1. **Subdoctoral Degree Credits.** All graduate credits to be counted toward the satisfaction of subdoctoral degree requirements -- including all transfer credits -- must be approved and recommended by the cognizant Graduate Committee of the student's major department or area. Not less than 50 percent of the course work required for any subdoctoral graduate degree must be completed at the University of Nebraska. No graduate credits will be accepted as transfer credits unless earned at an institution fully accredited to offer graduate work in the field of the student's major; nor should the student expect any graduate credits to be transferred unless the Graduate Committee evaluated the quality and suitability equal to or superior to offerings available at the University of Nebraska.

2. **Post-Baccalaureate Degree.** A post-baccalaureate degree which is the first or minimum degree offered by the University of Nebraska that qualifies a person to stand for licensure in one of the recognized professions, and which is pursued, for all intents and purposes, exclusively by persons intending to seek licensure in that profession, is regarded as a first-professional degree. Any other post-baccalaureate degree is regarded as a graduate degree.

3. **Certificates.** The certificate at the graduate level may be either sub-master or post-master and is intended to indicate a given level of proficiency in a given area where there is an established need, just as master and doctoral degrees do -- not that a given number of credit hours have been earned.

4. **Format for Graduate Degrees.** The heading shall read "The University of Nebraska." There shall be a subsidiary heading reading "Graduate College." Following the subsidiary

heading shall be a paragraph reading "This diploma makes known that the Board of Regents of the University of Nebraska upon the recommendation of the Graduate Faculty and by authority of the statutes of the State has by its officers specially authorized hereto conferred the degree."

- a. The above paragraph will be followed by the formal name of the degree and by the word "upon" and by the full name of the degree recipient. The degree recipient's name will be followed by the statement "who is entitled to enjoy all the rights, honors, and privileges pertaining to that degree."
- b. A paragraph reading "in testimony whereof we have hereunto subscribed our names and caused the seal of the said Board to be affixed this _____ day of _____, 20__."
- c. The seal of the University will be in the lower left-hand corner, the word "attest" will appear after the seal, and following this word will appear the signatures and printed titles of the corporation secretary of the Board, the chairman of the Board, and the President of the University.
- d. Across the bottom of the diploma will be printed the names of the four campuses of the University in the following order: The University of Nebraska-Lincoln, The University of Nebraska Medical Center, The University of Nebraska at Omaha, The University of Nebraska at Kearney.

B. Expedited Review of Proposed New Graduate Certificate Programs

Under certain circumstances proposed new Certificate Programs would receive expedited review and approval. This would involve review by the Campus Graduate Council and the Council of Academic Officers, with final approval by the Provost and President.

For a program to be considered for expedited review and approval, it must meet the following requirements:

1. The proposed certificate must be a reasonable extension of an existing masters program in that it uses existing courses in the present masters.
2. The proposed certificate would require at least 12 - 15 hours of work past the bachelors degree but no more than 20 hours. A core of required or elective courses must be in the department/program offering the certificate; however there could be an opportunity for graduate students to take up to one third of the program in optional or elective courses in collateral departments of relevant disciplines, consistent with the requirements of the existing program.
3. The proposed certificate would be a repackaging of existing graduate courses, requiring no additional or reallocated resources to support the program. The proposal would have to demonstrate the availability of internal capacity to offer the certificate.
4. The proposal would need to show evidence of demand and that the proposal is being responsive to a demonstrated need in the university or community. However, the justification would not need to be as elaborate as that required for a new degree program.

5. Following approval of such a new Certificate Program, the action will be reported to the Board of Regents at the next meeting.
6. Please see Appendix 4 for material that will help prepare a request for Expedited Review.

II. Policy on the Pursuit of Graduate Degrees at the University of Nebraska by Persons Holding The Rank of Assistant Professor or Above (or Equivalent)

While it is not the intention of the University of Nebraska to deny access to graduate education to any qualified person, the University is concerned about possible conflict of interest, or even the appearance of such a conflict, when faculty members of this University pursue advanced degrees in its Graduate College.

Therefore, a member of the faculty in an instructional department who holds the rank of assistant professor or above or equivalent rank, or a member of the faculty in an instructional department who holds an appointment for a specific term, or a member of the administrative staff holding the rank of assistant professor or above, may pursue an advanced degree in the Graduate College only after receiving special permission from the person's academic dean or administrative supervisor and from the campus Graduate Council responsible for the program which he or she wishes to pursue. The advanced degree cannot be in the person's own department or area or in a closely related department or area. Whether a second department or area is too closely related to the person's own department shall be determined by the Dean for Graduate Studies of the campus involved in consultation with the Graduate Committees of the two departments or areas. Permission may be granted to pursue an advanced degree in the equivalent department on another campus of the University of Nebraska.

The Graduate Faculty status of a person who is a member of the Graduate Faculty must be suspended when the person receives permission to pursue an advanced degree in the Graduate College of the University of Nebraska. However, with the permission of the appropriate campus Dean for Graduate Studies and the appropriate Graduate Committee, such persons shall be eligible to continue to teach graduate courses, supervise graduate students at the Masters degree level, and serve on graduate supervisory and examining committees. Such permission must be obtained before starting such a program and annually after entering the program. Upon completing or withdrawing from such an advanced degree program, the original Graduate Faculty status shall be reinstated upon recommendation by at least $2/3$ of the Graduate Faculty of the department or area if the person returns to the same department in which he or she held an appointment originally. A change of appointment to another department requires that the person follow the established procedure for obtaining Graduate Faculty status.

