdf](https://ncph.org/wp-content/uploads/Engaged-Historian.pdf). Many peer institutions offering public history courses and degree programs have yet to adopt these guidelines, placing UNK in a superior position for supporting junior faculty working in public history.

7. **What would the GA position be for? What does the operating costs cover? These elements were unclear in the proposal and should be clarified to the degree possible.**

The GA position would assist with community-based public history projects, as well as the teaching of undergraduate public history courses. The College of Arts and Sciences (CAS) has pledged $5,000/year in operating costs, which will contribute to marketing the program and conference travel expenses.

8. **Has the program fully anticipated the costs of:**

   a. **Administering the program**
   
   As public history is distinct from traditional academic history and demands expertise most historians do not possess, a separate Graduate Program Chair (GPC) will be required. The Public History GPC would be expected to continue advising students, to arrange and supervise internships, and to promote the program during the summer.

   Per department policy, the GPC will receive a course release or stipend. The proposed budget accounts for a GPC stipend.

   b. **Advertising the program to target students**
   
   The proposed budget accounts for $2,500/year in marketing funds to be provided by UNK Online. The $5,000/year in operating costs pledged by the College of Arts and Sciences (CAS) will contribute to marketing the program and conference travel expenses. All other expenses, including commitments for additional staff and faculty, will be covered by existing resources.

   c. **Internship supervision**
   
   The Graduate Program Chair (GPC) and part-time program coordinator will oversee the internship program, working with community partners to develop internship and employment pipelines and ensure student success. Other faculty in public history may also supervise internships as the program grows.
Per university policy, faculty will receive a course release for every 36 credit hours of internships and directed research/readings courses they have supervised.

d. **Online course development**
UNK Online provides instructional designers and training seminars, as well as recording equipment and video production for the development of online courses.

9. **How does this program align with UNK’s priorities and strategic plan?**

The proposed graduate program contributes to the five-year strategy set forth by President Carter by providing potential students across Nebraska and the country access to an affordable online MA in Public History, one of few such programs globally. The program’s partnerships will additionally contribute to the five-year strategy by providing a variety of educational opportunities through the other NU campuses as well as in collaborations with local and statewide public history institutions and professionals, which will greatly contribute to the student experience and better prepare students for the workforce.

The program also closely aligns with UNK’s Strategic Vision for a "multidimensional learning environment" that engages students with the community and enables them to lead productive lives in an increasingly "diverse, interconnected, interdependent, and technological society." Specifically, this program supports all four values of UNK’s strategic plan, creating a climate of intellectual exchange both within and outside the classroom ("Learning Matters"), extending access to the development of professional skills and knowledge that will benefit the Kearney community and beyond ("Learning Environment Matters"), supporting an inclusive environment that supports diversity and opportunity for individuals with respect to culture, thought, and expression ("People Matter"), and ensuring long-term sustainability by offering a unique program that efficiently and effectively leverages available university resources ("Responsible Stewardship").

Lastly, the program is a unique addition to the Department of History, which has a rich history of being a leader in online graduate education. The existing online MA in History has brought many students and new faculty to the department, providing an existing cohort and breadth of faculty mentorship for students pursuing an MA in Public History. Public history courses have proven to be especially popular within the existing MA, operating at or above capacity each semester with current faculty. As such, the MA in Public History is proactive and low risk, with a proven ability to attract students and expand upon existing community and NU system collaborations.

SUBJECT: Transition the Bachelor of Science (BS) and Bachelor of Arts (BA) in Latin American Studies into the Existing BS and BA Degrees in Ethnic Studies at UNL

RECOMMENDED ACTION: Approve transition the Bachelor of Science (BS) and Bachelor of Arts (BA) in Latin American Studies into the Existing BS and BA Degrees in Ethnic Studies at UNL

EXPLANATION: In recent years, the UNL Latin American Studies program has not had enough majors to sustain the stand alone major. Therefore, the curriculum has been transitioned and restructured as an option within the existing Ethnic Studies major. In addition, a minor in Latin American Studies (U.S. Latina/Latino Studies and Latin American Studies) will also remain available. This is parallel to the other minors in the Institute of Ethnic Studies which correspond to the emphases/options within the Ethnic Studies major. This action will result in the elimination of stand-alone degrees in Latin American Studies.

This proposal has been reviewed by the Council of Academic Officers; it also has been reviewed by the Academic Affairs Committee.

Dear EVPP Gold,

I am forwarding a proposal to eliminate the Latin American Studies major within the Institute of Ethnic Studies administered by the College of Arts and Sciences. The Ethnic Studies BA/BA major was restructured to provide an option in Latinx and Latin American Studies and will continue to support student interest in this area. There are no anticipated budget impacts.

The proposal has the approval of the College of Arts and Sciences Dean Button, Executive Vice Chancellor Ankerson, Academic Planning Committee, and it has my approval. I am requesting you approve it as well.

Sincerely,

Subject: Deletion of the Major in Latin American Studies

Please find attached the proposal for to eliminate the major in Latin American Studies. The Ethnic Studies major has an emphasis in Latino and Latin American Studies, and an accompanying proposal seeks to elevate that emphasis (and the others in the Ethnic Studies major) to an Option. The minors associated with Latin American Studies (U.S. Latina/Latino Studies and Latin American Studies) will remain and become minor only programs which is in parallel to the other minors in the Institute which correspond to the emphases/options within the Ethnic Studies major.

This proposal was approved in the Institute for Ethnic Studies prior to submission to the College of Arts and Sciences for approval. The CAS Curriculum and Advising Committee met on October 28, 2021, and unanimously approved this proposal. This was presented for approval to the college faculty at our regularly fall faculty meeting on December 15, 2021, and received unanimous approval.

II. Details

A. Justification for Deletion of the Major or Degree

In recent years, Latin American Studies has not had enough primary or secondary majors to sustain the standalone major. The curriculum, restructured as an option within the Ethnic Studies major will be maintained. The minors associated with Latin American Studies (U.S. Latina/Latino Studies and Latin American Studies) will also remain as minor only programs. This is parallel to the other minors in the Institute of Ethnic Studies which correspond to the emphases/options within the Ethnic Studies major.

B. Plan for Implementation of the Deletion of the Major or Degree

1. Current Students
   The 1 existing student in the major is a senior and the courses needed for graduation should be available. LAMS 478 may not be offered due to lack of enrollment. It is an interdisciplinary course, so it will be possible to find a suitable substitution under consultation with their advisor.

2. Current Faculty and Curriculum
No adjustments to faculty are needed as the curriculum remains available under the Latinx and Latin American Studies Option

3. Impact on other units and programs
   None

4. Impact on Course Subject Codes
   We will begin transitioning courses with the LAMS designator to the ETHN designator and eventually seek elimination of LAMS. If this can be done simply and administratively, we will move ahead right away, or if curriculum action is needed for each course, we will get started and more slowly make changes, reassessing any cross-listings as we go.

5. Budgetary Savings associated with the change
   None

6. Budget Projections [include Table 1 and Table 2] -
   There is no financial impact from this deletion as there were no specific faculty or staff connected to the program specifically, and very little student enrollment. The course offerings are primarily cross-listed with other units and will remain as is.

Academic Affairs Committee

MEETING DATE: December 2, 2022

SUBJECT: Academic Freedom and Tenure Committee Report Recommending the Termination of a Faculty Member’s Continuous Appointment.

RECOMMENDED ACTION: Review the evidence submitted to the Academic Freedom and Tenure Committee and the Committee’s report (including its findings, conclusions, and recommended action) and then decide whether to adopt the Committee’s recommendation to terminate the faculty member’s continuous appointment.

EXPLANATION: In accordance with Section 4.15.2 of the Bylaws of the Board of Regents (previously Section 4.14.2 before the Bylaws were amended on April 9, 2021), President Carter filed a complaint with a Special Academic Freedom and Tenure-B (AFT-B) Committee on October 7, 2020, seeking the termination of the continuous appointment of Dr. Julie M. Stone, a faculty member at the University of Nebraska-Lincoln.

This complaint followed a vote by other tenured faculty members within Dr. Stone’s department, finding that she lacked the professional competence expected of a tenured faculty member and a report from outside counsel stating that reasonable cause exists for terminating her appointment.

The Committee met to review the underlying facts on November 9, 2021, and conducted a formal, closed hearing through recorded internet sessions that spanned several days (January 11, 18, 21, and 28, 2022). At the hearing, the burden was on the University to establish by the greater weight of the evidence that reasonable cause existed for terminating Dr. Stone’s appointment. Both parties were afforded the opportunity to submit testimonial and documentary evidence at the hearing and engage in cross-examination.

The Committee reviewed the hearing findings on March 4, 2022, but erroneously sent its conclusions as a Final Report without the required 5-day period for complainant and respondent written responses to a Draft Report. Therefore, the report was remanded back to the Committee and the verbatim transcript was sent to each party on April 4, 2022, and written responses were requested by June 2, 2022.

The Committee reconvened on July 12, 2022, to discuss the responses received and completed the Final Report on August 3, 2022. The Committee unanimously agreed that the University had met its burden of proof and recommended that Dr. Stone’s continuous appointment be terminated.

SUBJECT: Transition the Master of Science (MS) in Emergency Preparedness into the Master of Public Health (MPH) administered by the College of Public Health at UNMC

RECOMMENDED ACTION: Approve transition the Master of Science (MS) in Emergency Preparedness into the Master of Public Health (MPH) administered by the College of Public Health at UNMC

PREVIOUS ACTION: April 13, 2012 - The Board Approved the creation of a Master of Science in Emergency Preparedness under the sponsorship of the University of Nebraska Medical Center.

EXPLANATION: UNMC currently offers both Master of Public Health (MPH) and Doctor of Public Health (Dr.PH) degrees with an available emphasis in emergency preparedness. Due to the popularity and demand of these degrees for emergency preparedness practitioners, the popularity and subsequent applications to the research-focused MS program in Emergency Preparedness have fallen dramatically. A stand-alone research degree can no longer be justified. The few students in the program will graduate shortly or have already transitioned to the MPH program. Faculty with Emergency Preparedness expertise are practice focused and teach coursework in the public health programs. This action will result in the elimination of Emergency Preparedness MS degree

Dear Dr. Davies:

I have received the request to discontinue the Master of Science in Emergency Preparedness program at the University of Nebraska Medical Center. Based on the information provided, I understand a Master of Public Health concentration was created to meet the demand for this training, and the one remaining student will finish in the upcoming year.

I concur with this decision and that it be forwarded to the Executive Graduate Council for consideration.

MS IN EMERGENCY PREPAREDNESS

Proposal for Program Deletion

Applications to the new Emergency Preparedness academic programs in the College of Public Health have grown exponentially since the launch of the MPH and DrPH degrees in 2019 and 2020 respectively. When the MPH was launched, the MS program was amended accordingly. The original MS program had two (2) tracks: one with a practice focus and the other with a research focus. Given that the MPH was a “practice” professional degree, the practice track in the MS was removed and the degree courses changes to reflect a research degree. In the proceeding 2 years the popularity and subsequent applications to the MS program fell dramatically, a phenomenon we attribute to the popularity and demand for public health degrees to prepare professional public health Emergency Preparedness practitioners. To this end and in keeping with the practice-based expertise of the faculty engaged in all the Emergency Preparedness programs, we present this proposal to delete the MS in Emergency Preparedness from the suite of academic programs in this discipline.

1. **Statement of Need**
   1. Student demand: *We have seen a decline in student demand for this program*
   2. External demand: *We believe the pandemic has accelerated the demand for more practice-based degrees such as the MPH and DrPH. Ten (10) ASPPH schools offer an MPH or Certificate, 5 adding new programs in the last 5 years. None have a MS in Emergency Preparedness. 136 total schools/programs of public health associated with ASPPH.*

4. **Current employment of graduates for last 5 years and other indicators of program quality:**

   **Employment Data:** The following data are collected and reported to CEPH

   *Students who graduated in 2016-2017: 1 was working full-time for a Local Health Department. 1 was working full-time in education at the elementary level. Students who graduated in 2017-2018: 1 was enrolled in continuing education, subject unknown. 1 was working full-time for a Local Health Department. **Indicators of Program Quality:** From 2013-2014 to 2020-2021, a total of 27 students matriculated into and were enrolled in the MS-Emergency Preparedness program. Eighteen (18) graduated, 4 are still actively enrolled, and 5 have withdrawn. Overall, this is an 18% attrition rate for the program.

5. Institutional need and impact on other graduate and undergraduate programs, departments or campuses: There would be no impact on other programs if the MS program was inactivated. All courses initially developed for the MS program are being used in the Certificate, MPH and DrPH programs in Emergency Preparedness.

2. Curriculum
   1. Description of curriculum: See appendix A for all curricula for the Emergency Preparedness Programs.
   2. Special requirements: None
   3. Scheduling of courses for the last 5 years: Consistently offered two (2) Emergency Preparedness courses each fall and two (2) each spring semesters. This practice continues with the MPH and DrPH programs.
   4. Current course syllabi: See Appendix B
   5. Availability/quality of practica, internships, etc.: N/A. The MS program had no practicum/internship requirement
   6. Duplicate or closely related course offerings at the department, campus, University-wide levels: The closest offering in the NU system is the MPA with a concentration in Emergency Management at UNO. Emergency Management is considered a distinct career field from Public Health Preparedness and does not include any public health or medical response content or context.
   7. Dual-listed courses (graduate and upper-division undergraduate): None

4. Faculty
   1. Narrative description summarizing expertise of the faculty: All faculty have extensive practice experience in Emergency Preparedness and continue to teach the core Emergency Preparedness courses in addition to two (2) new courses developed for the DrPH in Emergency Preparedness. All current faculty are fully engaged in mentoring/advising MPH and DrPH students.
   2. Résumés including publications, current research activities and outside funding (grants, contracts, etc.), conferences attended and papers presented, other scholarly activity: Not applicable to program deletion
   3. Possible reassignment, retraining or retirement of faculty and staff: None needed

5. Students
   1. Number of students influenced by deletion/consolidation: There are currently 4 active students in the MS program. Two of whom are actively applying to transfer to the MPH program
   2. Level of progress of affected students: Both remaining students are scheduled to graduate in Spring 2022 and Spring of 2023 respectively
3. Potential for transfer to other programs/departments: *Two students plan to transfer to the MPH in Emergency Preparedness. The remaining 2 will complete the program to graduation*

4. Relative cost to students: *The students who are transferring to the MPH had planned the transfer before the decision was made to delete the MS program. They understood that the requirements added another 6 credit hours*

6. Facilities
   1. Laboratories/faculty offices: *All facilities will continue to be needed for the MPH and DrPH programs.*
   2. Library holdings: *no change – currently only one subscription*

7. Budget
   1. Present cost of the program (budget). *There is no additional cost of this program given that all courses are now used in the MPH and DrPH programs*
   2. Income of the program (grants, contracts, student tuition, fees, etc.): *Student tuition income based on an average of 3 students/year is $64,476*
   3. Funds saved if the program is eliminated/consolidated. *There are no funds saved if the program is eliminated. Instructor and faculty time can be dedicated to the growing MPH and DrPH programs*
   4. Phase-out costs and time-line. *There is no phase out cost and the two remaining students will graduate in Spring 2022 and Spring 2023. The program will end after the last student graduates.*

RECOMMENDED ACTION: Approve naming of the Special Collections and Archives Department in McGoogan Health Sciences Library the “Robert S. Wigton Department of Special Collections and Archives” at UNMC

PREVIOUS ACTION: November 18, 2016 – Approval of the naming of the 8th Floor of the McGoogan Library to Wigton History of Medicine Archives.

EXPLANATION: Dr. Wigton is an alumnus of the University of Nebraska Medical Center who meets all five of the naming criteria in Board of Regents Policy RP-2.6.1. Dr. Wigton provided extraordinary service and generous financial support to the University of Nebraska and the University of Nebraska Medical Center.

Under the Board of Regents Policy RP-2.6.1: Identification using the name of or in honor of an individual, a family, or an organization shall be approved by the cognizant Chancellor, the President, and the Board of Regents.

SUBJECT: Residence Hall Room and Board Rates for the Academic Years 2023-24 through 2025-26 at the University of Nebraska at Kearney (UNK)

RECOMMENDED ACTION: Approve the Residence Hall Room and Board Rates for Academic Years 2023-24 through 2025-26 at UNK

PREVIOUS ACTION: December 6, 2019 - The Board of Regents approved the Room and Board rates for the 2021-23 Academic Years.