III. Graduate Students

Graduate Students Defined. Full-time graduate students at the University of Nebraska shall be defined as graduate students enrolled for at least 9 credit hours during an academic semester (or quarter) or at least 4 hours during summer sessions irrespective of whether or not the student holds a graduate assistantship.

A. Veterans Administration - Certification of Graduate Students.

Graduate students requiring certification as full-time students must be enrolled for at least 9 credit hours during an academic semester or at least 3 credit hours during summer sessions, whether or not the student holds a graduate assistantship. With approval of the Dean for Graduate Studies, students in the final semester of a masters degree program, or Candidates for doctoral degrees, registered for fewer than the minimum hours required for a full program may be granted full-time status provided they are not employed more than 22 hours per week (half time).

B. Seniors Approval for Graduate Courses.

Seniors at an accredited institution who have obtained in advance the approval of the appropriate campus Dean for Graduate Studies may receive up to 12 hours of credit for graduate courses taken at any campus of the University of Nebraska System in addition to the courses necessary to complete their undergraduate work, provided that such credits are earned within the 12 months prior to receipt of the baccalaureate.

SOURCE: Executive Graduate Council Minutes 09-26-74

C. Simultaneous Matriculation.

Normally, no graduate student may be a degree-seeking student in more than one graduate program at the University of Nebraska, unless enrolled in an approved dual-degree program. Any exceptions must have prior approval of every Graduate Program Committee and every campus Dean for Graduate Studies through which the programs are administratively assigned. When there is approved simultaneous matriculation, the same course credit will not be accepted for more than one degree without prior approval of every Graduate Program Committee and every campus Dean for Graduate Studies through which the programs are administratively assigned.

D. Students Admitted to Professional Colleges.

Students admitted to professional colleges at the University of Nebraska may enroll in up to 9 credit hours of graduate level courses (800 - and 900 - series) with the approval of the dean of the professional college, the instructors for the graduate courses, and the campus Dean for Graduate Studies. In exceptional circumstances registrations above 9 credit hours may be permitted subject to the same approval. Reciprocal arrangements permitting students admitted to the Graduate College to enroll in courses offered in the professional colleges should be encouraged.

E. Supervisory Committee.

For each student who has been accepted by a departmental or interdepartmental area for doctoral studies there shall be a Supervisory Committee, at least four members of which, including the chairperson, shall be Graduate Faculty. Membership on Supervisory Committees shall be recommended by the departmental or interdepartmental Graduate Committee for approval and appointment by the Dean (or his/her designee). In addition to the minimum of four members of the Graduate Faculty, Graduate Faculty and other eligible persons may be recommended by the Graduate Committee for appointment by the Dean (or his/her designee) to Supervisory Committees, provided that at least two-thirds of the membership of each Supervisory Committee shall be Graduate Faculty. The Minor, or related fields, if applicable, shall be represented on the Committee. The Committee shall approve the student's program of studies, monitor the student's academic progress, approve the dissertation subject, prepare, give, and evaluate the comprehensive and final examinations, and approve the dissertation.

F. Procedure for a Graduate Student to Receive a Degree from a Campus Other than that where the Degree is Based

1. The student submits a request to the Dean of the Graduate College, stating in which campus commencement ceremony he or she would like to receive the degree.
2. When making formal application for the degree, the student should indicate the campus ceremony in which he or she would like to receive the degree.
3. Campus Deans for Graduate Studies are to resolve the mechanics to comply with the request. These arrangements should include the following:
 - a. Each student graduating under these circumstances shall be so noted in the program and commencement script with a statement similar to the one formulated for the December 1977 UNO commencement as follows:

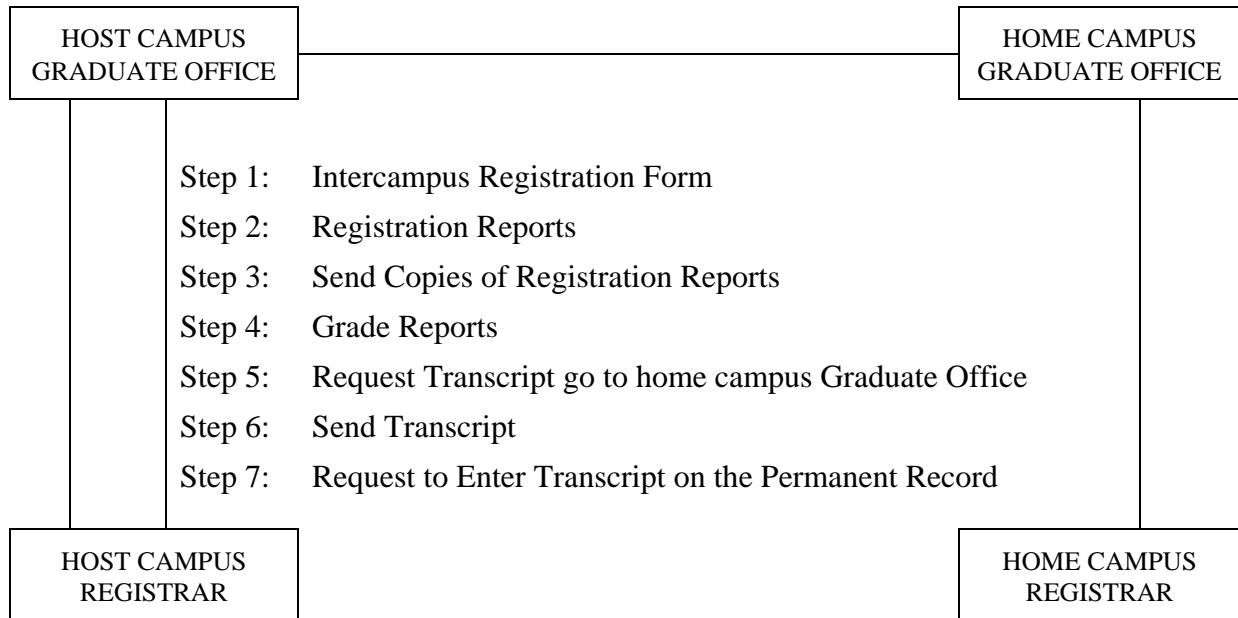

"A degree awarded on the recommendation of the Graduate Faculty in (major department) at the University of Nebraska (-Lincoln, at Omaha, at Kearney or Medical Center) in cooperation with the Graduate Faculty in (major department) at the University of Nebraska (-Lincoln, at Omaha, at Kearney, or Medical Center)."

ALL COMMENCEMENT PROGRAMS SHOULD INCLUDE THE STATEMENT THAT: "ALL GRADUATE DEGREES ARE UNIVERSITY OF NEBRASKA DEGREES."

Intercampus Registration Process

4. Necessary Conditions

- a. Student must file an intercampus registration form.
- b. Host campus must flag that student's record to assure communication with home campus (Step 1).

5. Description of Process

- a. Host campus registrar sends a copy of the intercampus registration forms to host campus graduate office (Step 2). This will allow the office to flag the records of those students.
- b. During the semester, the registrar on a particular campus sends information to the graduate office on that campus indicating the courses for which each graduate student taking courses on that campus is registered. The graduate office will forward this information to the home campus graduate office so that the home campus office can maintain a record of courses in which a student is enrolled on other campuses (Step 3).
- c. At the end of the semester, a grade record is sent to the graduate office on the campus in which the courses were completed (Step 4). The host campus graduate office will request the registrar to send a transcript to the home campus graduate office at that time (Step 5). This is done without charge (Step 6).
- e. The home campus graduate office will then pass on the host campus transcript to the registrar on the home campus and request that the information be entered officially on the student's transcript as it is maintained on the home campus (Step 7).

G. Policy on Summer Tuition Remission for Graduate Assistants

Any graduate assistant who is employed for one-third FTE or more during both semesters of an academic year may be eligible to receive tuition remission during the subsequent summer. Any graduate assistant who is employed for one-third FTE or more during only one semester of the preceding academic year may be eligible to receive reimbursement of summer session tuition, provided he or she is employed as a graduate assistant for one-third FTE or more during the following fall semester. Any graduate assistant who is employed for one-third FTE or more during the summer may also be eligible for tuition remission during that same summer.

The amount of tuition remission for which each graduate assistant is eligible during the summer shall be determined as follows. Graduate assistants whose equivalent academic year stipends equal or exceed the amount charged for tuition and fees for thirty credit hours of graduate work on a non-resident basis shall be eligible to receive tuition remission for up to twelve credit hours during the summer. Graduate assistants whose equivalent academic year stipends are less than the above, but equal or exceed the amount charged for twenty-four credit hours of graduate work on a non-resident basis, shall be eligible to receive tuition remission for up to six credit hours during the summer.

1. **Tuition Remission.** Tuition remission will be granted to graduate assistants for auditing of courses when officially registered to audit the courses.

H. Retention of Materials used in the Academic Evaluation of Students

Faculty members must decide either: (1) to retain custody for at least 30 days after the end of the semester of materials, such as examinations, term papers, and written or creative assignments, used in the academic evaluation of their students, or (2) to make reasonable efforts to return such materials to the student's custody.

If a faculty member decides to retain custody of some or all of the materials used in the academic evaluation of a student, the faculty member must exercise reasonable care to maintain such materials for at least thirty days after notice of the student's final course grade has been transmitted from the appropriate campus.

This does not mean that the faculty member must retain such materials and records. The faculty member has the option of returning some or all of such materials to the student's custody. However,

it is then the faculty member's responsibility to make reasonable efforts to insure that the materials are either given to the student personally or returned to the student by mail.

In any event, after the expiration of the aforementioned thirty-day period, the faculty member may dispose of the academic evaluation materials for any student who has not filed an appeal of his or her grade, or who has not been granted an extension of time for the filing of such an appeal, or who has not challenged the accuracy of his or her educational records under the Family Educational Rights and Privacy Act (FERPA).

Once a faculty member has been notified of a student's intent to file a grade appeal in a particular course, or once the appeal process has been initiated, or once a challenge has been initiated under FERPA, the faculty member is obligated to exercise extraordinary care for the materials in the faculty member's custody relating to that student's grade in that course, until such time as the appeal has been finally resolved.

It should be understood that the standards incorporated within this policy, including the thirty-day time frame, are minimum standards. Individual campuses, colleges or departments may, at their discretion, adopt more stringent policies for the retention of materials, provided such policies conform to the procedures outlined above.

IV. Rules for Non-Traditional Workshops, Short-Term Courses and Special Seminars Offering Graduate Credit

A. Background

From time to time arrangements are made to offer graduate credit in conjunction with a workshop or conference. In the past, there has been no consistent practice with respect to providing information in brochures or other material describing the requirements that must be met by a student who wishes to earn graduate credit for participation in the particular workshop or conference in question.

SOURCE: Edits approved by the Executive Graduate Council 11-30-11

B. Policy Statement

In all instances where graduate credit is offered for participation in a workshop or conference, all brochures and advertisements shall include a statement indicating if any additional requirements are necessary to receive credit and the name of a responsible contact person. All such brochures and advertisements must be approved by the campus Dean for Graduate Studies responsible for the program.