EXPLANATION: The proposed rates shown below will generate the income required to cover obligations while managing the cost to students. The rates reflect a 3% annual increase for students selecting the Loper meal plan residing in a double occupancy basic room, which is the most prevalent rate used today.

<td>$11,780</td>
<td>$12,134</td>

The above-noted rates are the basic room and board charges for traditional residence halls, to which all other housing rates are then related – suite style, apartment style, fraternity/sorority living, etc. The percentage increase in rates for these other special contracts may be higher than those stated above for the standard plans, depending upon the unique features that call for a special rate and contract.

UNK's rate increase supports cost recovery for employee salaries and wages, employee benefits, raw food costs, materials and supplies, and technology enhancements. These rates will also support the debt service required for University Housing and a high-quality food service program, as well as continued investment to address deferred maintenance needs.

SUBJECT: Residence Hall Room and Board Rates for Academic Years 2023-24 through 2025-26 at the University of Nebraska-Lincoln (UNL)

RECOMMENDED ACTION: Approve the Residence Hall Room and Board Rates for Academic Years 2023-24 through 2025-26 at UNL

PREVIOUS ACTION: February 12, 2021 – The Board of Regents approved a 2.2% reduction of double-occupancy room and board rates for academic year 2021-22 and a preliminary 3.0% increase previously approved for academic year 2022-23 at UNL.

EXPLANATION: The proposed rates shown below will generate the income required to cover obligations while managing the cost to students. The rates reflect a 3% annual increase for students selecting double occupancy in traditional-style renovated halls and the all-access plan, which is the most prevalent rate used today.

Rates would increase up to 3.0% annually for each of the three years from 2023-24 through 2025-26. Even with the proposed increases, UNL remains competitive among both peer and other Big Ten institutions.

Proposed rates are:

RECOMMENDED ACTION:  Approve the Residence Hall Room Rates for Academic Years 2023-24 through 2025-26 at UNO

PREVIOUS ACTION:  December 5, 2019 – The Board of Regents approved an extension for an up to 3% overall average rate increase in the 2020-21, 2021-22 and 2022-23 academic years for student housing rates at Scott Court, Scott Village, Maverick Village, and University Village at the University of Nebraska at Omaha.

It should be noted that due to the global pandemic and its financial impact on our students, the University of Nebraska at Omaha elected not to increase room rates for the 2020-21, 2021-22 and 2022-23 academic years.

EXPLANATION:  The proposed rates shown below will generate the income required to cover obligations while managing the cost to students. The rates reflect an average 3.4% annual increase in 2023-24 for student housing rates at Scott Court, Scott Village, Maverick Village, and University Village.

Rates would increase up to 3.5% annually for 2024-25 and 2025-26.

Business and Finance Committee

MEETING DATE: December 2, 2022

SUBJECT: Amend Board of Regents Policy 5.6.1 regarding Sponsorship of Speakers with Student Fees

RECOMMENDED ACTION: Amend Board of Regents Policy 5.6.1, Sponsorship of Speakers with Student Fees

PREVIOUS ACTION: November 16, 1979 – The Board of Regents approved Regent Policy 5.6.1 to provide guidelines to the UNL University Program Council and UNO Student Programming Organization with respect to sponsoring speakers with student fees.

September 6, 1991 – The Board of Regents approved an amendment to RP-5.6.1 to extend the guidelines to all student programming organizations administering speaker programs on each campus.

EXPLANATION: The proposed revisions to Board of Regents Policy 5.6.1 provide updated guidelines to student organizations for evaluating requests to fund campus speakers with student fees, outlining a viewpoint-neutral set of factors that such organizations may consider. The revised policy also requires the creation of an appeal process to ensure that decisions on funding of speakers are compliant with Regents Policy and applicable law.

It is proposed that Regents Policy 5.6.1 be revised as follows:

**RP-5.6.1 Sponsorship of Speakers with Student Fees**

The student programming organizations administering the speakers programs on each campus shall abide by the following guidelines in sponsoring speakers on campus with the use of student fees:

1. The purpose of a speakers program is to advance the general educational mission processes of the University by putting before the University community a broad range of ideas on a variety of contexts. The purpose of a speakers program is not to advance any particular viewpoint, political or personal philosophy.

2. In deciding how to allocate limited funds for campus speakers, a student organization may consider (a) the extent to which the speaker’s intended message advances the educational mission of the University; (b) the overall breadth of topics covered by speakers on campus in the year in which the speaker would speak and the three prior academic years, with the goal of covering a broad range of topics; (c) if applicable, the academic reputation of the speaker and the quality of the speaker’s academic or other published work; (d) the level of student interest in having the speaker come to campus;
(c) the University's ability to ensure the safety of the speaker, students, and other persons; (f) any potential for damage to property; and (g) the cost of bringing the speaker to campus. The student organization may not consider the speaker’s point of view on any issue in deciding whether or not to bring the speaker to campus and must comply with all applicable constitutional requirements. The organizations administering speaker programs shall provide reasonable political and ideological balance on subjects of politics and government. For instance, if the organization sponsors a speaker that represents one part of a political or ideological spectrum of ideas on a subject of politics, government, or ideologies, it shall make reasonable attempts to sponsor a different program within the same academic year which generally represents the opposing part of that spectrum of political or ideological ideas.

3. The student government of each University campus shall develop and implement policies and procedures that (a) ensure compliance with this Policy; (b) set forth other written criteria not inconsistent with this Policy for the allocation of student activity fees to pay for speakers; (c) require the creation and preservation of a verbatim record of student fee funding deliberations by student organizations; (d) require that the reasons for the grant or denial of a funding request be made in writing; (e) provide a mechanism for avoiding conflicts of interest in student fee funding decisions; and (f) establish an appeal process in cases where it is alleged that a funding decision was not made in a viewpoint-neutral manner, including a final appeal to the campus Chancellor. In all events, the organization administering the program shall make every attempt to remain neutral and fair in the selection of speakers on subjects of politics, government, and ideologies.

4. Student programming organizations shall organize internal committees that will have an ongoing responsibility to make student fee funding decisions in compliance with this Policy and applicable law ensure that a balanced program is presented.

5. In considering an appeal of a student organization’s funding decision, the person or body deciding the appeal may weigh all the factors in RP-5.6.1.2 as though the consideration of the question had come before it in the first instance and shall resolve the appeal in accordance with this Policy.

6. University Program and Facilities Fee (UPFF) funding and approval of political and ideological speakers will proceed through the same procedure for approval of all speakers. All speaker programs, regardless of the viewpoint of the speaker's content of the speech, will be administered in the same way.

7. All students are encouraged to join their programming groups and/or give their input to the speaker selection on their campus.

SUBJECT: StarTran Transportation Agreement

RECOMMENDED ACTION: Approve a twenty-month agreement with two optional one-year extensions with the City of Lincoln to continue providing StarTran bus service on routes connecting University of Nebraska-Lincoln (UNL) City Campus, East Campus, and Nebraska Innovation Campus (NIC).

PREVIOUS ACTION: March 31, 2017 – The Board of Regents approved a five-year agreement with the City of Lincoln to provide StarTran bus service on routes connecting UNL City and East campuses.

EXPLANATION: Since 1994, UNL has purchased campus transit services from StarTran, the City of Lincoln’s public transit system. StarTran operates ten buses during the academic year and four buses on the routes during summer and days between academic terms.

The agreement approved in March 2017 expired August 21, 2022, before and after which time parties were engaged in negotiations and considering the future direction of the program. A short-term, 4-month bridge agreement from August 22, 2022 – December 31, 2022, was executed until final details of a long-term agreement could be negotiated. The proposed agreement would commence on January 1, 2023, and expire on August 25, 2024, with two optional one-year extensions.

The agreement covers StarTran’s operating, repair, maintenance, administration and capital replacement costs. The agreement includes a determined annual cost for the first eight months with operating costs tied to the Consumer Price Index (CPI) for subsequent years. The agreement is funded through a Student Transit Fee assessment and revenue from the sale of parking permits.

b. For any Service Period after Service Period 1, UNL may increase or reduce the service described in Section 3 by providing StarTran written notice of the extent of such increase or reduction by March 15 of the Service Period prior to the Service Period for which service will be increased or reduced. If UNL increases or reduces bus service for any Service Period under this section, StarTran may increase or reduce the Cost of Service for such Service Period proportionately to the increase or reduction of service. If the service increase or decrease does not affect the capital equipment cost, then StarTran may only increase or decrease the operating cost proportionately to the service increase or reduction. StarTran may, in its reasonable discretion, decline a proposed service increase due to unavailability of equipment or personnel.

c. Effective on the first day of each Service Period after Service Period 1, the operating rate shall be adjusted by (i) multiplying the operating rate for the prior Service Period by the unadjusted percent change in the Consumer Price Index published by the U.S. Bureau of Labor Statistics for all urban consumers (CPI-U), Lincoln, Nebraska MSA Average, “all items,” in the most recent twelve (12) months for which data is available that is not subject to revision; and (ii) adding the product of Section 4.c.(i) to the operating rate for the prior Service Period.

d. If the parties renew the Agreement, then StarTran may increase the capital equipment costs in each of Service Periods 3 and 4 by an amount the parties negotiate in good faith and mutually agree to in a written amendment to the Agreement prior to the beginning of the Renewal Term.

7. **Route and Schedule Coordination.** StarTran will work closely with UNL to assure that the time schedules for the Routes are coordinated with class schedules and other needs of UNL. StarTran and UNL mutually agree and understand that the Cost of Service paid by UNL in this Agreement includes funding for the depreciation of Additional Equipment not already funded in full by UNL. The Additional Equipment is not for the exclusive use of the Routes but will be assigned daily as primary use on the Routes. Buses used under this Agreement will meet the service life requirements set forth by the Federal Transit Administration and all buses used on the Routes shall be equipped with an automatic vehicle location system that allows for tracking bus locations on patron owned devices, e.g., desktop or mobile computers, data capable cellular phones through StarTran’s public-facing bus tracking software.

Straight-line depreciation begins on the date that each bus purchased under the Original Agreements was placed in service.

StarTran shall only be responsible for damage to such streets, roadways, and other street related facilities, including but not limited to manholes and covers, storm drains, curbs, and other structures in, on, or attached to the traveled surface of any UNL street or roadway to the extent such damage is due to the negligence or willful misconduct of StarTran. StarTran agrees to comply with all rules and regulations of UNL and any applicable state or local laws, rules, and regulations during StarTran’s use of UNL’s streets, roadways, and other facilities.

19. Termination by UNL. UNL shall have the right to terminate this Agreement for its own convenience upon not less than ninety (90) days written notice to StarTran. SUBJECT: Andrews Hall LB384 Air Handling Unit (AHU) Replacement at the University of Nebraska-Lincoln (UNL)

RECOMMENDED ACTION: Approval of LB384 funding for Andrews Hall LB384 AHU Replacement at UNL

PREVIOUS ACTION: None

EXPLANATION: Andrews Hall, named in honor of E. Benjamin Andrews Chancellor of the University from 1900-1908, opened for classes in September 1928 as home to the College of Dentistry, Foreign Languages, and English. The building is nearly 70,000 gross square feet and three stories tall, oriented from east to west.

Andrews Hall is currently served by an Air Handling Unit (AHU) that is at the end of its useful life and in a mechanical space that is difficult to access for maintenance. A new modular AHU with walkable enclosure will be placed on the roof and the third floor HVAC system will be replaced with a standard Variable Air Volume/Reheat system meeting UNL standards for energy efficiency and temperature control. Additional improvements to the heating hot water system and lower-level HVAC controls will be made to support the operating sequence for the new AHU.

Design will be completed with a 4-year firm, Farris Engineering, who assisted with the earlier study. Equipment procurement will be first in early 2023. Construction will start summer 2023 and complete in spring 2024. The timeline will be finalized as design progresses, construction vendors are selected, and lead times are fully captured.

MEETING DATE: December 2, 2022

SUBJECT: Medicaid Graduate Medical Education (GME) Supplemental Payment Program

RECOMMENDED ACTION: Authorize amendment to the Interagency Agreement with The Nebraska Department of Health and Human Services to support the Medicaid Graduate Medical Education Supplemental Payment Program for the University of Nebraska Medical Center (UNMC).

PREVIOUS ACTION: Interagency Agreement with The Nebraska Department of Health and Human Services (DHHS) effective December 1, 2018, providing supplemental payments to UNMC Physicians, Nebraska Pediatric Practice, and UNMC College of Dentistry.

EXPLANATION: UNMC and its hospital affiliates, Nebraska Medicine (NM) and Children’s Hospital and Medical Center (CHMC), play unique roles as leading institutions in Nebraska in training the next generation of health care providers and providing high-quality care for a high-volume of Medicaid beneficiaries. As a leader in GME, UNMC trains 70% of all physicians in the State with over 70 residency and fellowship programs, training over 660 physicians a year.

In alignment with Governor Ricketts’ priority of ensuring timely access to high-quality health care for Nebraska’s rural populations, UNMC has led research on identifying gaps in access to physicians in urban and rural areas and has established plan to target the recruitment, training, and retention of critical providers in underserved regions. In addition, national shortages in pediatric specialists and sub-specialists have limited the ability of CHMC to recruit and retain pediatric physicians to Nebraska.

UNMC seeks a new partnership with Nebraska Medicaid to pursue enhanced GME funding with no incremental cost to the state. DHHS, working with UNMC and Nebraska Medicine, submitted in March 2022 two State Plan Amendments that would increase the federal funding to eligible Nebraska teaching hospitals. The new funding identified through this program will support residency and fellowship programs that will help NM and CHMC meet the needs of the adult and pediatric populations, with additional recruitment, training, and retention of critical physician providers needed to provide optimal health care to adults and children in underserved regions while expanding GME training throughout Nebraska.

In the most recent 5 years, UNMC has seen substantial growth in the number of trainees in ACGME accredited residency and fellowship programs and the addition of new ACGME core residency programs and fellowships. UNMC is also in the process of increasing the number of
trainees in Internal Medicine and Psychiatry, two programs that incorporate a specific focus in rural areas.

This item has been reviewed by the Business and Finance Committee.

PROJECT BUDGET: The non-federal share of this program, estimated at $26M, would be funded by an Interagency Agreement with DHHS from the UNMC College of Medicine.

ON-GOING FISCAL IMPACT: Payments would be made directly from Department of Health and Human Services (DHHS) to UNMC’s hospital affiliates to support GME trainee expenses. In the interest of streamlining program administration and supporting timely payments, UNMC proposes prospective quarterly payments.

Contractor attests that, as of the Effective Date of this Agreement, it has complied with all applicable requirements to be considered PCI DSS compliant and has performed the necessary steps to validate its compliance with the PCI DSS, and will maintain such compliance for the life of this Agreement. For purposes of this Agreement, “PCI DSS” means the most current version of the Payment Card Industry Data Security Standard administered by the Payment Card Industry Security Standards Council. Contractor agrees to supply evidence of its most recent validation of compliance upon execution of this Agreement and annually for the length of the Agreement by providing a copy of Contractor’s current, valid, and signed PCI SAQ, AOC, and/or ROC or other comparable document accepted by Contractor’s bank, processor, or acquirer. In no case shall any liability owed to the Contractor by UNO, under this subsection, exceed the cost of the merchandise to the Contractor. Further, Contractor accepts the risk of loss or damage to fixtures, equipment and other Contractor properties while in transit to or from Dining Services except to the extent that any such loss is due to the negligence of UNO;

8) With assistance of UNO Department of Public Safety, develop and maintain a security program for Dining Services, with specific attention to those times and events when security concerns are heightened;

Before exercising any of these options, University shall provide written notice to Contractor describing the violation and the action it intends to take.

h. **Maintenance of the Security of Electronic Information.** Contractor shall develop, implement, maintain and use appropriate administrative, technical and physical security measures to preserve the confidentiality, integrity and availability of all electronically maintained or transmitted CDI received from, or on behalf of University or its students and will protect CDI no less rigorously than Contractor protects its own confidential information. These regulations prohibit discrimination against qualified individuals based on their status as protected veterans or individuals with disabilities, and prohibit discrimination against all individuals based on their race, color, religion, sex, sexual orientation, gender identity, national origin or for inquiring about, discussing, or disclosing compensation. Moreover, these regulations require that covered prime contractors and subcontractors take affirmative action to employ and advance in employment individuals without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability or veteran status.”

In the case of any such excusable delay, the non-performing party will be excused from performance of any affected obligation only for so long as the cause of the excusable delay prevails and such party continues to use commercially reasonable efforts to re-commence performance of its obligations as soon as possible; provided however, that the parties may mutually agree that such excusable delay is cause to cancel the Agreement in its
entirety, in which case neither party shall be liable to the other for any further performance in relation obligations arising after cancellation.