- C. The following are rules for all non-traditional courses offered for graduate credit by any unit of the University of Nebraska. Individual campuses of the University may develop more detailed policies, but they must conform to the rules given below. The intent of these rules is to assure that all courses offered for graduate credit will meet all standards of quality prescribed by the Graduate College of the University of Nebraska.

1. General Rules

- a. Approval of all courses to be offered for graduate credit by any unit of the University of Nebraska is the responsibility of the appropriate campus Graduate Council or its designee. Recommendation for such approval shall be obtained, at a minimum, from the academic program, campus Graduate Council, and the campus Dean for Graduate Studies.
- b. The offering of an approved course shall be under the authority of the academic program.
- c. All courses shall be equivalent in the following respects:
 - (1). admission requirements for all students
 - (2). grading system and evaluation standards
 - (3). course requirements that allow for evaluation of student performance
 - (4). access to faculty outside the scheduled course meetings for consultation
 - (5). qualification of faculty
 - (6). reasonable access to materials, facilities, and support.

2. Assignment of Credit Hours for Non-Traditional Credit Offerings

- a. Credit hours will be assigned according to the following minimum requirements regardless if it is called a course, a workshop, special topics, etc. For each hour of credit there needs to be at least 15 hours in-class instruction. The typical offering is 3 hours per day for 5 days per each graduate credit, i.e., 1 credit in 1 week, 2 credits in 2 weeks, etc.
- b. The other option is for a concentrated 3 day offering for one graduate credit. In this format, the duration of the course shall be at least one week greater than the number of credits offered except for a one credit offering, i.e., 1 credit over 1 week, 2 credits over 3 weeks, 3 credits over 4 weeks, etc.

- D. **Off-Campus Graduate Course Offerings.** For all University campuses, any regularly scheduled campus course or approved online course (exclusive of non-traditional courses), taught by authorized graduate faculty of the University of Nebraska, can be considered for approval to be taught at an off-campus site without special course designation.

V. **Non-Graduate Faculty Rules for Teaching Graduate Courses**

- A. **Requirements of Non-Graduate Faculty to Teach Graduate Courses.** Provided that all of the following requirements are met, a staff member who is not a member of the Graduate Faculty of the Graduate College may be permitted to teach graduate courses, direct masters theses, serve on or chair masters degree examining committees, and serve on doctoral supervisory committees:
1. The staff member shall have the terminal degree and the rank of assistant professor or above.
 2. Permission must be obtained during the first four years of the staff member's faculty appointment and shall be effective only during that period.
 3. This permission must be recommended by the appropriate departmental or interdepartmental area graduate committee and approved by the campus Dean for Graduate Studies.
 4. The staff member meeting these requirements will not have a vote on the Graduate Faculty, nor hold any elected office in the Graduate College.

SOURCE: Executive Graduate Council Minutes 10-15-81

- B. **Staff Member Graduate Credit.** Unusual circumstances may arise in which a department wishes to assign, on a limited basis, the teaching of a course for graduate credit to a staff member who (1) is not a member of the Graduate Faculty and (2) does not qualify under the conditions of the Executive Graduate Council action of October 15, 1981. In such cases, special permission may be given by the campus Graduate Council. Such permission must be limited to a specific course or courses and must be effective only for a specific time period, not to exceed one semester. Any extension of the special permission must be approved by the Executive Graduate Council.

VI. **Guidelines for Graduate Programs**

- A. **Guidelines for Submission and Process of Evaluation of New or Modified Graduate Programs**

1. **Introduction**

Evaluation of new graduate programs will emphasize the anticipated quality of the new program (as defined by faculty credentials, the content of the course of study, library and research resources, etc.), as well as the potential for the development of a high-quality program. Other aspects of the review will focus on the relationship of the proposed program to the overall mission of the campus, the resources that will be necessary to develop a program of high quality and the need for the program, both with respect to opportunities for future employment and with respect to the impact of the proposed program on existing campus or University-wide academic programs.

All new academic programs must be approved by the Board of Regents and the Nebraska Coordinating Commission for Postsecondary Education prior to their being established or

offered. Requests for new graduate programs are initiated at the departmental, unit or program level. Each request is reviewed at several levels prior to submission to the Board of Regents for approval. For the purposes of this policy, the term "academic program" shall mean a degree, major, certificate, diploma or equivalent curriculum. Programs proposing new "Certificates in Course" should be handled in the same way as proposed new programs.

2. Modification of Existing Programs

Programs undergoing significant modifications, which do not involve the establishment of a new degree, will be submitted to the appropriate campus Graduate Council, which, in consultation with the Dean for Graduate studies, will decide whether the changes are major or minor. Minor changes (i.e., items that do not have to go to the Board of Regents) will be reviewed only by the campus Graduate Council. Major changes (i.e., items that must go to the Board of Regents) may need to be treated in a manner similar to that for new proposals and should be forwarded to the Dean of the Graduate College for consideration. The Dean will then determine which procedures are applicable to the particular proposal.

3. Review Process for New Programs

The department or unit initiating a request for a new program should prepare a proposal providing the information outlined below, and any other material that might be of value in supporting the request, and should submit this information through appropriate campus channels to the campus Graduate Dean(s) for review by the campus graduate council.

It should be noted that proposals prepared according to these guidelines may be submitted to the Nebraska Coordinating Commission for Postsecondary Education in the same format, following approval by the Board of Regents. This will then avoid duplication of effort in preparing program submission materials that are duplicative, but with differing formats.

4. Program Proposal Format will follow the guidelines of the CCPE.

5. Additional Considerations for the Formulation of Cooperative and Joint Degree Programs

- a. "**Cooperative programs**" shall refer to those academic program organizations whose primary home is a department or unit on one campus (UNL, UNO, UNMC, UNK), with formally affiliated graduate faculty from more than one campus. The formally affiliated graduate faculty may be from the same discipline department on another campus and provide one or more specialization options to the graduate program. Proposals for cooperative programs should be approved by the Graduate Council, campus Graduate Dean, and campus channels on the campus of the primary home department before submission to the Dean of the Graduate College.
- b. "**Joint programs**" shall mean programs offered and administered jointly by more than one department or unit located on more than one campus. In terms of the governance of the graduate program, the units participate equally in a single graduate committee. For a joint program, students may apply to any campus offering the program and be awarded the diploma at the commencement at the campus of his or her choice.

Proposals for joint programs should be approved by the respective Graduate Councils, Graduate Deans, and campus channels on all campuses which are to be offering the program before submission to the Dean of the Graduate College.

- c. A proposal for either a Cooperative or a Joint program should describe the rationale for the establishment of the program. Particular attention should be paid to the governance of the proposed program, including the composition of the Graduate Committee, the selection process for committee members and the overall coordination of the program. The proposal should also describe how faculty affiliated with the program will be identified and approved for participation in the program.
- d. Mechanisms should be described that facilitate the registration of students and the cross-campus development of curricula as the program is developed. The proposal should describe how students are provided with ready access to the core curriculum. The program description should also make clear the extent to which faculty or students will be required to travel between campuses to provide access to courses essential to the degree program.

B. EGC Review Cycle for Proposed New Graduate Programs

The Executive Graduate Council review of a proposed new program begins upon receipt of a proposal by the Office of the Provost, together with a list of nominees for external evaluation of the program after the campus Graduate College has approved the proposal.

The outside review team is selected by the Executive Vice President/Provost or a designee, using the list of possible external reviewers. The Provost, or designee, is free to seek additional names from other sources, such as officers of professional societies in the discipline or distinguished faculty or administrators at other institutions.

Arrangements for the visit of the consulting team are coordinated through the Office of the Executive Vice President/Provost. A package of materials, including the program proposal and any supplementary materials requested by the review sub-committee, and any materials describing the University (role and mission statements, catalogs, etc.) are assembled in the Provost's Office and sent to the review team, along with a charge to the consultants.

The details of the visit itself (hotel accommodations, scheduling of interviews, etc.) are also handled by the Provost's Office. The costs of the visit, including an honorarium and travel expenses, are borne by the Office of the Executive Vice President/Provost.

During a consulting visit, the team members have an entry meeting with representatives from the campus graduate council. At the conclusion of the visit, separate exit interviews are held by the Executive Vice President/Provost, representatives of the campus graduate council and the Executive Graduate Council.

The written consultant report is sent to the Provost, who then sends copies to the campus Dean(s) for Graduate Studies, academic Dean(s), and Department Chairperson(s) or Program Director(s). If substantial changes are suggested by the review team, the department or unit should prepare an amended proposal and resubmit this to the campus graduate dean for eventual transmission to the Dean of the Graduate College and Executive Graduate Council.

The proposal shall be considered for the consent of the Chief Academic Officers, and forwarded to the Executive Graduate Council. Assuming approval at each of these levels, the Executive Vice President/Provost will then forward the proposal to the Board of Regents requesting their approval. Finally, the program will be sent to the Nebraska Coordinating Commission for Postsecondary Education for its consideration. The program cannot be initiated until the Commission's approval is obtained.

C. Addendum – Details of Program Proposal Format

1. Descriptive Information

The proposal should provide the name of the institution proposing the program, the name of the program (major), the degrees/credentials to be offered in the program (MA, MS, Ph.D. etc.), the administrative units for the program (college, division, department, etc.), the date approved by the governing board, the proposed date the program will be initiated, and a concise description of the proposed program.

2. Abstracts of Proposal

The abstract should be a 1 to 2 page summary of proposed degree program. The abstract should stand alone without further reference to the body of the proposal. Abstracts are distributed to members of the Executive Graduate Council for informational use.

3. Formulation of a Program and Preparation of a Self-Study Report

- a. **Centrality to Role and Mission.** In this section, refer to the institutional role and mission as defined in the Nebraska statutes and in the CCPE Comprehensive Statewide Plan for Higher Education. The language in the role and mission statements that refers to the types of instructional programs, degree levels, and subject areas is most relevant to program review. The report may also include references to more detailed role and mission statements adopted by the governing board, institution or administrative unit.
- b. **Consistency with the Comprehensive Statewide Plan.** In this section, refer to the relationship of the proposed program to priorities in the Comprehensive Statewide Plan not covered under other criteria (e.g., role and mission and need and demand).
 - (1). **Program of Study.** Describe the proposed program of study and explain its structure, coherence, its objectives, and the plans to regularly review and revise the program to reflect new developments in the discipline. Identify any new courses that will be needed to implement the program and indicate the number of credit hours that will be required to complete it. Provide complete, detailed syllabi of all courses which will be included in the proposed program.
 - (2). **Learning.** Describe the assessment of student learning plan for the proposed program, including the plans for using the data to improve the quality of the program. Examples of data that could be collected are retention and graduation rates, placement rates, employer surveys, graduate satisfaction surveys, results of licensing or certification exams, and other measures of student achievement.