25. Compliance with Laws and Regulations and University of Nebraska Policies

Contractor must comply with all applicable federal, state and local laws, specifically including all laws and regulations related to the protection and security of any personal information gathered by the Contractor, and all other policies of the University of Nebraska. Contractor shall exercise control over itself, its employees, agents, contractors, and affiliated parties to prohibit acts of discrimination, including sexual harassment, against University students, employees, and other members of the University community. Contractor shall cooperate with the University following any report of discrimination. In the event University or Contractor determines that Contractor or an employee, agent, contractor, or other person affiliated with Contractor has engaged in discrimination, including harassment, or other inappropriate conduct, University and Contractor will promptly discuss the matter and Contractor will take prompt and effective action, in accordance with the policies of Contractor and University to prevent recurrence of the conduct and to correct its effects, which may include removal of Contractor or the employee, agent, contractor, or other person affiliated with Contractor from providing the Deliverables. Contractor’s failure to comply with this provision may be cause for immediate termination of this Agreement. University shall be responsible for its own acts and omissions and the results thereof. University agrees that it will assume all risk and liability to itself, its agents, or its employees for any injury to persons or property resulting in any manner from the conduct of its own operations and the operations of its agents or employees under this Agreement, and for any loss, cost, or damage caused thereby during the performance of this Agreement. This clause shall survive termination of this Agreement.

b. **Consequential Damages.** In no event shall either Party be liable for consequential, indirect or incidental damages (including punitive damages and lost profits), even if such Party has been advised of the possibility of such damages in advance.

### 29. Subcontractors

The Contractor shall not subcontract all or substantially all of any facet of its performance under this Agreement without the prior written approval of UNO. The Contractor shall be fully responsible for the acts and omissions of its subcontractors and of the persons directly or indirectly employed by them. If any partners, directors, officers, employees, licensees, subcontractors, personnel, or agents of Contractor become excluded from Federal health care program participation, such individual shall be removed from participating in the Agreement immediately. Upon UNO’s reasonable request, Contractor shall deliver to UNO proof of the payment of all taxes.

Contractor assumes sole responsibility to comply with all provisions of federal state, and local laws relating to or governing the operation of dining services. Notwithstanding the provisions of this Section, UNO shall remain liable for sales tax, if any, upon its sale of meal plans, and for property tax, if any, upon its real or personal property.

1. INTRODUCTION
The University of Nebraska at Omaha (“UNO” and the “University”) is soliciting proposals from qualified contractors to establish an agreement for Dining Services, Retail Dining Operations, and Catering as outlined in this Scope of Work for the period of July 1, 2022, through June 30, 2025, with options to renew for a maximum term length of five (5) years unless terminated earlier per the terms of the services contract.

2. ABOUT THE UNIVERSITY OF NEBRASKA AT OMAHA

2.1 MISSION STATEMENT
The University of Nebraska at Omaha is one of four campuses in the University of Nebraska System and Nebraska’s metropolitan university—a student-centered university with strong academic values and significant relationships with our community that transforms and improves life.

A Metropolitan University, defined in its simplest terms, is an institution that accepts all of higher education’s traditional values in teaching, research, and service, but takes upon itself the additional responsibility of providing engaged leadership within the metropolitan region by using its human and financial resources as partners to improve the region’s quality of life. The University of Nebraska at Omaha is accredited by the Higher Learning Commission, a regional accreditation agency recognized by the U.S. Department of Education.

2.2 BACKGROUND
UNO is comprised of 6 academic colleges: Arts and Sciences, Business Administration, Communication, Fine Arts and Media Education, Information Science & Technology, and Public Affairs and Community Service. There are approximately 2,096 total faculty and staff employed by UNO.

UNO’s tuition is one of the most affordable in the region, but low tuition doesn’t equal low quality programs and facilities at UNO. We hold the prestigious classification of being a Carnegie Doctoral Research University—which means we offer specialized doctoral programs, master’s degrees, and certificates. Our facilities are some of the best in the nation.

In 2020-2021, the University had their highest enrollment since 1992 of 15,892 undergraduate and graduate students. Of those, 12,768 were undergraduate students, 2591 were graduate students, and 533 were international students.

UNO has grown to include two campuses. Students find a comprehensive array of programs and classes offered in the traditional weekday time frame, as well as in the evenings and on weekends.

UNO has six residence halls: Maverick Village (Capacity 384) and University Village (Capacity 576) on the Dodge Campus. On the Scott Campus: Scott Court (Capacity 480), Scott Village (Capacity 480), Scott Hall (Capacity 136) and Scott Crossing (Capacity 425). Off campus housing includes the Newman Center (Capacity 162).
3. EXPECTATIONS

The primary objective of this solicitation is to develop a new program of excellence for UNO’s food service & catering program on the Dodge campus (“UNO Food Services & Catering”). The successful Contractor shall, in conjunction with the University, design a food service & catering program that enhances the quality of life for all students, faculty, staff and visitors and contributes significantly to the total educational experience and campus culture. It is the overall intent to provide students, faculty, staff and visitors with the highest quality products and the most courteous and efficient service possible.

In addition, it is the University’s desire to provide quality food service at the most reasonable and economical prices possible to obtain the desired service. The successful Contractor will be expected to provide a full range of fresh, nutritious, affordable and tasty food and beverages through the purchase, preparation and service of food and beverage products appropriate for a wide variety of dining settings. Food options, including but not limited to, vegan, vegetarian, kosher, halal, dairy-free and gluten-free shall be offered.

The successful Contractor will provide effective management and operational control of the dining service space(s). The Contractor shall retain current UNO Food Services & Catering employees. The successful Contractor will be expected to collaborate with other University entities to produce and maintain a culture that promotes recruitment, retention and community.

Contractor shall keep current all food and beverage service licenses, food handler permits, and other applicable food service documentation in accordance with all local laws and regulations, and shall provide copies of such to the University upon request.

4. PROJECT OVERVIEW & TIMELINE

The University desires to gain an understanding of Contractor’s ability to innovate, create and utilize an entrepreneurial approach for innovative on-campus dining options on the Dodge Campus. Most importantly, the University values a program that meets the needs of current and future students. UNO Food Services & Catering will provide:

1) Affordability for all students, including exciting and modern on-campus dining options;
2) Upperclassmen meal plans that promote on-campus living and assist with recruitment and retention efforts;
3) Attractive and innovative meal plans for all students, especially on-campus freshmen, that allow for flexibility in retail options including the convenience store;
4) Flexible meal plans for commuter students;
5) Flexible hours that meet the needs of all demographics of students; and,

Setup planning for the transition shall begin July 1st with a soft rollout two weeks before school starts, approximately August 8, 2022. WHEREAS, NU requires reliable communications systems to support its daily activities; and

WHEREAS, Douglas County operates in support of its emergency response operations a
700/800 MHz land mobile radio system licensed in the Public Safety Radio Service within the
borders of Douglas County; and

enables separate public agencies of the State to cooperate with one another on the basis of mutual
advantage and thereby provide services in a manner and pursuant to forms of governmental
organization that will accord best with geographic, economic, population and other factors; and

WHEREAS, pursuant to the Interlocal Cooperation Act, Neb. Rev. Stat. §§ 13-801, et seq. the
Parties wish to enter into a contract to allow NU to access certain Douglas County equipment in

2
WHEREAS, each Party has authorized the execution of this Agreement.

NOW, THEREFORE, in consideration of the foregoing and the mutual promises herein contained, and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, NU and Douglas County agree as follows:

1. **Definitions.** For purposes of this Agreement, the following terms are defined:

   (a) "Channel(s)" shall mean any available frequency which is determined by the FCC now or that could be licensed in the future – for example, 700 MHz, 800 MHz, 900 MHz, etc.

   (b) "Douglas County Licensed Frequencies" shall mean the communication frequencies in effect and duly licensed to Douglas County by the Federal Communications Commission ("FCC").

   (c) "Douglas County Sites" shall mean the communication sites and equipment owned and operated by Douglas County.

   (d) "Douglas County System" shall mean the entire 700/800 MHz land mobile radio system owned and operated by Douglas County in support of its emergency response operations, including but not limited to the Master Site Equipment and Douglas County Sites.

   (e) "Force Majeure" shall have the meaning set forth in section 15 hereof.

   (f) "Master Site Equipment" shall mean the Douglas County equipment identified in the ORION Agreement. Master Site Equipment means equipment identified in the ORION Agreement and physically located at the Master Site, but excludes any equipment that may be co-located at or with the Master Site Equipment but benefits less than all the ORION Parties, for example, including but not limited to siren equipment. In the event of a question or discrepancy regarding the inclusion of equipment in the Master Site Equipment, Douglas County shall be the final authority as to what equipment is included. Without limiting the foregoing, Douglas County may update, modify and/or alter at any time and for any reason the equipment included in Master Site Equipment.

   (g) “Master Site” shall mean the physical location of the Master Site Equipment which is currently located at 3603 North 156th Street Omaha Nebraska 68116.

   (h) "Radio User License" shall mean the licenses required by Motorola for each 1000 users.

   (i) "Security Update Services Agreement" shall mean an agreement entered into by Douglas County with Motorola or other vendor, if another vendor is contracted with to provide these services in the future for the security services.
(j) "Subscriber Units" shall mean each mobile, portable, handset control station and radio consoles that have a specific radio identification number. A single radio console will be treated as one Subscriber Unit for purposes of determining costs. All subscriber units utilizing the Douglas County infrastructure under this Agreement will be counted as Douglas County subscribers of the Douglas County System for purposes of determining costs.

(k) "System Upgrade Agreement or SUA" shall mean an agreement entered into by Douglas County with Motorola or other vendor, if another vendor is contracted with to provide these services in the future, for any required software upgrades.

2. Frequencies and Compliance.

2.1 The Douglas County Licensed Frequencies are in good standing with the FCC.

2.2 Each Party shall remain the licensee of its respective FCC frequencies and the owner of its respective communications system, sites, facilities, equipment and Subscriber Units during the term of this Agreement. Notwithstanding any other provision in this Agreement, each Party shall retain and exercise full control and ownership over its respective FCC frequencies, system, sites, facilities, equipment and Subscriber Units.

2.3 The Parties shall comply with all applicable statutes, ordinances, regulations, administrative or judicial orders, and other legal requirements, including but not limited to regulations and orders of the FCC, and shall cooperate reasonably with each other to maintain such compliance under this Agreement.

3. Master Site Equipment and Infrastructure.

3.1 Douglas County will continue to operate and maintain the Douglas County System. The operation will be as specified by Douglas County and in the ORION Agreement.

3.2 Each Party shall be responsible for the purchase, replacement and repair of the Subscriber Units required for its own communications operations.

4. Shared Use of Douglas County System.

4.1 The Parties shall share the use of the Douglas County System in accordance with and subject to the terms and conditions of this Agreement.

4.2 NU may install and operate its respective Subscriber Units and other communications equipment so that such equipment has access to and use of the Douglas County System subject to this Agreement.
4.3 The Parties shall share responsibility for costs related to the operation of the Douglas County System in accordance with and subject to the terms and conditions of this Agreement.

4.4 NU shall comply with the ORION Operating Guidelines.

4.5 Each Party shall be responsible for its own additional radio user license costs incurred during the Term of this Agreement.

5. Use of Shared Systems.

5.1 NU’s ability to access and use the Douglas County System may be revoked for any reason at any time at the sole discretion of Douglas County and upon written notice to NU. Written notice may be provided via email and failure to give notice will not impose any liability upon Douglas County. Without limiting the foregoing, Douglas County may limit, condition, or suspend NU’s use without notice, in whole or in part, of Douglas County System in the event that such use, in the sole judgment of Douglas County:

(a) impairs the system use of any public safety agency or authorized user on the Douglas County System;

(b) is equal to or greater than 10% (ten percent) of the Douglas County System’s full capacity and NU’s usage impairs the system use of any public safety agency or authorized user on the Douglas County System. Douglas County shall notify NU immediately upon discovery that NU’s usage is equal to or greater than 10%;

(c) results in a violation of a FCC rule or requirement or other applicable rule, regulation or law;

(d) if the busy threshold per call exceeds 20 seconds or more than one day per month. The Parties will work in good faith to provide resolutions to reduce the busy threshold per call to 20 or fewer seconds; or

(e) NU’s use exceeds the scope of this Agreement or any applicable rule, regulation, law, policy or agreement, including but not limited to a Mutual Aid Agreement.

5.2 The Parties understand and agree that, Douglas County, in its sole discretion, taking into consideration reasons of efficiency, interoperability or otherwise, may allow other entities use of or access to the Douglas County System. NU shall cooperate to take any appropriate steps to effect the addition of such other entities under a non-disruptive framework.

6. Technical Support and Maintenance.
6.1 NU agrees that Douglas County will be solely responsible for determining the maintenance provided for the Douglas County System and that NU will share the costs of that maintenance using the below listed formulas. The following definitions apply:

6.1.a \( D \) = Number of Douglas County radio subscribers.
6.1.b \( M \) = Number of NU radio subscribers.
6.1.c \( T \) = Total of radios for Douglas County and NU.
6.1.d \( S \) = Total number of radio subscribers on the Douglas County System supported by the Master Site.

6.2 NU’s share of maintenance and System Upgrade Agreement or SUA costs and Security Update Services Agreement for Douglas County only infrastructure shall be based on a percentage derived from \( M \) divided by \( T \) times the cost of service. \(((M/T) \times \text{cost of service})\).

6.3 NU also agrees to share in Douglas County’s costs for the maintenance for the Master Site Equipment, including but not limited to the SUA and Security Update Services Agreement. These maintenance costs for the Master Site Equipment are determined by the total number of NU subscribers \( M \) divided by \( S \). The cost of the service will then be multiplied by the resulting percentage. \(((M/S) \times \text{cost of service})\).

6.4 System Administration Services Fees. NU’s share of System Administration Services Fees shall be determined by the total number of NU subscribers \( M \) divided by \( S \). The cost of the service will then be multiplied by the resulting percentage. \(((M/S) \times \text{cost of service})\).

6.5 Annual Maintenance Fees. NU will be responsible for maintaining the subscriber equipment and other equipment purchased by NU and is free to negotiate that service. NU will also be responsible for maintaining its Subscriber Units. Other maintenance will be provided as specified in this Agreement.

7. Upgrade Costs.

7.1 In the event that Douglas County determines that the Douglas County System must be upgraded, Douglas County will use reasonable efforts to notify NU twelve (12) months in advance or within a reasonable time if twelve (12) months’ notice is not possible. NU will receive a copy of projected costs for the upgrade. The portion of costs that NU will be responsible for will be determined by using the formula specified in paragraph 6.3 of this Agreement.

7.2 The Parties shall use reasonable measures to plan for and budget all upgrades on or before May 30 of the year preceding the year in which the upgrades are to be completed.

8. Administration.

8.1 NU shall designate one technical representative who is familiar with NU’s technical communication operations and Douglas County shall also designate a technical
representative (each, a "Technical Representative"). NU’s Technical Representative shall become the point of contact for Douglas County Communications and its Technical Representative, to resolve any radio issues. Either Party may change a Technical Representative at any time by written notice to the other Party’s Technical Representative, which includes e-mail notices.

8.2 With respect to operation of the Douglas County System and users other than NU, Douglas County shall be NU’s representative.

8.3 Douglas County will be responsible for addressing any issues to ORION.

8.4 NU will adhere to the ORION Operating Guidelines with respect to use of the Douglas County System. Douglas County will provide these guidelines to NU. Douglas County will also provide to NU within a reasonable time the ORION Operating Guidelines if / when these are revised.

8.5 Douglas County shall adjust the cost, on an annual basis, to reflect any change in the subscriber percentage or changes in other variables as defined herein.

8.6 On or before the fifth (5th) day of each January, Douglas County shall submit a dated invoice to NU for payment setting forth: (a) a charge for fees as established pursuant to Section 6 of this Agreement; (b) any charges for upgrade costs established pursuant to Section 7 of this Agreement; and (c) any other charges owed by NU to Douglas County pursuant to the terms of this Agreement. NU shall pay all portions of such invoices within thirty (30) days of the date thereof. If NU wishes to dispute a portion of the invoice, payment may not be withheld. However, NU may promptly notify Douglas County in writing of any disputed amounts.

8.7 Any disputes regarding the invoices that are not resolved shall be subject to the dispute resolution process as set forth herein.

8.8 In the event that a dispute arises under this Agreement, the Party raising such claim shall submit written notice to the other Party, whereupon representatives of each Party promptly shall meet in an effort to resolve the dispute. If, after thirty (30) days from that written notice, no resolution can be reached, then the dispute shall be submitted by the Parties to nonbinding mediation using a neutral mediator selected by the Parties, with the mediator costs to be shared equally by the Parties. The mediation shall be scheduled no later than thirty (30) days after notice (the "Mediation Notice") that the dispute has not been resolved by the Parties. If, within ten (10) days of the Mediation Notice, the Parties cannot agree on the selection of a neutral mediator, or if mediation is not successful within thirty (30) days of the first scheduled date of the mediation, then either Party may initiate an action to adjudicate the dispute.

8.9 Any decision that will require payment that is not covered in this Agreement shall require written approval from each Party prior to committing any funds. Thereafter, the invoices shall be presented to the respective Parties for payment.
9. **Term and Termination.**

9.1 Unless sooner terminated in accordance with this Agreement, the Initial Term of this Agreement shall be five (5) years, commencing on the Effective Date and terminating at midnight on the last day of the month in which the 5\textsuperscript{th} anniversary of the Effective Date shall have occurred ("Initial Term"). This Agreement may be renewed by the Parties in writing after the Initial Term, for a term of five (5) years ("Renewal Term").

9.2 If the Defaulting Party, after receiving written notice from the other Party of the alleged breach fails to cure as provided in Section 21, then the Non-Defaulting Party may terminate this Agreement by giving written notice setting forth the effective date of termination, which shall not be less than one hundred eighty (180) days and within two hundred seventy (270) days after the date such termination notice is delivered to the alleged defaulting Party. However, if NU’s default is a failure to make any payment, Douglas County may terminate this Agreement by giving thirty (30) days’ written notice.

9.3 Either NU or Douglas County may terminate this Agreement upon thirty (30) days written notice in the event of a change in law or FCC action (hereinafter a "Change in Law") that eliminates or precludes either Party from performing its obligations under this Agreement.

9.3.1 In the event of termination of the Agreement due to a Change in Law, the Parties agree to cooperate so as to minimize the impact of termination on their operations. Such termination shall take effect and be completed within two hundred seventy (270) days of notice or sooner if required by law.

9.4 A “Terminating Party” may terminate this Agreement at any time for any reason by providing the “Non-terminating Party” with not less than one hundred eighty (180) days’ written notice.

9.5 In the event of a termination, NU shall remain liable for its respective share of all costs as provided under this Agreement, until the effective date of the Termination. In addition and in the event that NU has pre-paid any portion of a year, except in the event of NU’s termination due to a material breach of this Agreement by Douglas County, Douglas County will not pro-rate and refund a portion of a year in the event of a termination.

10. **Insurance.**

10.1 NU shall maintain comprehensive General Liability insurance or self-insurance with limits of not less than One Million Dollars ($1,000,000.00) per occurrence and Three Million Dollars ($3,000,000.00) in the annual aggregate.

10.2 In addition, NU also carries and will maintain excess general liability insurance with a limit of $30,000,000 per occurrence and $30,000,000 annual aggregate
10.3 NU agrees to provide and maintain throughout the term of this Agreement, and at its own expense, adequate statutory Nebraska workers’ compensation insurance through participation in the State of Nebraska’s Self-Insured Workers’ Compensation Plan.

10.4 NU shall provide a copy of the University of Nebraska Self-Insurance Trust Fund Statement evidencing such coverage upon demand of Douglas County. All insurance documents and insurance notifications shall be sent to:

Douglas County Purchasing Agent
902 Civic Center, 1819 Farnam St.
Omaha NE 68183.

Douglas County does not represent in any way that the insurance specified herein, whether in scope of coverage or limits, is adequate or sufficient to protect NU or its interests. NU is solely responsible to determine its need for and to procure additional coverage which may be needed in connection with this Agreement. The procuring of insurance as required by this Agreement shall not be construed to limit NU’s liability hereunder or to fulfill the indemnification provisions of this Agreement.

11. Representation and Warranties of NU.

11.1 NU warrants to Douglas County that the statements contained in this Section 11.1 are true, correct and complete as of the Effective Date of this Agreement:

(a) Organization of NU. NU is a public institution of higher education duly organized, validly existing, and in good standing under the laws of the State of Nebraska.

(b) Authorization of Transaction. NU has full power and authority (including full corporate power and authority) to execute and deliver this Agreement and to perform its obligations under this Agreement.

(c) Noncontravention. To the best of NU’s knowledge and belief, neither the execution and the delivery of this Agreement nor the completion of the obligations or actions of NU under this Agreement will:

(1) violate any constitution, statute, regulation, rule, injunction, judgment, order, decree, ruling, charge or other restriction of any federal, state, or local governmental body with jurisdiction over NU or any court to which NU is subject or any provision of NU’s petition for creation or applicable regulations; or

(2) conflict with, result in a breach of, constitute a default under, result in the acceleration of, create in any entity or individual the right to accelerate, terminate, modify, or cancel, or require any notice under any agreement, contract, lease, license, instrument, or other arrangement to which NU is a party or by which it or its property are bound.
(d) **Notice of Agreement by NU.** To the best of NU's knowledge and belief, NU does not need to give any notice to, make any filing with, or obtain any authorization, consent, or approval of any governmental body in order for the Parties to consummate the transactions contemplated by this Agreement or for the Parties to fulfill their respective obligations hereunder. If any such notice, filing, authorization, or consent is required, NU will obtain it.

(e) **Legal Compliance.** To the best of NU's knowledge and belief, NU has complied with all applicable laws relating to the operation of the NU Subscriber’s Units and no action, suit, proceeding, hearing, investigation, charge, complaint, claim, demand, or notice has been filed or commenced against NU alleging any failure to so comply.

12. **Representations and Warranties of Douglas County.**

12.1 Douglas County warrants to NU that the statements contained in this Section 12.1 are true, correct and complete as of the Effective Date of this Agreement:

(a) **Organization of Douglas County.** Douglas County is a political subdivision of the State of Nebraska, duly organized, validly existing and in good standing under the laws of the State of Nebraska.

(b) **Authorization of Transaction.** Douglas County has full power and authority (including full corporate power and authority) to execute and deliver this Agreement and to perform its obligations hereunder.

(c) **Noncontravention.** To the best of Douglas County's knowledge and belief, the execution and the delivery of this Agreement will not violate any constitution, statute, regulation, rule, injunction, judgment, order, decree, ruling, charge or other restriction of any federal, state, or local governmental body having jurisdiction over Douglas County or any court to which Douglas County is subject.

(d) **Notice of Agreement by Douglas County.** To the best of Douglas County's knowledge and belief, Douglas County does not need to give any notice to, make any filing with, or obtain any authorization, consent, or approval of any governmental body in order for the Parties to consummate the transactions contemplated by this Agreement or for the Parties to fulfill their respective obligations hereunder. If any such notice, filing, authorization, or consent is required, Douglas County will obtain it.

(e) **Legal Compliance.** To the best of Douglas County's knowledge and belief, Douglas County has complied with all applicable laws relating to the operation of the Douglas County System.

(f) Notwithstanding any provision to the contrary, Douglas County does not represent or warrant that NU’s use of the Douglas County System will be uninterrupted, error-free or free of security vulnerabilities, or that NU’s use of the services provided herein will meet NU’s business or operations needs or requirements.
(g) DISCLAIMER OF OTHER REPRESENTATIONS AND WARRANTIES. EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, DOUGLAS COUNTY MAKES NO REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, AT LAW OR IN EQUITY, INCLUDING BUT NOT LIMITED TO ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE OR ANY WARRANTY ARISING OUT OF CUSTOM OR USAGE OF TRADE, AND ALL SUCH WARRANTIES ARE HEREBY EXPRESSLY DISCLAIMED. DOUGLAS COUNTY MAKES NO WARRANTY AS TO ANY GOODS FURNISHED OR LICENSED OR SERVICES PERFORMED HEREUNDER.

13. Indemnification.

13.1 Subject to the provisions in Section 14 (Limitation of Liability) each Party shall assume all risk of loss, indemnify the other against loss, and hold the other, its employees, agents, assignees, and legal representatives harmless from all liabilities, demands, claims, suits, losses, causes of action, fines, settlements or judgments and all reasonable expenses incident thereto, including but not limited to legal fees, for injuries to persons and for loss of, damage to, or destruction of property, arising out of or in connection with this Agreement and proximately caused by the indemnifying Party’s negligent acts or omissions or those of its officers, employees or agents, and assigns, for any losses caused by failure of the indemnifying Party to comply with terms and conditions of the Agreement, provided that the indemnified Party gives the indemnifying Party prompt, written notice of any such claim, suit, demand or cause of action. The Indemnified Party shall cooperate in the defense or settlement negotiation of such claim, suit, demand or cause of action. The provisions of this section shall survive expiration or termination of this Agreement. These indemnification provisions are not intended to waive a Party's sovereign immunity.

14. Limitation of Liability.

14.1 Notwithstanding any provision of this Agreement to the contrary and although the Parties acknowledge the possibility of such losses or damages, Douglas County shall not have any liability and shall not be liable to NU for:

(a) the failure or loss of use of the Douglas County System;

(b) the failure or loss of use of any other system that interacts with the Douglas County System;

(c) Transmission interruption, degradation of service, failure of connectivity, security vulnerabilities or security events (including but not limited to hacking of the Douglas County System);

(d) Disruption of or damage to NU’s or third parties’ systems, equipment, hardware, software, data, including but not limited to denial of access to users; and/or
(e) Availability or accuracy of any data available or interpretation, use or misuse thereof.

14.2 Notwithstanding any provision of this Agreement to the contrary and although the Parties acknowledge the possibility of such losses or damages, neither Party shall be liable to the other for any special, incidental, indirect, punitive or consequential damages, whether foreseeable or not, including, but not limited to, loss of profits or revenue.

14.3 Notwithstanding any provision of this Agreement to the contrary, a Party's liability is governed by and limited to the extent provided by the Nebraska Political Subdivision Tort Claims Act, the Nebraska State Tort Claims Act or other applicable provisions of law.

14.4 Nothing contained herein shall operate as a limitation on the right of either Party hereto to bring an action for damages against any third party, including but not limited to claims for special, incidental, indirect, punitive or consequential damages, based on any acts or omissions of such third party.

14.5 These limitations of liability shall survive the expiration or termination of this Agreement.

15. **Force Majeure.**

Except as may be otherwise specifically provided in this Agreement, neither Party shall be in default under this Agreement if and to the extent that any failure or delay in such Party's performance of one or more of its obligations hereunder is caused by any of the following conditions, and such Party's performance of such obligation or obligations shall be excused and extended for and during the period of any such delay: act of God; fire; flood; pandemic; fiber, cable, conduit or other material failures, shortages or unavailability or other delay in delivery not resulting from the responsible Party's failure to timely place orders therefore; lack of or delay in transportation; changes to any of the following: government codes, ordinances, laws, rules, regulations or restrictions, as to which either Party's compliance is necessary to carry out the terms and conditions of this Agreement; war or civil disorder; pandemic; or any other cause beyond the reasonable control of such Party. The Party claiming relief under this Section 15 shall promptly notify the other in writing of the existence of the event relied on and then the cessation or termination of said event.

16. **Assignment.**

16.1 This Agreement is exclusive to the Parties and neither Party shall assign, encumber or otherwise transfer (“Assignment”) this Agreement without the prior written consent of the other Party, which consent shall not be unreasonably withheld, conditioned, or delayed. Any attempted Assignment without such consent shall be void and shall constitute a material breach of contract. Any assignee or transferee shall continue to be subject to all of the provisions of this Agreement, unless otherwise agreed to in writing by the non-assigning Party.
16.2 Any and all additional fees, charges, costs or expenses which result from any permitted Assignment of this Agreement by a Party, shall be paid by such Party.

16.3 This Agreement and each of the Parties’ respective rights and obligations under this Agreement shall be binding upon and shall inure to the benefit of the Parties hereto and each of their respective successors and permitted assigns.

17. **Confidentiality.**

17.1 NU and Douglas County hereby agree that if either Party provides confidential or proprietary information ("Proprietary Information") to the other Party, such Proprietary Information shall be held in confidence, and the receiving Party shall afford such Proprietary Information the same care and protection as it affords generally to its own confidential and proprietary information (which in any case shall be not less than reasonable care) in order to avoid disclosure to or unauthorized use by any third party.

17.1.1 Intentionally omitted.

17.1.2 The Parties acknowledge and agree that information disclosed by either Party to the other in connection with or pursuant to this Agreement shall be deemed to be Proprietary Information, provided that written information is clearly marked in a conspicuous place as being confidential or proprietary.

17.1.3 All Proprietary Information, unless otherwise specified in writing, shall remain the property of the disclosing Party, shall be used by the receiving Party only for the intended purpose, and such written Proprietary Information, including all copies thereof, shall be returned to the disclosing Party or destroyed after the receiving Party's need for it has expired or upon the request of the disclosing Party. Proprietary Information shall not be reproduced except to the extent necessary to accomplish the purpose and intent of this Agreement, or as otherwise may be permitted in writing by the disclosing Party.

17.2 The foregoing provisions of section 17.1 shall not apply to any Proprietary Information which (i) becomes publicly available other than through the receiving Party; (ii) is required to be disclosed by a governmental or judicial law, order, rule or regulation, including federal and state public records laws; (iii) is independently developed by the receiving Party; (iv) is publicly disclosed by the disclosing Party; (v) the disclosing Party authorizes in writing public disclosure; (vi) is already known to the receiving Party without restriction when it is disclosed; or (vii) becomes available to the receiving Party without restriction from a third party. The receiving Party may disclose Proprietary Information to establish rights or obligations under this Agreement, provided that, to the extent permitted by law, the receiving Party gives the disclosing Party reasonable prior written notice sufficient to permit the disclosing Party an opportunity to contest such disclosure. The receiving Party will reasonably cooperate with disclosing Party to prevent the disclosure or obtain continued protection of the Proprietary Information once disclosed to the requesting jurisdiction. The disclosing Party shall bear all costs, expenses,
damages or liabilities in any way related to the refusal to disclose or attempt to prevent disclosure. The Parties acknowledge and agree that this Agreement and related invoices are a public record and are not Proprietary Information.

17.3 Notwithstanding Subsections 17.1 and 17.2 of this Section 17, either Party may disclose Proprietary Information to its employees, agents, and legal and financial advisors and providers to the extent necessary or appropriate in connection with the negotiation and/or performance of this Agreement, provided that each such Party is notified of the confidential and proprietary nature of such Proprietary Information and is subject to or agrees to be bound by similar restrictions on its use and disclosure.

17.4 Neither Party shall issue any public announcement or press release relating to the execution of this Agreement without the prior approval of the other Party, which approval shall not be unreasonably withheld or conditioned or delayed; provided, however, that any Party may make any announcement or press release upon as much notice to the other Party as is reasonably practicable if the same is required by law or by the rules or regulations of a Governmental Authority.

17.5 Notwithstanding the foregoing, the receiving Party may retain copies of Proprietary Information in accordance with its routine backup procedures and these confidentiality obligations shall apply to such Proprietary Information so long as it is retained by the receiving Party.

17.6 The provisions of this Section 17 shall survive expiration or termination of this Agreement.

Except for any notice required under applicable law to be given in another manner, any notice, request, instruction, demand, consent, or other communication required or permitted to be given under this Agreement shall be in writing and shall be either (i) delivered personally, (ii) sent by facsimile transmission with subsequently transmitted confirmation of receipt, (iii) sent by overnight commercial air courier (such as Federal Express), or (iv) mailed, postage prepaid, certified or registered United States mail, return receipt requested, to the Parties at the addresses or facsimile numbers hereinafter set forth:

To Douglas County: Douglas County Emergency Communications Director Attn: Director 15335 West Maple Road, Ste. 101 Omaha, NE 68116 402-444-5800 Facsimile: 402-452-2697

with a copy to: Douglas County Clerk
Notice shall be in writing and shall be effective upon receipt. A Party’s contact person or his/her contact information may be changed at any time by providing written notice of the updated information to the other Party.

In addition to the foregoing, each Party shall maintain a contact person throughout the Initial Term and any Renewal Term of this Agreement, and shall provide the other Party with the name, address, email address and telephone number of such contact person(s) for the purpose of expediting direct communications required or permitted under this Agreement.

19. **Entire Agreement; Amendment.**

19.1 This Agreement constitutes the entire and final agreement and understanding between the Parties with respect to the subject matter hereof and supersedes all prior agreements relating to the subject matter hereof, which are of no further force or effect. No representations were made or relied upon by either Party other than those that are expressly set forth herein.