- (3). **Accreditation.** Describe plans, if any, to seek specialized accreditation of the program. Regional accreditation status of the institution is usually not relevant to the quality or effectiveness of specific degree programs.
- (4). **Needs of Diverse Student Groups.** Include descriptions of any specific program-level or department-level initiatives or strategies, currently in place or planned, that are designed to enhance the recruitment, retention, and success of students from diverse backgrounds, including those from under-represented populations.
- (5). **Collaboration with Other Postsecondary Institutions.** Identify any collaborative agreements with other postsecondary institutions to expand the curriculum, to extend access to the program, or to insure that courses will be transferable. Describe the interactions that will take place with cognizant departments, units, and programs on all campuses. What participation will be required in terms of faculty in other programs? (Provide letters documenting willingness to participate and the type of interaction that will take place.)
- (6). **Off-campus Delivery Sites and Distance Learning.** Identify any plans to deliver the program to other sites using telecommunications or other means. Also identify any plans to use courses or materials produced by other institutions and provided by telecommunications technologies.
- (7). **Partnerships with Businesses, Organizations, and Public Agencies.** Identify any partnership agreements that will enhance the quality of the program or provide educational and practical experiences for the students. Are practica and internships readily available, for example? How will the quality of these practica and internships be evaluated and maintained?

4. Evidence of Need

- a. **Constituency and Community Resources.** In this section include information about the need for this program in the community, the region, the state, or the nation. Include data, reports, or studies about the workforce needs of business, industry, and other employers in Nebraska and about the job opportunities for graduates. Explain any potential for the program to contribute to economic development in the service area or in the state. Describe the effect that the program will have on the department initiating it. If the program involves community participation (field experience, externships, preceptorships, visiting consultants), is there reason to expect support for the program and from what segments of the community will support come?
- b. **Impact on Existing Academic Community.** This section should thoroughly address the issue of unnecessary duplication. It should identify other similar programs offered in the state by public or private institutions, explain any differences among the programs, and explain why an additional program is needed at this time. Similar programs offered within the states that are members of the Midwestern Higher Education Compact and programs that are offered in contiguous states that are reasonably accessible to residents of Nebraska should also be identified. If similar programs exist, explain why those programs cannot meet the need for which the proposed program is designed. Documentation must be furnished that relevant departments or areas on all campuses have been given copies of the proposal and have been invited to prepare a written response to it.

5. Evidence of Demand

This section should include information about the extent of student interest in the proposed program. Include studies, surveys, or other evidence about student demand. Are there adequately prepared students available for the program? What is the academic background of potential students? How many students are expected to enroll in the program in each of the first five years of operation? What is the minimum number of students required to make the program viable? What is the maximum number of students that could be accommodated with the resources committed to the program? Will the program be available to students from other states through the Midwestern Higher Education Compact?

6. Adequacy of Resources

- a. **Faculty/Staff.** Identify the number of faculty and staff required to implement the proposed program. Distinguish between full-time faculty in the major, the number of regular faculty from other majors who will teach courses in the proposed program, and the number of temporary, part-time faculty (adjuncts) who will teach courses. How many of the required faculty are currently employed by the institution? What are the credentials of the faculty (graduate faculty status, research productivity, experience in teaching or professional practice in the field)? Identify any additional administrative and support staff required, including graduate assistants, and identify the capacity in which they will serve.
 - (1). **Résumés.** Provide current curriculum vitae for every faculty member participating in the program.
 - (2). **Projected Incremental Expenses.** Complete the staffing section of Table 1: Projected Incremental Expenses.
 - (3). **Summary of the Current Research Programs Available for Graduate Student Involvement.**
- b. **Library/Information Resources.** This section should include information about the relevant library holdings and electronic information resources that are currently available. Will additional learning resources be needed? (Information about the rating of the library as a whole is useful, but is not a sufficient response. This section may also include information about interlibrary load agreements with institutions that have similar programs.) Describe the resources that will be available to students and faculty through electronic technology and discuss the services provided to assure that students and faculty can access and use the information available through those resources. Complete the Library resources section of Table 1: Projected Incremental Expenses.
- c. **Physical Facilities.** Describe the physical facilities, such as classrooms, laboratories and, offices that will be required for the program and describe how those resources will be provided. Identify any plans for renovating existing facilities, constructing new facilities, or leasing additional facilities for the proposed program within the next ten years. List other special consideration or facilities which are essential and available to the program. Complete the facilities section of Table 1: Projected Incremental Expenses.
- d. **Instructional Equipment.** Describe any specialized equipment that will be needed for use in instruction and explain how the equipment will be provided. Special emphasis should be given to the availability of computers and other information technologies. If new equipment will be required, identify the source of funds for this equipment. Complete the equipment section of Table 1: Projected Incremental Expenses.

- e. **Budget Projections.** What will it cost to initiate the program and maintain it? Are any planned expansions built into the overall format for starting the program? Where will the money come from for activating and maintaining the program? What will these increases cost? If federal or state funding is involved, what conditions or requirements are set for these funds? What is the length of the granting period? Complete Tables 1 and 2 showing the projected incremental expenses and the revenue sources for those expenses for the first five years of the program.
 - (1). **Faculty.** If additional faculty will be required, specify why. Have those faculty lines been approved? What is the source of funds for these lines?
 - (2). **Student Support.** What is the source of funding for the research programs? What is the source of support for graduate student stipends? What is the level and source of external funding of the faculty? Will these funds contribute to the graduate program? What support will be given to students and to educational requirements associated with student training (cost of visiting speakers, consultants, etc.)?
 - (3). **Non-faculty Staff.** If the program requires additional non-faculty staff, describe the source of funds for these additional staff?
 - (4). **Operating Funds.** Will additional operating funds be necessary? Source of these funds?

7. Summary of Responses to the Major Criteria

In this final section briefly summarize the proposal. The summary should recap the institution's responses to each of the major criteria such as consistency with role and mission, need and demand, and adequacy of resources. Include a time table for approval and introduction of courses and initiation of program and estimates of the anticipated admission, matriculation, and total enrollment during the initial five year period.