19.2 This Agreement may only be modified or supplemented by an instrument in writing executed by a duly authorized representative of each Party. Each such amendment shall state the date upon which it takes effect, except as provided herein.

20. **Relationship of the Parties.**

It is agreed that nothing contained herein is intended or should be construed in any manner as creating or establishing a partnership or joint venture between the Parties. Any and all acts that either Party or its personnel, employees, agents or contractors perform pursuant to the terms of this Agreement shall be undertaken as independent contractors and not as employees of the other. The Parties shall, except as provided herein, act in their individual capacities and not as agents, employees, partners, joint ventures or associates of the other. An employee or agent of one shall not be deemed or construed to be the employee or agent of the other for any purpose whatsoever. Neither Party, nor its personnel, employees, agents, or contractors shall be entitled to any benefits of the other. The Parties shall not provide any insurance coverage to the other or their employees including, but not limited to, workers’ compensation insurance. Each Party shall
pay all wages, salaries and other amounts due its employees and shall be responsible for all reports, obligations, and payments pertaining to social security taxation, income tax withholding, workers’ compensation, unemployment compensation, group insurance coverage, collective bargaining agreements or any other such similar matters. Any and all claims that may or might arise under the Workers’ Compensation Act of the State of Nebraska on behalf of said personnel or other persons while so engaged, and any and all claims whatsoever on behalf of any such person or personnel arising out of employment or alleged employment, including without limitation claims of discrimination against a Party its officers, employees, agents, or contractors shall in no way be the responsibility of the other Party. Neither Party shall have any authority to bind the other by or with any contract or agreement, nor to impose any liability upon the other, except as provided herein. All acts and contracts of each shall be in its own name and not in the name of the other, unless otherwise provided herein.

21.1  NU Default. The occurrence of one or more of the following is an event of default by NU:

21.1.1 NU fails to perform or comply with any obligation, requirement or representation of this Agreement and the failure continues for thirty (30) days after written notice thereof is received or, if the failure cannot be cured within thirty (30) days even with the exercise of all reasonable and diligent effort, NU fails to commence all reasonable curative action within ten (10) days after written notice thereof is received by NU and NU fails to diligently and continuously prosecute curative action to completion.

21.1.2 NU fails to make payments as provided herein. Notwithstanding Section 15, NU’s obligation to make payments will not be excused or extended by a Force Majeure event.

21.2 Remedies. If any event of a NU default occurs and is not cured as provided herein, Douglas County may, without further notice or limitation, immediately or at any time thereafter, take the following action(s):

(a) demand NU’s obligation (if any) for outstanding fees or other financial obligations up to the time of termination and retain all payments made by NU up to the time of default.

(b) suspend NU’s use of the Douglas County System, if NU fails to make payments as provided herein. Such a suspension will not relieve NU of its financial obligations under this Agreement.

(c) take any other action authorized by law or equity, or otherwise provided in this Agreement.

(d) terminate this Agreement as provided herein.
(e) No remedy herein conferred upon or reserved to Douglas County is intended to be exclusive and every remedy shall be cumulative and shall be in addition to every other remedy given under this Agreement or now or hereafter existing at law or in equity. No delay or omission to exercise any right or power accruing upon any event of default shall impair any right or power or shall be construed to be a waiver thereof, but any right or power may be exercised from time to time and as often as may be deemed expedient. All remedies herein conferred upon or reserved to Douglas County shall survive the termination of this Agreement.

21.3 Douglas County Default. The occurrence of one or more of the following is an event of default by Douglas County: Douglas County fails to perform or comply with any material obligation, requirement or representation of this Agreement and the failure continues for thirty (30) days after written notice thereof is received or, if the failure cannot be cured within thirty (30) days even with the exercise of all reasonable and diligent effort, Douglas County fails to commence all reasonable curative action within ten (10) days after written notice thereof is received by Douglas County and Douglas County fails to diligently and continuously prosecute curative action to completion.

21.4 Remedies. If any event of a Douglas County default occurs and is not cured as provided herein, NU may immediately or within a reasonable time thereafter, terminate this Agreement as provided herein and/or take any other action provided in this Agreement, at law or in equity. No delay or omission to exercise any right or power accruing upon any event of default shall impair any right or power or shall be construed to be a waiver thereof, but any right or power may be exercised from time to time and as often as may be deemed expedient. All remedies herein conferred upon or reserved to NU shall survive the termination of this Agreement.

22. Waiver of Terms and Conditions.

The failure of either Party to insist on strict performance of any covenants or conditions, or to exercise any option herein conferred on any one or more instances, shall not be construed as a waiver or relinquishment of any such covenant, condition, right, or option, but the same shall remain in full force and effect. For a waiver of a right or power to be effective, it must be in writing signed by an authorized representative of the waiving Party. An effective waiver of a right or power shall not be construed as either a future or continuing waiver of that same right or power, or the waiver of any other right or power. In addition, any act by a Party which it is not obligated to do hereunder shall not be deemed to impose any obligation upon that Party to do any similar act in the future or in any way change or alter any of the provisions of this Agreement.

23. Taxes and Fees.

Except as otherwise specifically provided herein, Douglas County and NU shall each pay any and all taxes, duties or similar assessments and franchise and other fees applicable to its respective interests under this Agreement, including, but not limited to, any sales, use or other excise tax.
24. **Compliance With the Law.**

Douglas County and NU shall at all times during the Initial Term and any Renewal Term comply with applicable federal, state and local laws and regulations, and shall secure certification from appropriate governmental authorities as required.

In accordance with the Nebraska Fair Employment Practice Act, Neb. Rev. Stat. §48-1122, the Parties agree that they shall not discriminate against any employee, or applicant for employment to be employed in the performance of this Agreement, with respect to hire, tenure, terms, conditions, or privileges of employment because of the age, race, color, religion, sex, disability, national origin or similarly protected status of the employee or applicant. In addition and with respect to all subcontractors, the Parties shall require compliance with §48-1122. In the performance of this Agreement, each Party and all of its respective subcontractors shall not discriminate or permit discrimination in violation of any applicable federal or state laws or local ordinances.

25. **No Third Party Beneficiaries, Existing Rights of Others.**

This Agreement is not intended to, nor shall it provide third parties (including, without limitation, any customers, contractors, students or employees of NU or any citizens within Douglas County and excluding any assignment pursuant to Section 16 (Assignment)) with any remedy, claim, liability, reimbursement, cause of action or other right or privilege; except that the provisions of Section 13 (Indemnification) and Section 14 (Limitation of Liability) of this Agreement shall also inure to the benefit of a Party's employees, officers, agents, and any other benefited persons or entities specifically identified in the applicable section.

26. **Severability.**

In the event that any provision of this Agreement shall be held unconscionable, invalid, unenforceable or void for any reason by any tribunal or court of competent jurisdiction, it is agreed that the Parties shall negotiate in good faith to modify the provision in question, if possible, to eliminate any unconscionable, invalid, unenforceable or void terms and as modified shall be binding on the Parties hereto. The remaining provisions of this Agreement shall not be affected by the action of any tribunal or court and shall remain in full force and effect. If any provision cannot be modified as provided herein, that provision will be severed and the remainder of this Agreement will remain in full force and effect.

27. **Joint Work Product.**

This Agreement is the joint work product of both NU and Douglas County; accordingly, in the event of any ambiguity, no presumption shall be imposed against or in favor of either Party by reason of document preparation.
28. **Governing Law.**

The validity, interpretation and enforcement of this Agreement shall be governed by, and construed in accordance with, the laws of the State of Nebraska without giving effect to any choice or conflict of law provision that would cause the application of laws of any jurisdiction other than those of the State of Nebraska. In addition, all claims relating to or arising out of this Agreement, or the breach thereof, whether based in contract, tort or otherwise, shall likewise be governed by the laws of the State of Nebraska without giving effect to any choice or conflict of law provision as previously provided herein. Any dispute which has not been amicably resolved between the Parties shall be resolved according to the dispute resolution process identified in Section 8.8.

29. **Employment Verification.**

Pursuant to and in order to be in compliance with Neb. Rev. Stat. §4-114, each Party hereby agrees to use a federal immigration verification system to determine the work eligibility status of new employees physically performing services within the State of Nebraska. A federal immigration verification system means the electronic verification of the work authorization program authorized by the Illegal Immigration Reform and Immigrant Responsibility Act of 1996, 8 U.S.C. 1324a, known as the E-Verify Program, or an equivalent federal program designated by the United States Department of Homeland Security or other federal agency authorized to verify the work eligibility status of a newly hired employee.

30. **Public Benefits.**

31. **Drug Free Workplace Policy.**

Each Party assures the other that it has established and maintains a drug free workplace policy.

This Agreement does not create a separate legal entity under the Interlocal Cooperation Act. For purposes of that Act and in furtherance of this cooperative undertaking, this Agreement shall be administered jointly by the Parties, in the event of a conflict, the Parties will resolve the conflict as provided herein. This Agreement does not contemplate acquiring, holding or disposing of joint property nor does it contemplate the levying or collecting of any tax.

33. **Counterparts.**
This Agreement may be executed in one or more counterparts, each of which when so executed will be deemed to be an original and all of which taken together shall constitute one and the same Agreement. Signatures affixed by electronic means will have the same validity as manual signatures.

34. **Authorized Representatives.**

The Parties each represent and warrant that the signatory to this Agreement had authority to execute the Agreement and bind that Party.

*[Signatures on the following page]*
IN WITNESS WHEREOF, the Parties hereto have caused this Agreement to be executed by their respective representatives, each thereunto duly authorized, on the Effective Date.

SUBJECT: Program name change: Master of Science in Education in Community Counseling to Master of Science in Education in Clinical Mental Health Counseling

The purpose of this letter is to request the renaming of the Master of Science in Education in the Community Counseling program, in the department of Counseling, School Psychology and Family Science and the College of Education, to Master of Science in Education in Clinical Mental Health Counseling. The rationale for this change is that the Council for the Accreditation of Counseling and Related Educational Programs (CACREP) no longer accredits Community Counseling programs. All course work, learning outcomes and employment expectations remained the same. There was also an additional expectation of twelve clinical course work hours using existing curricula. I am supportive of this change, as are the department chair and dean.

This proposal has been reviewed and approved by the UNK Academic Affairs Committee.

SUBJECT: Program name change: Bachelor of Arts in Education, Early Childhood Unified to Bachelor of Arts in Education, Early Childhood Inclusive

The purpose of this letter is to request the renaming of the Bachelor of Arts in Education, Early Childhood Unified program, in the department of Teacher Education and the College of Education, to Bachelor of Arts in Education, Early Childhood Inclusive. The rationale for this change is to reflect the Nebraska Department of Education’s (NDE) name change in the Rule 24 revision of this endorsement. Rule 24 revisions were made to respond to school districts needs. The 2014 Rule 24 changes increased the required number of credit hours, including those specific to early childhood education and early childhood special education content, as well as an increase in the number of field experiences in infants/toddlers, preschool, and K-3 settings. The curriculum was adjusted to accommodate these changes. I am supportive of this change, as are the department chair and dean.

SUBJECT: Program name change: Master of Arts in Education, K-6 School Principalship to Master of Arts in Education, School Principalship PreK-8

The purpose of this letter is to request the renaming of the Master of Arts in Education, K-6 School Principalship program, in the department of Educational Administration and the College of Education, to Master of Arts in Education, School Principalship PreK-8. The rationale for this change is to align with the elementary principal endorsement in the Nebraska Department of Education's (NDE) Rule 24 update to PreK-8. No changes were made to the curriculum. I am supportive of this change, as are the department chair and dean.

This proposal has been reviewed and approved by the UNK Academic Affairs Committee.

The purpose of this letter is to request the renaming of the Bachelor of Science, Sports Administration/Sports Administration Comprehensive major, in the department of Kinesiology and Sport Sciences and the College of Education, to Bachelor of Science, Sports Management/Sports Management Comprehensive major. The rationale for this change is based on an NCAA Academic Progress Rate recommendation. The change also brought the program in line with other programs in the country. This change was made during the 2011-2012 academic year and appeared in the 2012-2013 catalog. No changes were made to the curriculum. RECOMMENDED ACTION: Report

PREVIOUS ACTION: August 11, 2017 – Approval was requested to establish the Bachelor of Science in Cyber Security Operations, which will draw from the collaborative efforts of the Department of Computer Science and Information Technology and the program in Information Networking and Telecommunications Management in the Colleges of Natural and Social Sciences and Business and Technology at the University of Nebraska at Kearney (UNK)

EXPLANATION: The proposed name, eliminating the term “Telecommunications,” is intended to avoid confusion among graduates and employers as the field has become increasingly unified. The proposed name change better reflects the curriculum, which is designed to meet the current and future needs of students and industry.

SUBJECT: Program name change: Bachelor of Science, Information Networking &

The purpose of this letter is to request the renaming of the Bachelor of Science, Information
Networking & Telecommunications Comprehensive, in the department of Cyber Systems and the
College of Business & Technology, to the Bachelor of Science, Information Technology &
Networking Comprehensive. The rationale for this change was because “telecommunications”
was confusing to graduates and the industry. Specifically, the degree was initially designed to
meet industry demand in the area of Information Technology (IT) and Networking systems
including systems administration, web development, systems integration, network security, and
data science. The name change allowed flexibility in the curriculum to meet the current and
future needs of students and employers. The curriculum was changed to add a first-year
information technology and networking professional practice course, to add a first-year Linux
environment lab-based course, and to add an intro-level information security course. Systems
admin is a highly sought-after skill by the industry. Therefore, intro level and high-level systems
admin I and systems admin II courses were added. Three tracks were added to allow students to
choose specialty areas of study: 1) Web development, 2) Systems, Network and Security; and 3)
Data Science. I am supportive of this change, as are the department chair and dean.

recognized nationally within the discipline and may include the creation of new knowledge or innovative application of existing knowledge.

D. Procedures for Appointment

1. Appointment as Graduate Faculty without Application

New faculty in departments/schools with graduate degrees. All new University of Nebraska faculty members who meet the required criteria and are to be appointed to specific term, health professions or continuous appointments in academic departments/schools that house a graduate degree granting program (masters, doctoral, or both) will automatically be appointed as Graduate Faculty. No application process will be required. All new faculty in this category will be appointed as Graduate Faculty in their letter of appointment at the time of hire, contingent upon the approval of the campus Dean for Graduate Studies.

2. Faculty Who Must Apply to be Designated Graduate Faculty

Faculty in departments/schools not granting graduate degrees. With the exception of new faculty appointed as Graduate Faculty without application under Section D1, all current University of Nebraska faculty members in academic departments/schools that currently do not house a graduate degree granting program (masters, doctoral, or both) must apply to be appointed as Graduate Faculty.

Individuals with Faculty Practice, Faculty Research, or Special Appointments [including senior lecturer, instructor (at UNMC) and adjunct faculty]). All University of Nebraska faculty members on Special Appointment, Faculty Practice Appointment, or Faculty Research Appointment in any academic department/school (whether it houses a graduate degree program or not) must apply to be appointed as Graduate Faculty.

3. Process for Applying to Become Graduate Faculty

Eligible faculty members will utilize the following process to apply for status as Graduate Faculty (see Appendix 12):

a. Submit an application form and vita to the chair of the Graduate Committee in the relevant department/school or interdepartmental program.

b. All Graduate Faculty in the relevant department/school will vote on the application. A two-thirds majority of these Graduate Faculty must support the nomination in order for it to be forwarded to the campus-level Dean for Graduate Studies. The chair of the Graduate Committee will write a letter interpreting the department/school vote (i.e., explaining the reasons for supporting the nomination), and then forward the file to the nominee’s department chair for endorsement and certification to the campus Dean for Graduate Studies.

c. For faculty in departments/schools without graduate programs, or for interdepartmental and/or intercampus programs; or in departments/schools with graduate programs with less than six Graduate Faculty, or for interdepartmental and/or intercampus programs a special ad hoc six-person review committee of Graduate Faculty will be appointed by the campus Dean for Graduate Studies. The chair of the ad hoc committee will write a letter to the campus graduate studies
dean(s) explaining the reasons for supporting the nomination. A two-thirds or greater majority of the committee must support the nomination. In the case of interdepartmental and/or intercampus graduate programs, the director of the program will recommend members to the campus Dean(s) for Graduate Studies.

d. The campus Dean for Graduate Studies will then review the nomination, and either approve or defer it. If approved, the nomination is forwarded to the Dean of the Graduate College.

e. The Dean of the Graduate College will then review the nomination and either approve or defer the nomination. If approved, the Dean formally appoints the faculty member to Graduate Faculty status.