8. Letter of Support From Administrators

Supporting letters from administrators at the Departmental, College, and Campus levels should be included in the information transmitted to the Executive Graduate Council.

SOURCE: Approved by the Executive Graduate Council at their meeting on May 1, 1997.

D. Process for Monitoring Graduate Program Reviews

Each graduate program must be periodically reviewed by the campus from which the program originates. Normally, the campus review of a graduate program occurs at the time of the review of the department which offers it. In cases of a program offered jointly, the process of periodic review (normally, every five years) must be determined in a Memorandum of Understanding when the program is created. The Coordinating Commission also requires periodic review with specific data requirements of credit hours and number of degrees awarded.

The use of a standardized form for presentation of the program review summaries will facilitate the review of the programs and minimize the need for requesting additional information from departments for the Graduate Dean or the Coordinating Commission.

E. Procedures for the Deletion or Consolidation of Graduate Programs

1. Principles

The following principles should be considered in the deletion, consolidation, or contraction of graduate programs:

- a. The pursuit of graduate degrees is based fundamentally on the search for new knowledge.
- b. Graduate education provides basic principles which students may apply to unforeseeable challenges.
- c. Teachers of graduate students should engage actively in research and in the dissemination of the results of their research.
- d. In general, graduate programs cannot be considered independently. Many of the programs considered for deletion or consolidation are undergraduate or professional programs with a closely associated graduate program. A complex interrelationship frequently exists among the programs.
- e. Reasons for deletion or consolidation may include lack of need or demand for graduates (local, state or national); substandard quality; lack of adequate faculty or decline in quality of faculty; lack of adequate library holdings, laboratories or physical facilities; unnecessary duplication; transfer of a department or unit between colleges; lack of adequate financial support or a financial exigency; substantial increase in cost to continue program; or substantial savings affected by consolidation.
- f. The overall importance of each program must be considered within the context of the role and mission of each campus as promulgated by the Board of Regents.

2. Procedures

a. Initiation of Deletion or Consolidation Proceedings

Proceedings may be initiated by a graduate program committee; a departmental Chairperson; an academic Dean; a campus Graduate Dean; a campus Graduate Council; the Executive Graduate Council; an academic Vice Chancellor; a Chancellor; the Executive Vice President and Provost and Dean of the Graduate College (EVPPD); or the President.

b. Notification of the Initiation of Deletion or Consolidation Proceedings

Any recommendation for deletion or consolidation shall be forwarded by the initiating party to graduate committee chairpersons of all affected graduate programs and the campus Graduate Council for consideration, review, and recommendation. The departmental Chairperson of the effected program; the academic Dean; the campus Graduate Dean; the Academic Planning Committee or its equivalent; the Executive Graduate Council; the academic Vice Chancellor; the Chancellor; and the EVPPD shall also be notified of this action.

c. Campus Review by Standing or Ad Hoc Groups

Any review concerning deletion or consolidation of graduate programs is most appropriately conducted at the campus level. These Procedures insure adequate representation by the campus Graduate Council, and appropriate consideration of the graduate component in any such review process, in accord with established campus procedures. If a standing committee is empowered by campus Bylaws or legal contract to conduct a review of all programs to be considered for such deletion or consolidation, then that committee should consider the full merits of the case made for deletion or consolidation of the identified graduate programs. If such a standing committee does not exist, any ad hoc review committee established by the Chancellor should include at least one representative of the campus Graduate Council and the campus Graduate Dean. Either the standing or ad hoc review committee shall assure appropriate input from the campus Graduate Dean, the campus Graduate Council, and the affected graduate programs on the status and quality of graduate programs it is reviewing.

d. Review by the Campus Graduate Council

The appropriate campus Graduate Council shall make a recommendation to the Executive Graduate Council with regard to the proposed deletion or consolidation. In order to do that, the campus Graduate Council must perform a review of the program if it considers other reviews and data to be inadequate. An outside team of visiting scholars may be requested to review a program that is proposed for deletion or consolidation. The team will be appointed by the campus Graduate Dean in consultation with the academic Dean and Chairperson of the affected graduate program. The campus Graduate Council representative on any review committee shall report the results of deliberations on deletion or consolidation of graduate programs to the campus Graduate Council. After appropriate review, the campus Graduate Council shall submit its recommendation to the campus Graduate Dean. The recommendation shall be forwarded to the Chancellor and EVPPD for transmission to the Executive Graduate Council; copies of the recommendation shall be forwarded to the Academic Planning Committee or its equivalent; the academic Dean; and the Academic Vice Chancellors.

e. Review by the Executive Graduate Council

The Executive Graduate Council shall receive the recommendation from the EVPPD for review. The recommendation of the Executive Graduate Council will be forwarded to the EVPPD for transmission to the President and the Board of Regents.

VII. General Appeal Procedures for Academic Matters Concerning Graduate Students

A. Appeal of General Academic Matters Related to Student Programs

1. Graduate students holding admission with unclassified status in the Graduate College, admission with a master's objective, or admission with a doctoral objective (but prior to the appointment of a doctoral supervisory committee) should appeal as follows:
 - a. Initially, the appeal should be submitted to the student's adviser.
 - b. If denied, the appeal may be submitted to the Departmental or Interdepartmental Area Graduate Committee administratively responsible for the student's graduate program.
 - c. If denied, an appeal may be made to the Graduate Council for the campus administratively responsible for the student's graduate program. Normally, this will be the final appeals body (for exceptions, see Sections 5-7).
2. Graduate students holding admission with a doctoral objective in the Graduate College and for whom a doctoral supervisory committee has been appointed should appeal as follows:
 - a. Initially, the appeal should be submitted to the student's adviser.
 - b. If denied, the appeal may be submitted to the student's supervisory committee.
 - c. If denied, the appeal may be submitted to the Departmental or Interdepartmental Area Graduate Committee administratively responsible for the student's graduate program.
 - d. If denied, an appeal may be made to the Graduate Council for the campus administratively responsible for the student's graduate program. Normally, this will be the final appeals body (for exceptions, see Sections 5-7).
3. When a student's graduate program consists of registrations essentially or entirely on one campus, the Graduate Council of the campus administratively responsible for the program will