4. Special Procedures

   If there is no graduate program in a particular discipline on a given campus, or the number of Graduate Faculty in a particular discipline is less than six, a person in that discipline on that campus may be nominated for Graduate Faculty status by any Graduate Faculty member in that discipline or a related discipline on that campus or another campus. Such nominations must be recommended by either two-thirds vote of the Graduate Faculty of the corresponding department/school on another campus, or by two-thirds vote of a special ad hoc committee of six Graduate Faculty that shall:

   a. include all the Graduate Faculty in the nominee’s department/school or interdepartmental area, with the remainder being Graduate Faculty from the same campus or similar departments/schools or interdepartmental areas from the same campus; and

   b. be appointed by the campus Dean for Graduate Studies from names submitted by the nominator.

   c. In all cases, nominations for Graduate Faculty shall be submitted from the groups indicated above to the campus Dean for Graduate Studies for approval. If the campus Dean approves a nomination, it shall be submitted to the Dean of the Graduate College for approval.

E. Procedure of Appeal

1. Any nominee, or nominator only with the written permission of the nominee, who believes that their nomination has not been properly acted upon by the departmental/school or interdepartmental and/or intercampus Graduate Committee, or the chairperson thereof, or departmental chairperson/school director, or college dean, may appeal to the campus Dean for Graduate Studies, who may wish to refer the appeal to the campus Graduate Council for advice. A nominee, or nominator only with the written permission of the nominee, who believes that their nomination has not been properly acted upon by a campus Dean for Graduate Studies may appeal to the Dean. The nominee, or nominator only with the written permission of the nominee, may at their discretion discuss the nomination under appeal with either the campus Dean for Graduate Studies or the Dean. In the event that such a meeting is scheduled, both the nominee and the nominator may attend.

2. The Executive Graduate Council shall serve an appellate function when a nominee, or
nominator only with the written permission of the nominee, believes that their nomination has been improperly deferred by the Dean. If the Executive Graduate Council upholds the deferment, that decision shall be final. If the Executive Graduate Council recommends that the Dean’s previous decision to defer be reversed, the nomination shall be returned to the Dean with a recommendation that it be approved. If the Dean does not approve it, the nomination and all accompanying documents shall be forwarded to the President for final disposition. Decisions on appeals forwarded by Council approval must be made within twenty (20) working days.

3. The nominee, or nominator only with the written permission of the nominee, must file an appeal of any deferral of their nomination within twenty (20) working days after notification of such deferral.

4. Only data which accompanied the original nomination may be considered at any level of an appeal.

5. Even though a particular nomination is under appeal, a new nomination containing additional information may be submitted to the campus Dean for Graduate Studies at any time without prejudicing the appeal. The appeal will then be held in abeyance during the period that the new nomination is being considered by the campus Dean.

F. Graduate and Supervisory Committees

1. Graduate Committees. Each department/school or interdepartmental/intercampus area offering major work leading to the master or doctoral degree shall have a Graduate Committee consisting of not less than three Graduate Faculty, one of whom shall serve as chairperson of the Committee.

   All Graduate Committees must have at least a two-thirds majority of Graduate Faculty on the Committee and its chairperson must be a member of the Graduate Faculty. I. GRADUATE DEGREES/CERTIFICATES

A. Recommendation on the Requirements for Degrees

The Executive Graduate Council reaffirms the exclusive right of faculty members to assign grades, to recommend admission of students to programs (retaining Board of Regents admission standards), to make recommendation on the requirements for degrees, to recommend the awarding of assistantships (the deans retain the authority to appoint graduate assistants), and to recommend candidates for degrees. The Executive Graduate Council does not recognize the administrative assignment of a grade, or the administrative awarding of an assistantship not recommended by appropriate faculty action (this does not apply only to graduate committees). The Executive Graduate Council reaffirms the right of all students to evaluations for grades, awards, and degree procedures written into the graduate catalogs, and does not recognize agreements between departments and students which circumvent the existing appeal procedures.

1. Subdoctoral Degree Credits. All graduate credits to be counted toward the satisfaction of subdoctoral degree requirements—including all transfer credits—must be approved and recommended by the cognizant Graduate Committee of the student’s major department or area. Not less than 50 percent of the course work required for any subdoctoral graduate degree must be completed at the University of Nebraska. No graduate credits will be accepted as transfer credits unless earned at an institution fully accredited to offer graduate work in the field of the student’s major; nor should the student expect any graduate credits to be transferred unless the Graduate Committee evaluated the quality and suitability equal to or superior to offerings available at the University of Nebraska.

2. Professional Post-Baccalaureate Degree (Credential). A post-baccalaureate degree which is the first or minimum degree offered by the University of Nebraska that qualifies a person to stand for licensure in one of the recognized professions, and which is pursued, for all intents and purposes, exclusively by persons intending to seek licensure in that profession, is regarded as a first professional degree. Any other post-baccalaureate degree is regarded as a graduate degree.

Further, degrees may be considered as professional degrees if:

- the program is designed around curriculum or standards prescribed by a professional accrediting body and the program has received or will seek accreditation,
- the program may lead to licensure, but is not restricted to first licensure for a profession,
- the program is designed for, and admits only, licensed professionals, and is intended to expand the scope of practice of the licensed profession, or
- the program is designed for a professional practitioner to enhance their career options within that profession.
Post-Baccalaureate degrees that meet the criteria above and receive such a designation by a campus, with affirmation by the Executive Vice President and Provost, are not administered by the University of Nebraska Graduate College and do not go through the Graduate College review process. Any other post-baccalaureate degree is to be considered a graduate degree and subject to the Bylaws and Policies of the University of Nebraska Graduate College and granted the benefits of affiliation with the Graduate College and respective graduate studies offices. If a proposed degree (with the exception of Expedited Certificates) is deemed a professional degree but does not have an accrediting body or has yet to be accredited, clear alignment with the curricular requirements of the body to which professional accreditation is being sought or evidence of a rigorous external review (similar to the EGC process for graduate degrees) will be required prior to submittal for Board of Regents approval.

3. Certificates. The certificate at the graduate level may be either sub-master or post-master and is intended to indicate a given level of proficiency in a given area where there is an established need, just as master and doctoral degrees do—not that a given number of credit hours have been earned.

4. Format for Graduate Degrees. The heading shall read “The University of Nebraska.” There shall be a subsidiary heading reading “Graduate College.” Following the subsidiary heading shall be a paragraph reading “This diploma makes known that the Board of Regents of the University of Nebraska upon the recommendation of the Graduate Faculty and by authority of the statutes of the State has by its officers specially authorized hereto conferred the degree.”

a. The above paragraph will be followed by the formal name of the degree and by the word “upon” and by the full name of the degree recipient. The degree recipient’s name will be followed by the statement “who is entitled to enjoy all the rights, honors, and privileges pertaining to that degree.”

b. A paragraph reading “in testimony whereof we have hereunto subscribed our names and caused the seal of the said Board to be affixed this__________day of 20__.”

c. The seal of the University will be in the lower left-hand corner, the word “attest” will appear after the seal and following this word will appear the signatures and printed titles of the corporation secretary of the Board, the chairman of the Board, and the President of the University.

d. Across the bottom of the diploma will be printed the names of the four campuses of the University in the following order: The University of Nebraska—Lincoln, The University of Nebraska Medical Center, The University of Nebraska at Omaha, The University of Nebraska at Kearney.

B. Expedited Review of Proposed New Graduate Certificate Programs

Under certain circumstances proposed new Certificate Programs would receive expedited review and approval. This would involve review by the Campus Graduate Council and the
Council of Academic Officers, with final approval by the Executive Vice President and Provost, and President.

For a program to be considered for expedited review and approval, it must meet the following requirements:

1. The proposed certificate must be a reasonable extension of an existing masters or doctoral program in that it uses existing courses in the present masters.

2. The proposed certificate would require at least 12-15 hours of work past the bachelor’s degree but no more than 20 hours. A core of required or elective courses must be in the department/program offering the certificate; however, there could be an opportunity for graduate students to take up to one third of the program in optional or elective courses in collateral departments of relevant disciplines, consistent with the requirements of the existing program.

3. The proposed certificate would be a repackaging of existing graduate courses, requiring no additional or reallocated resources to support the program. The proposal would have to demonstrate the availability of internal capacity to offer the certificate.

4. The proposal would need to show evidence of demand and that the proposal is being responsive to a demonstrated need in the university or community. However, the justification would not need to be as elaborate as that required for a completely new degree program.

5. Following approval of such a new Certificate Program, the action will be reported to the Board of Regents at the next meeting.

6. Please see Appendix 4-6 for material that will help prepare a request for Expedited Review.

II. POLICY ON THE PURSUIT OF GRADUATE DEGREES AT THE UNIVERSITY OF NEBRASKA BY FACULTY HOLDING THE RANK OF ASSISTANT PROFESSOR OR ABOVE (OR EQUIVALENT)

While it is not the intention of the University of Nebraska to deny access to graduate education to any qualified person, the University is concerned about possible conflict of interest, or even the appearance of such a conflict, when faculty members of this University pursue advanced degrees in its Graduate College.

Therefore, a member of the faculty in an instructional department who holds the rank of assistant professor or above or equivalent rank, or a member of the faculty in an instructional department who holds an appointment for a specific term, or a member of the administrative staff holding the rank of assistant professor or above, may pursue an advanced degree in the Graduate College only after receiving special permission from the person’s academic dean or administrative supervisor and from the campus Graduate Council responsible for the program which he or she wishes to pursue. The advanced degree cannot be in the person’s own department or area or in a closely related department or area. Whether a second department or area is too closely related to the person’s own department shall be determined by the Dean for Graduate Studies of the campus involved in consultation with the Graduate Committees of the two departments or areas. Permission may be granted to pursue an advanced degree in the equivalent department on
another campus of the University of Nebraska.

The Graduate Faculty status of a person who is a member of the Graduate Faculty must be suspended when the person receives permission to pursue an advanced degree in the Graduate College of the University of Nebraska. However, with the permission of the appropriate campus Dean for Graduate Studies and the appropriate Graduate Committee, such persons shall be eligible to continue to teach graduate courses, supervise graduate students at the master’s degree level, and serve on graduate supervisory and examining committees. Such permission must be obtained before starting such a program and annually after entering the program. Upon completing or withdrawing from such an advanced degree program, the original Graduate Faculty status shall be reinstated upon recommendation by at least \( \frac{2}{3} \) two-thirds of the Graduate Faculty of the department or area if the person returns to the same department in which he or she held an appointment originally. A change of appointment to another department requires that the person follow the established procedure for obtaining Graduate Faculty status.

A. Veterans Administration - Certification of Graduate Students

Graduate students requiring certification as full-time students must be enrolled for at least 9 credit hours during an academic semester or at least 3 credit hours during summer sessions, whether or not the student holds a graduate assistantship. With approval of the Dean for Graduate Studies, students in the final semester of a master’s degree program, or Candidates for doctoral degrees, registered for fewer than the minimum hours required for a full program may be granted full-time status provided they are not employed more than 22 hours per week (half time).

B. Seniors Approval for Graduate Courses

Seniors at an accredited institution who have obtained in advance the approval of the appropriate campus Dean for Graduate Studies may receive up to 12 hours of credit for graduate courses taken at any campus of the University of Nebraska System in addition to the courses necessary to complete their undergraduate work, provided that such credits are earned within the 12 months prior to receipt of the baccalaureate.

C. Simultaneous Matriculation

Normally, no graduate student may be a degree-seeking student in more than one graduate program at the University of Nebraska, unless enrolled in an approved dual-degree program. Any exceptions must have prior approval of every Graduate Program Committee and every campus Dean for Graduate Studies through which the programs are administratively
assigned. When there is approved simultaneous matriculation, the same course credit will not be accepted for more than one degree without prior approval of every Graduate Program Committee and every campus Dean for Graduate Studies through which the programs are administratively assigned.

D. Students Admitted to Professional Colleges or Programs

Students admitted to professional colleges or programs at the University of Nebraska may enroll in up to 9 credit hours of graduate level courses (800 - and 900 - series) with the approval of the dean of the professional college that administers the program, the instructors for the graduate courses, and the campus Dean for Graduate Studies. In exceptional circumstances registrations above 9 credit hours may be permitted subject to the same approval. Reciprocal arrangements permitting students admitted to the Graduate College to enroll in courses offered in the professional colleges should be encouraged.

E. Supervisory Committee

For each student who has been accepted by a departmental or interdepartmental area for doctoral studies there shall be a Supervisory Committee, at least four members of which, including the chairperson, shall be Graduate Faculty. Membership on Supervisory Committees shall be recommended by the departmental or interdepartmental Graduate Committee for approval and appointment by the Dean (or his/her designee). In addition to the minimum of four members of the Graduate Faculty, Graduate Faculty and other eligible persons may be recommended by the Graduate Committee for appointment by the Dean (or his/her designee) to Supervisory Committees, provided that at least two thirds of the membership of each Supervisory Committee shall be Graduate Faculty. The Minor, or related fields, if applicable, shall be represented on the Committee. The Committee shall approve the student’s program of studies, monitor the student’s academic progress, approve the dissertation subject, prepare, give, and evaluate the comprehensive and final examinations, and approve the dissertation.

E. Procedure for a Graduate Student to Receive a Degree from a Campus Other than that where the Degree is Based

1. The student submits a request to the Dean of the Graduate College, stating in which campus commencement ceremony they would like to receive the degree.
2. When making formal application for the degree, the student should indicate the campus ceremony in which they would like to receive the degree.

3. Campus Deans for Graduate Studies are to resolve the mechanics to comply with the request. These arrangements should include the following:
   a. Each student graduating under these circumstances shall be so noted in the program and commencement script with a statement similar to the one formulated for the December 1977 UNO commencement as follows:

   “A degree awarded on the recommendation of the Graduate Faculty in (major department) at the University of Nebraska (Lincoln, at Omaha, at Kearney or Medical Center) in cooperation with the Graduate Faculty in (major department) at the University of Nebraska (Lincoln, at Omaha, at Kearney, or Medical Center).”

   ALL COMMENCEMENT PROGRAMS SHOULD INCLUDE THE STATEMENT THAT: “ALL GRADUATE DEGREES ARE UNIVERSITY OF NEBRASKA DEGREES.”

Intercampus Registration Process

4. Necessary Conditions
   a. Student must file an intercampus registration form.
   b. Host campus must flag that student’s record to assure communication with home campus (Step 1).

5. Description of Process
   a. Host campus registrar sends a copy of the intercampus registration forms to host campus graduate office (Step 2). This will allow the office to flag the records of those students.
   b. During the semester, the registrar on a particular campus sends information to the graduate office on that campus indicating the courses for which each graduate student taking courses on that campus is registered. The graduate office will forward this information to the home campus graduate office so that the home campus office can maintain a record of courses in which a student is enrolled on other campuses (Step 3).
   c. At the end of the semester, a grade record is sent to the graduate office on the campus in which the courses were completed (Step 4). The host campus graduate office will request the registrar to send a transcript to the home campus graduate office at that time (Step 5). This is done without charge (Step 6).
   d. The home campus graduate office will then pass on the host campus transcript to the registrar on the home campus and request that the information be entered officially on the student’s transcript as it is maintained on the home campus (Step 7).

F. Policy on Summer Tuition Remission for Graduate Assistants
   Any graduate assistant who is employed for one-third FTE or more during both semesters of an academic year may be eligible to receive tuition remission during the subsequent summer. Any graduate assistant who is employed for one-third FTE or more during only one semester of the preceding academic year may be eligible to receive reimbursement of summer session tuition,
provided he or she is employed as a graduate assistant for one-third FTE or more during the following fall semester. Any graduate assistant who is employed for one-third FTE or more during the summer may also be eligible for tuition remission during that same summer.

The amount of tuition remission for which each graduate assistant is eligible during the summer shall be determined as follows. Graduate assistants whose equivalent academic year stipends equal or exceed the amount charged for tuition and fees for thirty credit hours of graduate work on a non-resident basis shall be eligible to receive tuition remission for up to twelve credit hours during the summer. Graduate assistants whose equivalent academic year stipends are less than the above, but equal or exceed the amount charged for twenty-four credit hours of graduate work on a non-resident basis, shall be eligible to receive tuition remission for up to six credit hours during the summer.

1. Tuition Remission. Tuition remission will be granted to graduate assistants for auditing courses when officially registered to audit the courses.

2. Any graduate student who drops below four credit hours in summer sessions will lose their eligibility for Social Security and Medicare tax exemptions.

   Edits approved by the Executive Graduate Council 11-30-11

3. Out-of-State Graduate Students. Graduate students registered for thesis work who have qualified as Nebraska residents while in attendance at the University and who are earning thesis credit while residing in a state other than Nebraska shall continue to be considered as residents for tuition purposes.

G. Retention of Materials used in the Academic Evaluation of Students

Faculty members must decide either: (1) to retain custody for at least 30 days after the end of the semester of materials, such as examinations, term papers, and written or creative assignments, used in the academic evaluation of their students, or (2) to make reasonable efforts to return such materials to the student’s custody.

If a faculty member decides to retain custody of some or all the materials used in the academic evaluation of a student, the faculty member must exercise reasonable care to maintain such materials for at least thirty days after notice of the student’s final course grade has been transmitted from the appropriate campus.

This does not mean that the faculty member must retain such materials and records. The faculty member has the option of returning some or all such materials to the student’s custody. However, it is then the faculty member’s responsibility to make reasonable efforts to ensure that the materials are either given to the student personally or returned to the student by mail.

In any event, after the expiration of the aforementioned thirty-day period, the faculty member may dispose of the academic evaluation materials for any student who has not filed an appeal of their grade, or who has not been granted an extension of time for the filing of such an appeal, or who has not challenged the accuracy of their educational records under the Family
Educational Rights and Privacy Act (FERPA).

Once a faculty member has been notified of a student’s intent to file a grade appeal in a particular course, or once the appeal process has been initiated, or once a challenge has been initiated under FERPA, the faculty member is obligated to exercise extraordinary care for the materials in the faculty member’s custody relating to that student’s grade in that course, until such time as the appeal has been finally resolved.

It should be understood that the standards incorporated within this policy, including the thirty-day time frame, are minimum standards. Individual campuses, colleges or departments may, at their discretion, adopt more stringent policies for the retention of materials, provided such policies conform to the procedures outlined above.

IV. RULES FOR NON-TRADITIONAL WORKSHOPS, SHORT-TERM COURSES AND SPECIAL SEMINARS OFFERING GRADUATE CREDIT

A. Background

From time-to-time arrangements are made to offer graduate credit in conjunction with a workshop or conference. In the past, there has been no consistent practice with respect to providing information in brochures or other material describing the requirements that must be met by a student who wishes to earn graduate credit for participation in the particular workshop or conference in question.

SOURCE: Edits approved by the Executive Graduate Council 11-30-11

B. Policy Statement

In all instances where graduate credit is offered for participation in a workshop or conference, all brochures and advertisements shall include a statement indicating if any additional requirements are necessary to receive credit and the name of a responsible contact person. All such brochures and advertisements must be approved by the campus Dean for Graduate Studies responsible for the program.

C. Rules for all Non-Traditional Courses Offered for Graduate Credit by a Unit of the University of Nebraska

The following are rules for all non-traditional courses offered for graduate credit by any unit of the University of Nebraska. Individual campuses of the University may develop more detailed policies, but they must conform to the rules given below. The intent of these rules is to assure that all courses offered for graduate credit will meet all standards of quality prescribed by the Graduate College of the University of Nebraska.

1. General Rules

   a. Approval of all courses to be offered for graduate credit by any unit of the University of Nebraska is the responsibility of the appropriate campus Graduate Council or its designee. Recommendation for such approval shall be obtained, at a minimum, from the academic program, campus Graduate Council, and the campus Dean for Graduate
Studies.

b. The offering of an approved course shall be under the authority of the academic program.

c. All courses shall be equivalent in the following respects:
   i. admission requirements for all students;
   ii. grading system and evaluation standards;
   iii. course requirements that allow for evaluation of student performance;
   iv. access to faculty outside the scheduled course meetings for consultation;
   v. qualification of faculty; and
   vi. reasonable access to materials, facilities, and support.

2. Assignment of Credit Hours for Non-Traditional Credit Offerings

   a. Credit hours will be assigned according to the following minimum requirements regardless if it is called a course, a workshop, special topics, etc. For each hour of credit there needs to be at least 15 hours in-class instruction. The typical offering is 3 hours per day for 5 days per each graduate credit, i.e., 1 credit in 1 week, 2 credits in 2 weeks, etc.

   b. The other option is for a concentrated 3 day offering for one graduate credit. In this format, the duration of the course shall be at least one week greater than the number of credits offered except for a one credit offering, i.e., 1 credit over 1 week, 2 credits over 3 weeks, 3 credits over 4 weeks, etc.

D. Off-Campus Graduate Course Offerings

For all University campuses, any regularly scheduled campus course or approved online course (exclusive of non-traditional courses), taught by authorized graduate faculty of the University of Nebraska, can be considered for approval to be taught at an off-campus site without special course designation.

V. NON-GRADUATE FACULTY RULES FOR TEACHING GRADUATE COURSES

A. Requirements of Non-Graduate Faculty to Teach Graduate Courses

Provided that all of the following requirements are met, a staff member who is not a member of the Graduate Faculty of the Graduate College may be permitted to teach graduate courses, direct masters theses, serve on or chair masters degree examining committees, and serve on doctoral supervisory committees:

1. The staff member shall have the terminal degree and the rank of assistant professor or above.

2. Permission must be obtained during the first four years of the staff member’s faculty
appointment and shall be effective only during that period.

3. This permission must be recommended by the appropriate departmental or interdepartmental area graduate committee and approved by the campus Dean for Graduate Studies.

4. The staff member meeting these requirements will not have a vote on the Graduate Faculty, nor hold any elected office in the Graduate College.

SOURCE: Executive Graduate Council Minutes 10-15-81

B. Staff Member Graduate Credit

Unusual circumstances may arise in which a department wishes to assign, on a limited basis, the teaching of a course for graduate credit to a staff member who (1) is not a member of the Graduate Faculty and (2) does not qualify for Associate Graduate Faculty status under the conditions of the Executive Graduate Council action of October 15, 1981. In such cases, special permission may be given by the campus Graduate Council Studies Dean. Such permission must be limited to a specific course or courses and must be effective only for a specific time period, not to exceed one semester. Any first extension, for a maximum of one additional semester of the special permission, must be approved by the campus’ Executive Graduate Council. Any further extension of the special permission must be approved (each semester) by the Executive Graduate Council.

VI. GUIDELINES FOR GRADUATE PROGRAMS

A. Guidelines for Submission and Process of Evaluation of New or Modified Graduate Programs

1. Introduction

Evaluation of new graduate programs will emphasize the anticipated quality of the new program (as defined by faculty credentials, the content of the course of study, library and research resources, etc.), as well as the potential for the development of a high-quality program. Other aspects of the review will focus on the relationship of the proposed program to the overall mission of the campus, the resources that will be necessary to develop a program of high quality and the need for the program, both with respect to opportunities for future employment and with respect to the impact of the proposed program on existing campus or University-wide academic programs.

All new academic programs must be approved by the Board of Regents and the Nebraska Coordinating Commission for Postsecondary Education prior to their being established or offered. Requests for new graduate programs are initiated at the departmental, unit or program level. Each request is reviewed at several levels prior to submission to the Board of Regents for approval. For the purposes of this policy, the term “academic program” shall mean a degree, major, certificate, diploma or equivalent curriculum. Programs proposing new “Certificates in Course” should be handled in the same way as proposed new programs.

2. Modification of Existing Programs

Programs undergoing significant modifications, which do not involve the establishment of
a new degree, will be submitted to the appropriate campus Graduate Council, which, in consultation with the Dean for Graduate studies, will decide whether the changes are major or minor. Minor changes (i.e., items that do not have to go to the Board of Regents) will be reviewed only by the campus Graduate Council. Major changes (i.e., items that must go to the Board of Regents) may need to be treated in a manner similar to that for new proposals and should be forwarded to the Dean of the Graduate College for consideration. The Dean will then determine which procedures are applicable to the particular proposal.

3. Review Process for New Programs
   The department or unit initiating a request for a new program should prepare a proposal providing the information outlined below, and any other material that might be of value in supporting the request and should submit this information through appropriate campus channels to the campus Graduate Dean(s) for review by the campus graduate council.

   It should be noted that proposals prepared according to these guidelines may be submitted to the Nebraska Coordinating Commission for Postsecondary Education in the same format, following approval by the Board of Regents. This will then avoid duplication of effort in preparing program submission materials that are duplicative, but with differing formats.

4. Program Proposal Format will follow the guidelines of the CCPE.

   SOURCE: Edits approved by the Executive Graduate Council 11-30-11, 04-25-2018

5. Additional Considerations for the Formulation of Cooperative and JointDegree Programs
   a. “Cooperative programs” shall refer to those academic program organizations whose primary home is a department or unit on one campus (UNL, UNO, UNMC, UNK), with formally affiliated graduate faculty from more than one campus. The formally affiliated graduate faculty may be from the same discipline department on another campus and provide one or more specialization options to the graduate program. Proposals for cooperative programs should be approved by the Graduate Council, campus Graduate Dean, and campus channels on the campus of the primary home department before submission to the Dean of the Graduate College.

   b. “Joint programs” shall mean programs offered and administered jointly by more than one department or unit located on more than one campus. In terms of the governance of the graduate program, the units participate equally in a single graduate committee. For a joint program, students may apply to any campus offering the program and be awarded the diploma at the commencement at the campus of their choice.

   Proposals for joint programs should be approved by the respective Graduate Councils, Graduate Studies Deans, and campus channels on all campuses which are to be offering the program before submission to the Dean of the Graduate College.

   c. A proposal for either a Cooperative or a Joint program should describe the rationale for the establishment of the program. Particular attention should be paid to the governance of the proposed program, including the composition of the Graduate Committee, the selection process for committee members and the overall coordination of the program. The proposal should also describe how faculty affiliated with the
program will be identified and approved for participation in the program.

d. Mechanisms should be described that facilitate the registration of students and the cross-campus development of curricula as the program is developed. The proposal should describe how students are provided with ready access to the core curriculum. The program description should also make clear the extent to which faculty or students will be required to travel between campuses to provide access to courses essential to the degree program.

B. EGC Review Cycle for Proposed New Graduate Programs

The Executive Graduate Council review of a proposed new program begins upon receipt of a proposal by the Office of the Executive Vice President and Provost, together with a list of nominees for external evaluation of the program after the campus Graduate Council has approved the proposal.

The outside review team is selected by the Dean or a designee, using the list of possible external reviewers. The Dean, or designee, is free to seek additional names from other sources, such as officers of professional societies in the discipline or distinguished faculty or administrators at other institutions.

The schedule for the outside review team is coordinated through the Office of the Executive Vice President and Provost. A package of materials, including the program proposal and any supplementary materials requested by the review sub-committee, and any materials describing the University (role and mission statements, catalogs, etc.) is assembled by the Office of the Executive Vice President and Provost and disseminated to the review team, along with a charge.

Review team members have an entry meeting with the Graduate College Dean, and subsequently meet with relevant campus Graduate Studies Dean(s), academic Dean(s), Vice Chancellors, program coordinators/directors, proposed program faculty, current and/or potential students, and community stakeholders. Review team exit interviews are held with the Executive Graduate Council and the Graduate College Dean.

The written consultant report is sent to the Dean, who then sends copies to the campus Dean(s) for Graduate Studies, academic Dean(s), academic Vice Chancellor(s), and Department Chairperson(s) or Program Director(s). The Graduate Studies Dean(s) shall prepare a response, and if substantial changes are suggested by the review team, the department, unit, or program should prepare an amended proposal and resubmit this to the campus graduate dean for eventual transmission to the Dean of the Graduate College and Executive Graduate Council.

The proposal shall be considered for the consent of the Council of Chief Academic Officers and forwarded to the Executive Graduate Council. Assuming approval at each of these levels, the Executive Vice President and Provost will then forward the proposal to the Board of Regents requesting their approval. Finally, the program will be sent to the Nebraska Coordinating Commission for Postsecondary Education for its consideration. The program cannot be initiated until the Commission’s approval is obtained.

C. Addendum–Details of Program Proposal Format

1. Descriptive Information

The proposal should provide the name of the institution proposing the program, the name of the program (major), the degrees/credentials to be offered in the program (M.A., M.S., Ph.D., etc.), if appropriate, designation as a Post-Bachelorette Baccalaureate Professional Credential or Degree, the administrative units for the program (college, division, department, etc.), the date approved by the governing board, the proposed date the program will be initiated, and a concise description of the proposed program.

2. Abstracts of Proposal

The abstract should be a 1-to-2-page summary of proposed degree program. The abstract should stand alone without further reference to the body of the proposal. Abstracts are distributed to members of the Executive Graduate Council for informational use.

3. Formulation of a Program and Preparation of a Self-Study Report

a. Centrality to Role and Mission. In this section, refer to the institutional role and mission as defined in the Nebraska statutes and in the CCPE Comprehensive Statewide Plan for Higher Education. The language in the role and mission statements that refers to the types of instructional programs, degree levels, and subject areas is most relevant to program review. The report may shall also include references to more detailed role and mission statements adopted by the governing board President and Board of Regents, institution, or administrative unit.

b. Consistency with the Comprehensive Statewide Plan. In this section, refer to the relationship of the proposed program to priorities in the Comprehensive Statewide Plan not covered under other criteria (e.g., role and mission and need and demand).

   i. Program of Study. Describe the proposed program of study and explain its structure, coherence, its objectives, and the plans to regularly review and revise the program to reflect new developments in the discipline. Identify any new courses that will be needed to implement the program and indicate the number of credit hours that will be required to complete it. Provide complete, detailed syllabi of all courses which will be included in the proposed program.

   ii. Learning. Describe the assessment of student learning plan for the proposed program, including the plans for using the data to improve the quality of the program. Examples of data that could be collected are retention and graduation rates, placement rates, employer surveys, graduate satisfaction surveys, results of licensing or certification exams, and other measures of student achievement.

   iii. Accreditation. Describe plans, if any, to seek specialized accreditation of the program. Regional accreditation status of the institution is usually not relevant to the quality or effectiveness of specific degree programs.

   iv. Needs of Diverse Student Groups. Include descriptions of any specific program-level or department-level initiatives or strategies, currently in place or planned, that are designed to enhance the recruitment, retention, and success of students from diverse backgrounds, including those from under-represented populations.

   v. Collaboration with Other Postsecondary Institutions. Identify any collaborative
agreements with other postsecondary institutions to expand the curriculum, to extend access to the program, or to ensure that courses will be transferable. Describe the interactions that will take place with cognizant departments, units, and programs on all campuses. What participation will be required in terms of faculty in other programs? (Provide letters documenting willingness to participate and the type of interaction that will take place.)

vi. Off-campus Delivery Sites and Distance Learning. Identify any plans to deliver the program to other sites using telecommunications or other means. Also identify any plans to use courses or materials produced by other institutions and provided by telecommunications technologies.

vii. Partnerships with Businesses, Organizations, and Public Agencies. Identify any partnership agreements that will enhance the quality of the program or provide educational and practical experiences for the students. Are practica and internships readily available, for example? How will the quality of these practica and internships be evaluated and maintained?

4. Evidence of Need
   a. Constituency and Community Resources. In this section include information about the need for this program in the community, the region, the state, or the nation. Include data, reports, or studies about the workforce needs of business, industry, and other employers in Nebraska and about the job opportunities for graduates. Explain any potential for the program to contribute to economic development in the service area or in the state. Describe the effect that the program will have on the department initiating it. If the program involves community participation (field experience, externships, preceptorships, visiting consultants), is there reason to expect support for the program and from what segments of the community will support come?
   b. Impact on Existing Academic Community. This section should thoroughly address the issue of unnecessary duplication. It should identify other similar programs offered in the state by public or private institutions, explain any differences among the programs, and explain why an additional program is needed at this time. Similar programs offered within the states that are members of the Midwestern Higher Education Compact and programs that are offered in contiguous states that are reasonably accessible to residents of Nebraska should also be identified. If similar programs exist, explain why those programs cannot meet the need for which the proposed program is designed. Documentation must be furnished that relevant departments or areas on all campuses have been given copies of the proposal and have been invited to prepare a written response to it.