constitute the appeal board. When a student's graduate program includes substantial registrations on a campus other than the one administratively responsible for the program, three members of the Graduate Council for the other campus will be designated by the Dean for Graduate Studies on that campus to augment the Graduate Council on the campus administratively responsible for the program. In this case, the augmented Council will constitute the appeal board. The decision concerning augmentation of a campus Graduate Council for a specific appeal involving registrations on a campus other than the one administratively responsible for the student's program will be made by the Deans for Graduate Studies on the campuses involved.

4. In all cases, appeals should be made in writing to the appropriate adviser, Committee, or Council.
 - a. In those cases where the appeal concerns graduate-level qualifying exams, comprehensive exams, or final oral exams, the following deadlines must be observed. It is the responsibility of the student to make reasonable efforts to ascertain the results of the examination within thirty days after its completion.
 - b. The initiation of the appeal, in writing, by the student must be filed within thirty days following the student's receipt of notification of the evaluation.
 - c. In those cases involving an appeal of termination of program, initiation of the appeal, in writing, by the student must be filed within thirty days following the student's receipt of the official written notification by the campus Office for Graduate Studies.
5. There is no absolute right of appeal to the Executive Graduate Council. The Executive Graduate Council will accept appeals only in those cases where in the exercise of its sole discretion it shall first find that one or more of the following grounds for accepting the appeal exist:
 - a. That the campus Graduate Council has violated some element of fair procedure (example: has failed to allow the parties concerned to present their cases fully to their campus Graduate Council);
 - b. That the campus Graduate Council has failed to examine or give adequate weight to important evidence relevant to one party's position;
 - c. That the campus Graduate Council has given undue weight to evidence not pertinent to the case; or
 - d. That some gross miscarriage of justice would be perpetrated if the decision of the campus Graduate Council is allowed to stand.

A decision by the Executive Graduate Council not to accept jurisdiction of an appeal shall be final and is not subject to further appeal.

6. Appeals to the Executive Graduate Council must be made in writing and must specifically outline the grounds for the appeal. Such appeal must be made within 20 working days of the day the decision of the campus Graduate Council is received (working days shall not include those days the University is not in session).
 - a. The Executive Graduate Council must make a decision to hear the appeal or not to hear the appeal within 30 working days after receipt of the appeal. Acceptance or denial of jurisdiction over the appeal will be made in writing.

- b. The decision of the Executive Graduate Council on the merits of the case will be made and transmitted to the concerned parties within 40 working days after the decision to hear the appeal.
7. No person who was a member of the department or campus Graduate Council involved in the case will be eligible to participate in the decisions of the Executive Graduate Council either to decide whether the case should be heard or to decide the merits of the case. However, the Dean for Graduate Studies may replace members of the Executive Graduate Council not eligible for participation in the decision to hear the appeal or in the appeal itself.

B. Appeal of Grades in Graduate-Level Courses

Appeal of grades in graduate-level courses shall be made through the graduate student grade appeal procedures for the campus through which the grade was awarded. Students who believe their evaluation in a course has been prejudiced or capricious must first attempt to resolve the matter with the course instructor and then the department through which the course was offered. If the matter is not resolved, the student may file an appeal in writing to the campus Dean for Graduate Studies who shall inform the student of the grade appeal procedures approved by the Graduate Faculty or by their duly elected representative Graduate Council for that campus, and shall forward the appeal to the student-faculty committee or council which is designated to hear graduate-level course grade appeals on that campus. Since awarding grades in courses occurs at the individual campus level, the decision of the campus committee or council designated to hear the case on behalf of the campus Graduate Faculty shall be final and is not subject to further appeal.

Amended by the Executive Graduate Council 03-18-82

Denial of Admission. There is no right to due process hearing with respect to denial of admission of a graduate student. Therefore, there is no need for an appeal procedure for applicants for graduate programs.

Re: Presiding Officer - Executive Graduate Council

Dear Dr. Sample:

You have requested an opinion concerning the presiding officer of the Executive Graduate Council and who should preside at meetings of the Council in the absence of the presiding officer designated pursuant to the Bylaws of the Board of Regents.

Section 2.2 (g) of the Bylaws of the Board of Regents provides that the "Office of the Executive Vice President for Academic Affairs shall include an executive officer for graduate studies and research, who shall serve as the presiding officer of the University-wide graduate faculty and councils thereof." It is my understanding that you are serving in this executive officer position.

I have examined the document entitled University of Nebraska System-Wide Organization and Procedures for Administrative and Faculty Management of Graduate Studies. This document sets out the organization of the Executive Graduate Council and provides that you as the Executive Officer for Graduate Studies and Dean of the Graduate College will preside over the meetings of the Executive Graduate Council and faculty. However, there is no provision designating an officer of the University to preside over meetings of the Executive Graduate Council in your absence. Due to this fact and taking into consideration the authority delegated to you by Section 2.2 (g) of the Regents' Bylaws, it is my opinion that if you are unable to attend meetings of the Executive Graduate Council you have the authority and responsibility to designate which officer of the University will preside at meetings of the Council in your absence.

Yours very truly,