5. Evidence of Demand
   This section should include information about the extent of student interest in the proposed program. Include studies, surveys, or other evidence about student demand. Are there adequately prepared students available for the program? What is the academic background of potential students? How many students are expected to enroll in the program in each of the first five years of operation? What is the minimum number of students required to make the program viable? What is the maximum number of students that could be accommodated with the resources committed to the program? Will the program be available to students from other states through the Midwestern Higher
6. Adequacy of Resources

a. Faculty/Staff. Identify the number of faculty and staff required to implement the proposed program. Distinguish between full-time faculty in the major, the number of regular faculty from other majors who will teach courses in the proposed program, and the number of temporary, part-time faculty (adjuncts) who will teach courses. How many of the required faculty are currently employed by the institution? What are the credentials of the faculty (graduate faculty status, research productivity, experience in teaching or professional practice in the field)? Identify any additional administrative and support staff required, including graduate assistants, and identify the capacity in which they will serve.

i. Resumes. Provide current curriculum vitae for every faculty member participating in the program.

ii. Projected Incremental Expenses. Complete the staffing section of Table 1: Projected Incremental Expenses.

iii. Summary of the Current Research Programs Available for Graduate Student Involvement.

b. Library/Information Resources. This section should include information about the relevant library holdings and electronic information resources that are currently available. Will additional learning resources be needed? (Information about the rating of the library as a whole is useful but is not a sufficient response. This section may also include information about interlibrary load agreements with institutions that have similar programs.) Describe the resources that will be available to students and faculty through electronic technology and discuss the services provided to assure that students and faculty can access and use the information available through those resources. Complete the Library resources section of Table 1: Projected Incremental Expenses.

c. Physical Facilities. Describe the physical facilities, such as classrooms, laboratories, and offices that will be required for the program and describe how those resources will be provided. Identify any plans for renovating existing facilities, constructing new facilities, or leasing additional facilities for the proposed program within the next ten years. List other special consideration or facilities which are essential and available to the program. Complete the facilities section of Table 1: Projected Incremental Expenses.

d. Instructional Equipment. Describe any specialized equipment that will be needed for use in instruction and explain how the equipment will be provided. Special emphasis should be given to the availability of computers and other information technologies. If new equipment will be required, identify the source of funds for this equipment. Complete the equipment section of Table 1: Projected Incremental Expenses.

e. Budget Projections. What will it cost to initiate the program and maintain it? Are any planned expansions built into the overall format for starting the program? Where will the money come from for activating and maintaining the program? What will these increases cost? If federal or state funding is involved, what conditions or requirements are set for these funds? What is the length of the granting period? Complete Tables 1 and 2 showing the projected incremental expenses and the revenue sources for those expenses for the first five years of the program.
i. Faculty. If additional faculty will be required, specify why. Have those faculty lines been approved? What is the source of funds for these lines?

ii. Student Support. What is the source of funding for the research programs? What is the source of support for graduate student stipends? What is the level and source of external funding of the faculty? Will these funds contribute to the graduate program? What support will be given to students and to educational requirements associated with student training (cost of visiting speakers, consultants, etc.)?

iii. Non-faculty Staff. If the program requires additional non-faculty staff, describe the source of funds for these additional staff?

iv. Operating Funds. Will additional operating funds be necessary? Source of these funds?

7. Summary of Responses to the Major Criteria
   In this final section briefly summarize the proposal. The summary should recap the institution’s responses to each of the major criteria such as consistency with role and mission, need and demand, and adequacy of resources. Include a timetable for approval and introduction of courses and initiation of program and estimates of the anticipated admission, matriculation, and total enrollment during the initial five year period.

8. Letter of Support from Administrators and Stakeholders
   Supporting letters from administrators at the Departmental, College, and Campus levels should be included in the information transmitted to the Executive Graduate Council; letters from external stakeholders (potential employers and/or communities to be served) are also encouraged.

   SOURCE: Approved by the Executive Graduate Council at their meeting on 05-01-1997, Edits approved by the Executive Graduate Council on 04-25-2018, 10-26-22

D. Process for Monitoring Graduate Program Reviews
   Each graduate program must be periodically reviewed by the campus from which the program originates. Normally, the campus review of a graduate program occurs at the time of the review of the department which offers it. In cases of a program offered jointly, the process of periodic review (normally, every fives to even years) must be determined when the program is created. The Coordinating Commission also requires periodic review with specific data requirements of credit hours and for average number of degrees awarded.
   
   The use of a standardized form for presentation of the program review summaries will facilitate the review of the programs and minimize the need for requesting additional information from departments for the Graduate Dean or the Coordinating Commission.

E. Procedures for the Deletion or Consolidation of Graduate Programs

1. Principles
   The following principles should be considered in the deletion, consolidation, or contraction
of graduate programs:

a. The pursuit of graduate degrees is based fundamentally on the search for new knowledge.

b. Graduate education provides basic principles which students may apply to unforeseeable challenges.

c. Teachers of graduate students should engage actively in research and in the dissemination of the results of their research.

d. In general, graduate programs cannot be considered independently. Many of the programs considered for deletion or consolidation are undergraduate or professional programs with a closely associated graduate program. A complex interrelationship frequently exists among the programs.

e. Reasons for deletion or consolidation may include lack of need or demand for graduates (local, state or national); substandard quality; lack of adequate faculty or decline in quality of faculty; lack of adequate library holdings, laboratories or physical facilities; unnecessary duplication; transfer of a department or unit between colleges; lack of adequate financial support or a financial exigency; substantial increase in cost to continue program; or substantial savings affected by consolidation.

f. The overall importance of each program must be considered within the context of the role and mission of each campus as promulgated by the Board of Regents.

2. Procedures

a. Initiation of Deletion or Consolidation Proceedings

Proceedings may be initiated by a graduate program committee; a departmental Chairperson; an academic Dean; a campus Graduate Studies Dean; a campus Graduate Council; the Executive Graduate Council; an academic Vice Chancellor; a Chancellor; the Dean of the Graduate College; or the President.

b. Notification of the Initiation of Deletion or Consolidation Proceedings

Any recommendation for deletion or consolidation shall be forwarded by the initiating party to graduate committee chairpersons of all affected graduate programs and the campus Graduate Council for consideration, review, and recommendation. The departmental Chairperson of the effected program; the academic Dean; the campus Graduate Dean; the Academic Planning Committee or its equivalent; the Executive Graduate Council; the academic Vice Chancellor; the Chancellor; and the Dean of the Graduate College shall also be notified of this action.

c. Campus Review by Standing or Ad Hoc Groups

Any review concerning deletion or consolidation of graduate programs is most appropriately conducted at the campus level. These Procedures insure adequate representation by the campus Graduate Council, and appropriate consideration of the graduate component in any such review process, in accord with established campus procedures. If a standing committee is empowered by campus Bylaws or legal contract to conduct a review of all programs to be considered for such deletion or consolidation, then that committee should consider the full merits of the case made for deletion or consolidation of the identified graduate programs. If such a standing committee does not exist, any ad hoc review committee established by the Chancellor should include at
least one representative of the campus Graduate Council and the campus Graduate Studies Dean. Either the standing or ad hoc review committee shall assure appropriate input from the campus Graduate Studies Dean, the campus Graduate Council, and the affected graduate programs on the status and quality of graduate programs it is reviewing.

d. Review by the Campus Graduate Council
The appropriate campus Graduate Council shall make a recommendation to the Executive Graduate Council with regard to the proposed deletion or consolidation. In order to do that, the campus Graduate Council must perform a review of the program if it considers other reviews and data to be inadequate. An outside team of visiting scholars may be requested to review a program that is proposed for deletion or consolidation. The team will be appointed by the campus Graduate Studies Dean in consultation with the academic Dean and Chairperson of the affected graduate program. The campus Graduate Council representative on any review committee shall report the results of deliberations on deletion or consolidation of graduate programs to the campus Graduate Council. After appropriate review, the campus Graduate Council shall submit its recommendation to the campus Graduate Studies Dean. The recommendation shall be forwarded to the Chancellor and the Graduate College Dean for transmission to the Executive Graduate Council; copies of the recommendation shall be forwarded to the Academic Planning Committee or its equivalent; the academic Dean; and the Academic Vice Chancellors.

e. Review by the Executive Graduate Council
The Executive Graduate Council shall receive the recommendation from the Dean of the Graduate College for review. The recommendation of the Executive Graduate Council will be forwarded to the Dean of the Graduate College for transmission to the President and the Board of Regents.

VII. GENERAL APPEAL PROCEDURES FOR ACADEMIC MATTERS CONCERNING GRADUATE STUDENTS

A. Appeal of General Academic Matters Related to Student Programs
   1. Graduate students holding admission with unclassified status in the Graduate College, admission with a master’s objective, or admission with a doctoral objective (but prior to the appointment of a doctoral supervisory committee) should appeal as follows:
      a. Initially, the appeal should be submitted to the student’s adviser.
      b. If denied, the appeal may be submitted to the Departmental or Interdepartmental Area Graduate Committee administratively responsible for the student’s graduate program.
      c. If denied, an appeal may be made to the Graduate Council for the campus administratively responsible for the student’s graduate program. Normally, this will be
the final appeals body (for exceptions, see Sections 5-7).

2. Graduate students holding admission with a doctoral objective in the Graduate College and for whom a doctoral supervisory committee has been appointed should appeal as follows:
   a. Initially, the appeal should be submitted to the student’s adviser.
   b. If denied, the appeal may be submitted to the student’s supervisory committee.
   c. If denied, the appeal may be submitted to the Departmental or Interdepartmental Area Graduate Committee administratively responsible for the student’s graduate program.
   d. If denied, an appeal may be made to the Graduate Council for the campus administratively responsible for the student’s graduate program. Normally, this will be the final appeals body (for exceptions, see Sections 5-7).

3. When a student’s graduate program consists of registrations essentially or entirely on one campus, the Graduate Council of the campus administratively responsible for the program will constitute the appeal board. When a student’s graduate program includes substantial registrations on a campus other than the one administratively responsible for the program, three members of the Graduate Council for the other campus will be designated by the Dean for Graduate Studies on that campus to augment the Graduate Council on the campus administratively responsible for the program. In this case, the augmented Council will constitute the appeal board. The decision concerning augmentation of a campus Graduate Council for a specific appeal involving registrations on a campus other than the one administratively responsible for the student’s program will be made by the Deans for Graduate Studies on the campuses involved.

4. In all cases, appeals should be made in writing to the appropriate adviser, Committee, or Council.
   a. In those cases where the appeal concerns graduate-level qualifying exams, comprehensive exams, or final oral exams, the following deadlines must be observed. It is the responsibility of the student to make reasonable efforts to ascertain the results of the examination within thirty days after its completion.
   b. The initiation of the appeal, in writing, by the student must be filed within thirty days following the student’s receipt of notification of the evaluation.
   c. In those cases involving an appeal of termination of program, an initiative of the appeal, in writing, by the student must be filed within thirty days following the student’s receipt of the official written notification by the campus Office for Graduate Studies.

5. There is no absolute right of appeal to the Executive Graduate Council. The Executive Graduate Council will accept appeals only in those cases where in the exercise of its sole discretion it shall first find that one or more of the following grounds for accepting the appeal exist:
   a. That the campus Graduate Council has violated some element of fair procedure (example: has failed to allow the parties concerned to present their cases fully to their campus Graduate Council);
   b. That the campus Graduate Council has failed to examine or give adequate weight to important evidence relevant to one party’s position;
c. That the campus Graduate Council has given undue weight to evidence not pertinent to the case; or

d. That some gross miscarriage of justice would be perpetrated if the decision of the campus Graduate Council is allowed to stand.

A decision by the Executive Graduate Council not to accept jurisdiction of an appeal shall be final and is not subject to further appeal.

6. Appeals to the Executive Graduate Council must be made in writing and must specifically outline the grounds for the appeal. Such appeal must be made within 20 working days of the day the decision of the campus Graduate Council is received (working days shall not include those days the University is not in session).

a. The Executive Graduate Council must make a decision to hear the appeal or not to hear the appeal within 30 working days after receipt of the appeal. Acceptance or denial of jurisdiction over the appeal will be made in writing.

b. The decision of the Executive Graduate Council on the merits of the case will be made and transmitted to the concerned parties within 40 working days after the decision to hear the appeal.

7. No person who was a member of the department or campus Graduate Council involved in the case will be eligible to participate in the decisions of the Executive Graduate Council either to decide whether the case should be heard or to decide the merits of the case. However, the Dean for Graduate Studies may replace members of the Executive Graduate Council not eligible for participation in the decision to hear the appeal or in the appeal itself.

B. Appeal of Grades in Graduate-Level Courses

Appeal of grades in graduate-level courses shall be made through the graduate student grade appeal procedures for the campus through which the grade was awarded. Students who believe their evaluation in a course has been prejudiced or capricious must first attempt to resolve the matter with the course instructor and then the department through which the course was offered. If the matter is not resolved, the student may file an appeal in writing to the campus Dean for Graduate Studies who shall inform the student of the grade appeal procedures approved by the Graduate Faculty or by their duly elected representative Graduate Council for that campus, and shall forward the appeal to the student-faculty committee or council which is designated to hear graduate-level course grade appeals on that campus. Since awarding grades in courses occurs at the individual campus level, the decision of the campus committee or council designated to hear the case on behalf of the campus Graduate Faculty shall be final and is not subject to further appeal.

SOURCE: Approved by the Executive Graduate Council 12-11-80, amended by the Executive Graduate Council 03-18-82

C. Denial of Admission

There is no right to due process hearing with respect to denial of admission of a graduate student. Therefore, there is no need for an appeal procedure for applicants for graduate programs.

Appendix 2-3: Legal Opinion, Richard Wood

Office of the General Counsel

January 18, 1979

Dr. Steven B. Sample
Executive Vice President for Academic Affairs
University of Nebraska
Regents Hall
Lincoln, Nebraska 68583

Re: Presiding Officer – Executive Graduate Council

Dear Dr. Sample:

You have requested an opinion concerning the presiding officer of the Executive Graduate Council and who should preside at meetings of the Council in the absence of the presiding officer designated pursuant to the Bylaws of the Board of Regents.

Section 2.2 (g) of the Bylaws of the Board of Regents provides that the "Office of the Executive Vice President for Academic Affairs shall include an executive officer for graduate studies and research, who shall serve as the presiding officer of the University-wide graduate faculty and councils thereof." It is my understanding that you are serving in this executive officer position.

I have examined the document entitled University of Nebraska System-Wide Organization and Procedures for Administrative and Faculty Management of Graduate Studies. This document sets out the organization of the Executive Graduate Council and provides that you as the Executive Officer for Graduate Studies and Dean of the Graduate College will preside over the meetings of the Executive Graduate Council and faculty. However, there is no provision designating an officer of the University to preside over meetings of the Executive Graduate Council in your absence. Due to this fact and taking into consideration the authority delegated to you by Section 2.2 (g) of the Regents’ Bylaws, it is my opinion that if you are unable to attend meetings of the Executive Graduate Council you have the authority and responsibility to designate which officer of the University will preside at meetings of the Council in your absence.

Yours very truly,

Richard R. Wood
General Counsel

In re: Interpretation of Regents Bylaw 2.2  

Dear Dr. Sample:  

You have called my attention to Regents Bylaw 2.2(g) which provides in part as follows:  

"The office of the Executive Vice President for Academic Affairs shall include an executive officer for graduate studies and research, who shall serve as the presiding officer of the University-wide graduate faculty and councils thereof."  

In connection with this Bylaw, you have inquired whether if the graduate faculty or any of its councils elect to go into closed session whether under such circumstances the executive officer for graduate studies and research must continue to serve as the presiding officer.  

In my opinion, the executive officer for graduate studies and research is required to serve as the presiding officer of the University-wide graduate faculty and councils thereof, irrespective of whether those bodies are in open or closed session. The mere fact that an election is made to have an executive or closed session would not alter the mandate of the Bylaws that the officer continue to serve as its presiding officer.  

Yours very truly,

(a) In FY 2021-22, fellowships were newly awarded to 49 students from 25 different departments. There were 81 returning students for a total of 130 fellowships. Either a $4,000 or an $8,000 stipend is paid to supplement a departmental graduate teaching or research assistantship. The program remains at full implementation budgeted at $750,000 annually.

(b) In FY 2021-22, there were 23 Othmer chairs and professorships.
Continued funding of and implementation of current and future projects is dependent on the performance of the endowment. Future use of the Othmer-Topp endowment funds will continue to follow the principles that were set forth in prior years’ reports.

An error was discovered in the Q2 quarterly reporting of gifts, grants, contracts, and bequests for the University of Nebraska at Omaha. The entire calendar year amount of an award was recorded in Mav Grants ($751,093) instead of the Q2 fiscal year amount ($225,328). The Q2, Q3 and Q4 reports have been updated to reflect the corrected totals.
